Discd the PCA/CA request with Will Kolbe, WH/1, today. He sees the inconsistency of requesting a PCA/CA on L-4 (for which she cannot qualify) and will resubmit request for a CNC.

We agreed that TCACTON has been running her as an agent (without any approval) since May, 1966.

Kolbe sees TCACTON losing interest in L-3 (her husband, who doesn't have a PCA/CA either) because of poly results, etc.

1. ON 14 JULY 67, DOSCHER SHOWED LIREBEL-2 (244191) COMPOSITES OF "GARCIA" MADE BY THE LIEMBRACES, LIRING-3 (748221) AND LIRING-4 (NP). LIREBEL-2 SAID THE PERSON WAS DEFINITELY NOT DAVID CARASOLA MEJIA (STATION FELT IT WAS INITIALLY) BUT THAT THE COMPOSITE HAD A STRONG RESEMBLANCE TO LUIS CASTILLO RALDA. LIREBEL-2 GAVE DOSCHER CASTILLO'S ADDRESS BUT ASKED THAT CASTILLO NOT BE FOLLOWED BECAUSE HE IS VERY SECURITY CONSCIOUS. HE WOULD SPOT THE SURVEILLANCE AND WOULD IMMEDIATELY SUSPECT LIREBEL-2 OF HAVING PASSED THE ADDRESS TO SOMEONE.

2. IN VIEW OF THIS, STATION HAS DECIDED USE PHOTO TRUCK TO OBTAIN RECENT PHOTOS OF CASTILLO AND THEN DETERMINE IF HE IS "GARCIA" BY SHOWING PHOTOS TO LIEMBRACES AND LIRING-3 AND 4.

WH COMMENTS: *ROWTON (LIRING-3 Case Officer) will return to Mexico without stopping in Caracas to discuss LIRING-3 operation.

**Caracas requested that LIRING-3 not become operationally engaged - principally because assistance most likely being directed to BRAVO guerrilla forces and the MIR and that the tangible advantage to be derived by the extremists would outweigh the value of any intelligence produced.

***LIRING-3 has established contact with VALDEZ and MORENO, young Mexican leftists who wish to go to Caracas and set up some sort of commercial venture in order to provide assistance to Venezuelan subversives. LIRING-3 aggreed to help them as partner in Venezuelan venture.

1. USING REFS ABOVE AS BASIS FOR DISCUSSIONS BETWEEN GUATEMALA CITY COS AND MEXICO CITY STATION OFFICERS ON OPERATIONS WHICH CAN BE INITIATED BY WOFACT TO AID MEXICAN AND GUATEMALAN GOVERNMENTS COUNTER GUERRILLA ARMS SMUGGLING FROM MEXICO INTO GUATEMALA. FOLLOWING POINTS EVOLVED:

A. MEXICAN AND GUATEMALAN GOVERNMENTS APPARENTLY BELIEVE MOST SMUGGLING OCCURS IN SOUTHEASTERN PORTION STATE OF CHIAPAS ON MEXICAN SIDE AND SOUTHWESTERN PORTION GUATEMALA WHERE GOOD ACCESS ROADS EXIST. MOST SMUGGLING DONE VIA TRUCKS, BUSES AND OTHER VEHICLES. BOTH GOVERNMENTS COOPERATING CLOSELY AND HAVE BEEFED UP OR HAVE PLANS TO BEEF UP MILITARY UNITS ...

SECRET

THIS BORDER AREA TO DETECT ARMS TRAFFIC. GUATEMALAN SECOND VICE MINISTER DEFENSE, COLONEL FRANCISCO SOSA AVILA, HAS INITIATED UNILATERAL OPERATION TO PENETRATE GUATEMALAN CUSTOMS HOUSES IN KEY AREAS TO DETERMINE WHO AIDING SMUGGLERS.

B. TREMENDOUS SURGE OF GOODWILL WHICH NOW EXISTS BETWEEN MEXICAN AND GUATEMALAN GOVERNMENTS WILL CERTAINLY AID IN KEEPING JOINT OPERATION OF WIPING OUT SMUGGLERS ON TRACK. TEND BELIEVE MAJOR WOFACT EMPHASIS SHOULD BE ENCOURAGEMENT AND AID TO BOTH GOVERNMENTS WITH ADVICE, TECHNICAL EQUIPMENT, TRANSPORTATION, MONEY AND HARD INFO ON SMUGGLING ACTIVITIES WHEN AVAILABLE. AS CITED IN REFS, GUATEMALA CITY STATION HAS ALREADY INITIATED SUCH MATERIAL SUPPORT TO GUATEMALAN TREASURY GUARD TO BUILD UP ITS COLLECTION CAPABILITIES.

C. REGARDING COLONEL SOSA'S UNILATERAL PENETRATION OF THE CUSTOMS HOUSES ALONG THE BORDER. MEXICO CITY STATION CAN DISCUSS SIMILAR POSSIBILITY WITH 745332 LITEMPO-8 TO SEND PERSONNEL TO PENETRATE MEXICAN CUSTOMS HOUSES. THIS MIGHT REQUIRE FINANCIAL AID FROM MEXICO CITY STATION TO PAY SLARIES OF ADDITIONAL EMPLOYEE/AGENTS.

2. UNILATERALLY, STATIONS PLAN:

A. EXPLOITATION OF WHATEVER POTENTIAL 798301 LIRING-3 AND C-16251 NORRIS K. UMPHLET MAY HAVE IN PENETRATING GUATEMALAN GUERRILLA MOVEMENT AND ARMS TRAFFIC RING. THESE PLANS DISCUSSED IN SEPARATE CABLES

9 JAN 1967

B. LIRENO-1, FORMER MEXICAN IMMIGRATION OFFICER, WILL BE QUERIED ON HIS ABILITY RECONTACT FORMER COLLEAGUES ALONG BORDER AREA WHO HAVE ACCESS INFO ON ARMS SMUGGLING FOR POSSIBLE UNILATERAL RECRUITMENT. THIS DIFFICULT OPERATION, HOWEVER, BECAUSE OF COMMO PROBLEMS CREATED BY DISTANCE FROM MEXICO CITY. ALSO, ANYONE WHO NOT FROM BORDER AREA EASILY SPOTTED BY LOCALS AND WOULD CREATE SUSPICION.

C. ON 5 OR 6 JAN 67, MEXICAN AND GUATEMALAN AUTHORITIES PLAN MEET TO DISCUSS SMUGGLING ACTIVITIES AND WHAT THESE GOVERNMENTS CAN DO TO JOINTLY SMASH ARMS TRAFFIC. COS GUATEMALA WILL FIND OUT WHO ATTENDED MEETING AND WHAT WAS AGREED UPON TO GIVE MEXICO CITY STATION CLEARER IDEA OF FOLLOW UP POSSIBILITIES.

D. IN VIEW FACT LIREBEL-1 TRIP TO CUBA HAS NOT PANNED OUT TO DATE AND FACT HE COULD BE OF IMMEDIATE USE TO GUATEMALA CITY STATION IN WORKING WITH GUATEMALAN GOVERNMENT ON GUERRILLAS AND ARMS TRAFFIC, PLAN CANCEL CUBA TRAVEL AND HAVE HIM RE-ENTER SECRET

2. DESPITE LINLUCK ASSESSMENT CAPUANO WHICH SHOWED OBVIOUS PREJUDICE, STATION INTENDS REVAMP PLANS FOR CAPUANO RECRUITMENT ATTEMPT. CABLE TO FOLLOW.

3. ONE OF MAIN POINTS IN ENTIRE CASE IS HOW SERIOUS IS SMUGGLING THREAT. THERE ARE THOUSANDS OF ARMS IN GUATEMALA FROM VARIOUS HISTORICAL INCIDENTS (1954 FALL OF ARBENZ REGIME; 13 NOV 1960 UPRISING WHEN LARGE AMOUNTS OF ARMS TAKEN FROM GUATEMALAN MILITARY; 1961 WHEN ARMS LEFT IN GUATEMALA TRAINING SITES AFTER BAY OF PIGS; AND CONTINUOUS INFILTRATION OF ARMS ON SMALL SCALE OVER PAST SEVERAL YEARS). WOFACT GOALS OF JOINT OPERATION ARE TO DETERMINE EXTENT OF ARMS SMUGGLING INTO GUATEMALA FROM MEXICO AND ASSIST GUATEMALAN AND MEXICAN AUTHORITIES IN EFFORT REDUCE ARMS TRAFFIC AND GUERRILLA THREAT AS MUCH AS POSSIBLE.

4. CANNOT ESITMATE COST OR DURATION OF OPERATION YET, BUT EXPECT SOME FINANCIAL ASSISTANCE MAY BE REQUIRED TO HELP BOTH GOVERNMENTS ESTABLISH INTELLIGENCE NETWORKS IN BORDER AREA. THIS, OF COURSE, IS IN ADDITION TO TECHNICAL AND OTHER

1. STATION GUATEMALA MOST OPTIMISTIC DEVELOPMENTS LIRING-3 OPERATION WHICH APPEARS HAVE EXCELLENT POTENTIAL. OPERATIONAL TAKE SHOULD PROVE EXTREMELY USEFUL. STATION AGREES WITH MEXICO CITY THAT LONG RANGE OBJECTIVES THIS OPERATION PRECLUDE PASSAGE TO LIAISON AT THIS STAGE DEVELOPMENT.

2. AS REF B REPORTED THAT TWO MEMBERS OF GUATEMALAN COMMUNIST PARTY (PGT) NOW IN HABANA SEEKING CUBAN AID, BELIEVE LETTER SUGGESTED PARA 1 OF REF A WOULD BE TIMELY AND ALMOST CERTAIN BOOST LIRING-3'S IMAGE WITH THE FAR.

C-16251

3. BELIEVE PARALLEL OPERATION USING NORIS K. UMPHLET (PARA 3 REF A) ALSO OFFERS EXCELLENT POSSIBILITIES. AS MOST KEY COMMUNISTS IN GUATEMALA NOW UNDERGROUND, INITIAL CONTACTS MIGHT PROVE PROBLEM. UMPHLET MIGHT ARRANGE CONTACTS THROUGH GUATEMALAN EXILES IN MEXICO, OR COULD BEGIN WITH SO CALLED COMMUNIST "INTELLECTUALS", SUCH AS ROLANDO COLLADO ARDON OR ALFONSO BAUER PAIZ, WHO STILL IN THE OPEN.

MEMORANDUM FOR THE RECORD	DATE [illegible] 1967
SUBJECT	FILE NUMBER X07668 - 798301

Rec'd for my coordination an outgoing cable to MEXI, saying that PREVCHS had been granted a Limited Contact-Assessment POA on 19 Jan '67. The next sentence said that WH/1 was asking for amendment of this contact & assessment POA so that PREVCHS could provide cover for LIRING-3 (201-798301). [redacted] Jack Stewart, at the outset of our conversation when I mentioned L-3, said "I hope you never got mixed up in the LIRING-3 case. What a mess".

I informed Stewart I had been deeply "mixed up" in the L-3 case since 3 June '66 when Stewart himself requested a POA on L-3. I told him of the three notices over a six month period I had sent to WH/1 asking for resolution of the derog info and my invitation to discuss. CI/OA never heard a word from WH/1 in answer to its notices. Thus on 20 Dec. '66, CI/OA closed the LIRING-3 file for failure to comply. Stewart said Station was handling L-3 as a hostile, but appeared dumbfounded that the use of such a person as a directed agent requires that that person qualify & gain a POA.

Re the requested amendment on PREVCHS, the latter has only a limited POA because of items cited in POA granting; moreover, L-3 has never had the proper approval and was technically disapproved by the action of 30 Dec. 1966.

Stewart removed sentence telling MEXI that they WH/1 were asking for such an amendment, and I coordinated on simple notification of POA action of 19 Jan '67.

2 May, 1966

Subject: Wallace B Rowton Contact with Carlos Jurado.

1. At about 1830 on 2 May, 1966, Rowton dropped into the Salon de La Plastica Mexicana in the hope of running into Subject so that he could renew contact more or less casually.

2. Fortunately as soon as he stepped into the door he found Subject engaged in conversation with the receptionist and another person (probably a Mexican employe of the Salon). When Subject spotted Rowton he broke off his conversation and moved away to greet Rowton cordially. He said that he had himself just arrived at the Salon and was very happy to run into Rowton again. After a few briff remarks, he invited Rowton to coffee in a nearby cafe. Rowton accepted and they both left the Salon without further delay.

3. Rowton remained with Subject in conversation over coffee for about 45 minutes. Subject expressed gratification in having met Rowton and several times reassured Rowton that he enjoyed conversing with him regardless of whether he made an sale of his painting or not. Rowton reverted to the theme that he had a genuine interest in Subject's future and hoped in some way to provide Subject with the means of becoming relatively independent so that he could travel and carry on his art work freely. Rowton added that he had given much thought to the idea of using Subject to help him in his economic research, since this would justify Rowton's putting Subject on his expense account. He then questioned Subject on his possible connections in Mexico, but Subject confessed that he had only limited contacts that probably would not be useful to Rowton. Rowton then moved into the target question. He stated that most of his clients in England, France and Greece were interested in Cuban requirements and perhaps Subject was in a unique position to prepare a report on what the Cuban economy required at the moment. Subject responded without hestitation that he could do something on Cuba without too much difficulty. He explained that he knew official Cubans in Mexico City, including those in the Commercial Mission, and could travel into Cuba if necessary.

4. Rowton then stressed that he really did not need too many statistics on the Cuban economy nor contact with the Cubans but wanted somehow to justify helping Subject financially. He explained that he could easily assemble some data himself, but wanted Subject to do something concrete so that he would remain in the picture and Rowton could consider him in

201-798301

Att #1 to HMMA-28875

RS COPY

a sort of stringer in reporting on economic developments. Subject replied that he understood and did not see that such a task would be too difficult.

5. Rowton then asked Subject how he was coming in locating a new aprtment/studio. Subject replied that he had found a desirable place near Chapultepec, and hoped to be able to move soon. Rowton then commented that he might have to leave for Paris in the next few days and would be away for about two weeks on business. He stated that he might be able to help Subject with the rent on his studio provided it had a phone. Rowton explained that he was at present paying 350 pesos monthly for secretarial service and could just as well pay Subject something for taking telephone messages. Subject replied that he would be glad to be of service to Rowton without compensation ("mi casa es suya")in such a matter.

6. Rowton then turned the conversation to Subject's wife and family. Subject revealed that his wife's maiden name (apellido) was the Chinese translation of "Flor de Durazno". He pronounced it in Chinese for Rowton but Rowton made no attempt to transliterate it and at this point cannot recall the phonetic pronunciation. Subject added that Chi-chay is a Cuban corruption of the Chinese given name. In reply to Rowton's direct query, Subject stated that his wife's ~~father~~ mother is in Cuba but her father is in New York. He added that her father did not agree with the revolution and left but the rest of the family remained. He also stated that her mother has not remarried and lives with her brothers and sisters. Subject added that his wife felt no bitterness toward her father and in fact the father writes regularly - once a week from New York. Rowton did not press for an address at the time, feeling that it would be more discreet to wait for an opening at a subsequent meeting(when he could allege that he was planning to stop over in New York).

7. Rowton took the occasion of his alleged impending departure to ask for Subject's home address so that he could write from Europe. Subject stated that since he might move it would be better for Rowton to write to him care of the Salon rather than to his present address.

8. On leaving Subject Rowton promised to pass by the Salon again before he left so that he could say goodbye to Subject.

Wallace B Rowton

2 May, 1966

Subject: Wallace B. Rowton Contact with Carlos Jurado.

1. When Rowton arrived at the entrance to the Bellas Artes Building at 1100 on 30 April, as planned, he found Subject waiting on the steps. Subject greeted Rowton cordially and suggested that they take a taxi since the Ministry of Education building was a little too far to walk to. He then hailed a taxi and instructed the driver to take them to the Secretaria de Education Publica on Calle Argentina.

2. On arrival he escorted Rowton through the court-yard of the building and explained the murals of Diego Rivera. He commented that he felt the murals were superior to those at the Prado Hotel and Cuernavaca since they had more "social meaning". He stressed the hardship under which Rivera had worked, which included some physical danger from certain elements opposed to his socialist ideas. Rowton picked up this theme in relationship to Subject's own situation in an attempt to elicit as much information as possible concerning Subject's financialstatus and position vis-a-vis the Mexican government.

3. In the course of conversation Subject stated that he had received relatively little understanding and sympathy from the government officials as a whole but did receive some support from the Instituto Nacional de Bellas Artes. He explained that he was able to earn enough money from teaching assignments to be relatively independent, and not depend on sales of his picutres to make a living. In reply to Rowton's comment to the effect that perhaps his wife could find some employment to help Subject, the latter replied that his wife could not work because of her status. He quickly added that he probably would not find it difficult to procure working papers for her, but he preferred not to do so at least at the present time.

4. After completing his tour of the Secretariat of Education Building, Subject invited Rowton to view the murals of the Supreme Court Building on Piño Suarez, which he described as superior even to those of Diego Rivera, especially because of their open defiance of official opinion. On the way Rowton continued to put discreet questions concerning Subject's personal life. Subject replied by revealing that

he lived with his wife and three-year-old child in a very small apartment near San Angel and shared a studio with another artist. He added that he was paying 650 pesos monthly rent which he considered very high for what he was getting. He also complained that the artist with whom he was sharing the studio was a dilettante who was more interested in the atmosphere of the Latin Quarter than in art for its own sake. He said he found it difficult to paint with guitars playing and cocktail glasses clinking in the background. Subject then stated that he was looking for a more suitable arrangement, perhaps in a condominio and preferably in the Tacubaya area.

5. In connection with his own future hopes, Subject stated that he wanted very much to travel to gain as much experience as possible so that his style could be crystalized. He commented that he could move easily to Cuba since his wife's family lived there and he could get along with the Cuban authorities, but he felt Mexico was better for him at the moment. He expressed preference for Sweden, North Africa and Greece. In reply to Rowton's queries, he stated that he did not feel that his daughter would present a problem, since he could leave her in the care of his or his wife's relatives. He added that she was currently attending a Jardin de Niños in the mornings and doing very well despite her tender age.

6. Subject commented also that he likedtravel so much that he had joined the Mexican Navy to see the world. He added that he had been able to visit almost all the ports of the east and west coasts of North and Central America but had not succeeded in seeing Europe as he had hoped. Since Rowton was posing as a Greek, Subject expressed great interest in visiting Athens and the Middle East, and at one point asked Rowton how much money he would need to live in Athens for a month as a tourist. Subject also stated that both he and his wife were anxious to learn English and French so that they could absorb as much local culture as possible in their travels.

7. After inviting Rowton to coffee at a nearby restaurant, Subject stated that he had to meet his wife and some friend's for lunch and left Rowton at about 1335 in front of the Cathedral. He promised to telephone Rowton again so that they could get together before Rowton left the country.

Wallace B Rowton

27 April, 1966

Subject: Wallace B Rowton Contact with Mr. and Mrs.
Carlos Jurado. (from LITAMIL-1)

1. Following a Station lead to the effect that Mrs. Chichay Jurado, who is employed by the Cuban Consulate in Mexico City, is the daughter of a Cuban residing in New York City, Rowton visited the Salon de la Plastica Mexicana, Calle Havre 7, where Carlos Jurado's paintings were on exhibit. After several unsuccessful attempts to meet Jurado by chance at the salon, Rowton left his alias and telephone answering service number with the receptionist on 14 April, 1966, and asked that Jurado contact him for a meeting. On 18 April Rowton again visited the salon (having received no message through the answering service) and fortunately met Jurado who had dropped in to pick up messages from the receptionist.

2. Rowton explained that he was interested in Jurado's style, particularly for a mural that might go well in a New York night club owned by a friend of his. Jurado was, of course, immediately interested and commented that he was most anxious to visit New York to see the Museums. In answer to Rowton's query, he stated that he did not have any relatives in New York and had never been outside Mexico. Rowton invited Jurado and his wife to dinner the following evening so that they could discuss the proposed mural. (Rowton planned, if pressed, to use the "La Chansonette" night-club restaurant owned by his ~~frien~~ Greek friend Rita Dimitri as the prospective client).

3. On 19 April at 1930 Rowton met Jurado at the Salon as planned. Fortunately Jurado had brought his wife Chichay along as Rowton had suggested. Rowton invited them to dinner at the Restaurante &

"El 77" at Calle Londres 77. Neither had eaten there previously and appeared delighted at the opportunity to enjoy a good dinner.

4. In the course of conversation, Jurado stated that his wife Chichay was born in Cuba and that they had a three-year old daughter. Niether he nor Chichay made any referance to her employment at the Consulate and Rowton did not feel it wise to press too hard on that subject. Rowton again asked whether Jurado had any relatives in New York in the event it might be advisable for him to travel there in connection with the mural, but neither he nor his wife responded in the affirmative.

5. Later in the evening, Jurado and his wife strolled along ~~Ntuz~~ Calle Niza and Reforma to the Hotel Hilton with Rowton. This gave Rowton an opportunity to sound them out on politics with specific reference to Cuba. Rowton pretended to be of Greek-Irish parentage and more or less neutral in his own political views with respect to Cuba. Chichay Jurado stated that she felt Cuba was doing well and that the relovution was the only answer to the corruption that had existed previously. Carlos Jurado agreed, commenting that the "Northamerican" position with regard to Cuba was unfortunately erroneous and short-sighted. Rowton placed much of the blame on the former Batista regime but lamented the fact that in the meantime the Cuban people ware suffering from the mistakes of the politicians.

6. While walking along Reforma, Carlos Jurado commented that his wife's father was Chinese but did not indicate where he was then residing. Chichay Jurado stated that she had learned some Cantonese as a child, but did not consider herself proficient in Chinese.

7. Before leaving him for the evening, Carlos Jurado invited Rowton to visit some of the better murals in Mexico City on Saturday, 23 April, and promisedd to telephone Rowton to set the time and

place of the meeting. He informed Rowton that he himself could be contacted on 48 22 66, a telephone that was located near his studio in the Colonia Florida. He asked Rowton to obtain as soon as possible the measurements of the proposed mural and x photographs of of the owner so that he could make a sample painting.

Identification of Jorge ARIAS Gomez as Salvadoran Delegate to Tri-Continental Conference

1. [illegible] forwarded to [illegible] a copy of the 15 February 1966 edition of Politica, a Mexican publication that contained photos of and speeches delivered by the Chiefs of the various delegations to the Tri-Continental Conference held in Havana in January.

2. "Sergio [illegible]", described therein as the Chief of the Salvadoran delegation, was identified from his photo by the [illegible] and [illegible]-2 as Jorge ARIAS Gomez, a member of the Central Committee of the [illegible]. According to [illegible]-2, ARIAS is probably the #4 man in the [illegible] hierarchy - behind Raul CASTELLANOS Figueroa, Jorge Shafick [illegible], and Salvador Cayetano CARPIO. It is rather strange that the [illegible] sent [illegible] on this [illegible], [illegible] [illegible]-2 and [illegible]-2 reported that, while in Cuba in 1961-62, ARIAS had an affair with a girl that resulted in her pregnancy, and the Cubans sent a strong complaint to the [illegible] concerning his conduct. So?

3. A LIVACATE main intercept ([illegible]-[illegible]91) indicated that ARIAS was expected in Moscow in January. He apparently has not yet returned to El Salvador, and thus he may also be representing the [illegible] at the 23rd CPSU Congress. Any available photos of Salvadorans at that affair would be appreciated.

SUBJECT: [illegible]/Dr. Armando SOTO Rodriguez - Report of Cuban Guerrilla Training near Netzahualcoyotl Dam

ACTION REQUIRED - REFERENCES

Action Required: See paragraphs 3 and 4

1. Attached is a copy of an undated employment letter to [illegible] from Dr. Armando SOTO Rodriguez, self-described as an ex-military physician. The letter bears the return address [illegible] 611, Villahermosa, Tabasco, Mexico and a Villahermosa postmark dated 21 (?) February 1966. In the letter, which was written in fairly good English, SOTO said among other things that the Cuban Consulate in Merida has established a group of Cubans in Raudales, Malpaso, where the Netzahualcoyotl Dam is being finished, who are training Mexicans in guerrilla tactics.

2. Headquarters has no traces identifiable with Armando SOTO Rodriguez or [illegible] also mentioned in the letter. The National Geographic map of Mexico and Central America dated 1953, 1:3.5 million, shows the town of Netzahualcoyotl at [illegible], on the [illegible] River about fifty miles from the Guatemalan border.

3. [illegible] on Cuban guerrilla activity at Netzahualcoyotl. Since a sensitive source ([illegible]) did report occasional interest by the Cuban Consulate in the Tabasco area, and since the area pinpointed by source does lend itself to cross-border activities, it would be appreciated if Mexico City Station would endeavor to check out this report. [illegible]-1 especially might be able to furnish some information in this connection. A former Merida Base staffer now stationed at Headquarters recalls that Ventura "El Tigre" [illegible], a wealthy Mexican cattleman, has extensive holdings centering around Emilio Zapata, about 25 miles from Netzahualcoyotl, and might be knowledgeable of activities in the area. Access to [illegible] would probably be gained through [illegible]-1 and Raimundo [illegible] who services [illegible]-1's and [illegible]'s airplanes in Merida. [illegible] has previously extended invitations to visit his ranch at [illegible] and might do so again if suitably approached. It is recalled that Lawrence F. BARKER has traveled or planned travel near the general area. Perhaps BARKER could set up a trip to this area. Another possibility for background and channels might be through [illegible] who has recently been heard to say that he is visiting the Isthmus of Tehuantepec regularly. (This was overheard from an intercepted ham radio conversation). Three maps of the area are attached as of possible assistance.

MEMORANDUM FOR THE RECORD

SUBJECT: Meeting with AMBANG-1

1. I met with AMBANG-1 on 27 July 1963 in Miami. The following is a resume of the business transacted at that meeting.

a. Request for High Explosives

AMBANG-1 stated that in view of my outline of strategic targets inside Cuba during our last meeting which took place in Washington on 21 June 1963, he had decided to attempt a sabotage operation against the Havana power plant. He informed me that he has a man employed in the power plant in Havana who is capable of launching this operation. In this connection AMBANG-1 asked if we could make available twenty pounds of high explosives as well as six to eight thermite grenades. AMBANG-1 asked if it were possible to have the twenty pounds broken into smaller lots. In our further discussion of this subject, it became apparent that A-1 would be willing to receive the materiel either in San Juan or inside Cuba, but that he definitely preferred the latter if this were possible. Like in most other instances during our conversation, I advised AMBANG-1 that I would need to discuss this matter with my superiors but that I could tentatively assure him of our ability and willingness to furnish the high explosives in San Juan and possibly inside Cuba. At this point I asked AMBANG-1 if he could foresee the need for materiel of this type inside Cuba. I told him that I asked this question because if his group were prepared now or in the near future for meaningful sabotage action inside Cuba it was conceivable that we could begin the caching of needed materiel inside Cuba. AMBANG-1 assured me that they were in a position to sabotage the electrical plant in Havana. (I did not ask, neither did he specify which plant.) He did not promise immediate action, adding that he wanted to assure himself of the details of the planned operation and the safety-odds of the man involved. A-1 then indicated that he would certainly be in a position to accomplish this mission and others in the future and would be most grateful for any materiel we could put in place. I left the matter with him with the understanding that if it were possible we would proceed with caching the high explosives in the general area of Havana. He assured me of their capability to service and retrieve the cache.

b. Request for Contact in Guantanamo

AMBANG-1 asked me if it would be possible for us to arrange some means for Rogelio Cisneros to visit Guatanamo and talk to his brother who is an employee of the Naval Base and another agent of theirs likewise employed there. The reason A-1 gave for the request was that they wished to inform Ramon Cisneros Diaz of the JURE plans to begin the implementation of their plan of resistance and overthrow of the Castro Regime. I advised A-1 that whereas I would look into this matter as I could tentatively tell him that the chances of accomplishing this were remote.

c. AMBANG-1 Political Plans

AMBANG-1 informed me that he was planning at this time to be in New York on or about 10 August and that following this trip he intended to go to Santo Domingo and Caracas. In Santo Domingo he hoped to set up a small base for operations such as a small house on a farm near the shore which could be used for boat travel to Cuba. Once he had made such arrangements he intended to talk to President Juan Bosch telling him of the plan and asking his acquiescence if not support. AMBANG-1 intends to tell Bosch that he will not embarrass him and will go about his business in a secure and professional manner adding that if he should embarrass Bosch, the latter could disclaim him and A-1 would desist from any further activity there.

So far as AMBANG-1's trip to Caracas is concerned, that will be principally devoted to orienting the JURE representation in that city. In addition, AMBANG-1 will attempt to see and talk to Venezuelan Government officials including President Betancourt.

Some time after this trip AMBANG-1 intends to visit Central America principally Costa Rica and if he can procure a visa, Mexico. The purpose of all his travel is the raising of funds, the general tightening of his organization and discussions necessary to coordinate their efforts.

d. Isolation of Cuba.

AMBANG-1 made it exceedingly clear that the lifeline to his assets inside Cuba had been severely restricted when PAA flights were suspended. Nothing could suit AMBANG-1 more than to have these flights resumed. AMBANG-1's obviously great interest in the resumption of these flights was the most eloquent statement yet of his belief that he has a network, or that he can revive a network within Cuba. At least at this stage of JURE operations, AMBANG-1 does not appear to consider the infiltration of manpower as necessary.

AMBANG-1 stated that the use of flights from Spain and Mexico to Cuba was difficult and costly whereas the Miami-Havana run had been most useful in maintaining contact within Cuba. It was AMBANG-1's opinion that the resumption of PAA flights would be an operational boom to JURE and that whereas he could see Castro making some political capital out of the flights, he believed that some appropriate statement such as "there is no political significance but only a humanitarian and compassionate reason for the reestablishment of this link," would be sufficient to negate any political advantage by Castro.

e. AMBANG-1 Phasing Out of his Employment

AMBANG-1 gave me to believe that he is closing shop and giving up his position with the Corporacion de Renovacion Urbana y Viviendas where he is employed as an engineer in charge of building pre-cast concrete houses. AMBANG-1 stated that during the past week Governor Munoz Marin gave final authority for the erection of a plant to produce these houses in Puerto Rica. AMBANG-1 is torn with the thought of leaving this project which he believes will be most successful, and which would assure his livelihood, but he knows that he must devote himself to the fight against Castro. It is obvious to me that AMBANG-1 will within the next two months phase out of this employment to devote full time to the liberation of Cuba.

f. A JURE Radio Link

AMBANG-1 asked me if I would be able to assist him in the establishment of a San Juan-Caracas-Miami radio link. He explained that the JURE has spent a great deal of money on telephonic communications between these points and were most anxious to set up a means of radio communication in order to economize. I guess that AMBANG-1 could tell from my reaction that I was not too sympathetic to his request for he withdrew it almost as soon as he had made it. He went on to say that this was a problem which they could overcome and I presume that he will seek to establish such radio communications without our assistance.

g. Aerial Maps of Cuba

AMBANG-1 informed me that the JURE membership had brought out of Cuba an entire series of maps showing key roads, bridges, industrial plants, et al, which they had copied by the Aero Service Corporation in Philadelphia, Pennsylvania. AMBANG-1 stated that they had received most of these photos from the Aero Service Corporation but that the 101 were still missing. He gave me the numbers of those missing and asked if we could procure them. I have since informed AMBANG-1 that it would perhaps be best it he could, or his organization, do this instead but that we would pay the travel of one of his men, should this prove necessary. Attached, hereto, is a copy of the missing photos in question.

h. JURE Organization and Strength

AMBANG-1 informed me that the membership of the JURE in San Juan was now at about 500 members and that each of these individuals makes a weekly contributionto the organization.

In addition there are large JURE organizations in Caracas, Venezuela and Dallas, Texas. There are according to AMBANG-1 a total of thirty delegations in Latin America, the U. S. A. and Europe. He cited as an example the delegation in San Francisco which had recently purchased a typewriter through the collection of green stamps. He added that Rogelio Cisneros had travelled to San Francisco some time ago to communicate with that group and to tighten its organizational activities.

i. AMBANG-1 Asks About ARTIME and the Activities in Central America

AMBANG-1 raised the question of Manuel ARTIME's activities in Central America and particularly in Nicaragua. He stated that any association with Somoza would not help in creating the mistique and political coloration necessary to inspire revolution and resistance from the non-Communists elements in Cuba. Whereas, I had expected AMBANG-1 to go into a long harangue as to the positive damage that ARTIME's actions with Somoza could cause, he left the matter at about this point. I agreed that the Somozas did not have a liberal political reputation throughout Latin America, but added that whatever Cubans could do from that or any vantage point against Communism in Cuba would in my estimation be helpful, -- while I am sure AMBANG-1 did not agree with me, he did not say so. In respect to ARTIME and Miro Cardona, whose name entered into the conversation later, AMBANG-1 took a fairly objective view. He stated that Miro had arrived in San Juan and that he wished him the best as he figured he had suffered enough. Insofar as ARTIME was concerned I gathered that AMBANG-1 might feel that the association with Somoza would not do ARTIME any good in a post-Castro Cuba. As AMBANG-1 is convinced that a government after Castro must be of a progressive liberal stripe, ARTIME was not doing himself any good by identifying himself with the Somozas.

j. A List of Cuban Diplomats

As AMBANG-1 had asked for a list of Cuban Diplomats abroad while we were in Paris, I advised him that such a list had been prepared and we would make it available to him. In this connection he asked if we could include the addresses of each of the Cuban installations. Speaking of diplomats, AMBANG-1 wanted to know if Ambassador Gustavo Arcos had returned from Prague. I informed him that I did not know. AMBANG-1 was most interested to learn that Franqui's wife and children had actually come out of Cuba, and indicated that he would intensify his efforts to maintain contact with Cuban Diplomat Cabrera Infante in Brussels as a means toward the eventual recruitment of Franqui.

k. AMBANG-1 Relation with Jorge Volsky

In conjunction with questions regarding propaganda sent to Cuba, and the JURE's general plans in this field, I asked A-1 about his relation with Jorge Volsky. A-1 stated that he considered Volsky to be an extremely able, serious newspaperman. He added that whereas he saw Volsky frequently on his trips to Miami, the latter did not work for him. A-1 stated that Volsky's work was a full-time job which left him little time to do anything else.

A-1 stated that JURE propaganda was produced by a twelve - man board.

A-1 added that the JURE expected to shortly introduce a statement on its position into Cuba.

l. AMBANG-1 Asks about Two Man Underwater Craft

A-1 asked if I knew anything about a two man type craft which travels through the water. I presume A-1 was talking about the "sea-sled." I advised him that I knew little about this type craft, but in my opinion its usefulness for the type activity he had in mind was limited. AMBANG-1 would use this craft for the final phase of an infiltration effort. A-1 stated that this craft was being used at the hotel beaches in San Juan as a type of sporting activity. I will advise him that he could pursue this matter himself as all knowledge on this subject is publicly available.

m. AMBANG-1 Trained in Simple Scorch System

A WAVE technician, Culver Ladd, under the name of Mr. Lane trained A-1 to use a simple scorch system of S/W. A-1 was given some eighty pills with which he will be able to make the "ink" used in this system of S/W. A-1 was pleased with the system, especially its simplicity. He will use the system to communicate with his chief delegate in Paris and undoubtedly other persons in Cuba as well as in the other JURE delegations.

n. AMBANG-1 is Writing an Article for Cuadernos

At the request of German Arcienegas, the famed Colombian intellectual, A-1 is preparing an article which is to be published in Cuadernos. The article will deal with the problems facing Latin America and how they can be resolved. A-1 will be in select company as Arcienegas has asked a number of prominent Latin American intellectuals for their views.

o. Communication Between AMBANG-1 and Case Officer

AMBANG-1 gave me the following addresses at which he can be reached:

Corporacion de Renovacion
Urbana y Viviendas
PARADA 31
Ponce de Leon,
Hato Rey
Puerto Rico Telephone No. 723-1671

(NOTE: This is not AMBANG's office or home, but that of a friend who is always able to reach A-1.)

Also:

Mr. Jaime Mitrani
1260 W. 61 Place
Hialeah, Florida

AMBANG-1 was given the following means of contacting me:

Mr. Alfred Fernandez
P. O. Box 1104, Main Post Office
Washington, D. C. Telephone No. 737-8294

AMBANG-1 will use the name "Tony" as a signature in mail to me.

2. General Observations

I beleive AMBANG-1 is planning to return to Cuba. He indicated that he would give the matter serious thought to even go in, disguised, as a legal traveller if that road were generally open, i. e., if rather large numbers of travellers were going in via PAA flights. This line seemed a bit out of character for A-1, for it seems unrealistic and somewhat remindful of Macaulay's references to the state of mind that exiles develop. I also detected what we consider to be a somewhat unrealistic appraisal of the Cuban situation in A-1's estimate that Castro has considerably less than 40% of the Cuban people with him. A-1 may be losing more than a little touch with Cuban reality.

A-1 remains convinced that he is on the right track in working for the eventual overthrow of Castro. He is convinced, however, that two to three years is all the time left for actually destroying the Castro regime, believing that there will be a favorable turn in the Cuban economic situation by late 1965. A-1 is likewise convinced that Castro cannot add to the improvement of Cuba, to the contrary that so long as the principal decisions are made by Castro, the general trend will be confusion arising from a failure to concentrate on specific problems until they are corrected.

AMBANG-1 is likewise convinced that the JURE is building a political group and general outlook which will have an impact on Cuba for many years to come. He is especially concerned with the need to carefully consider each position of his group in order to create the lasting impression that JURE knows where it is going and that its leadership is composed of men who know how to "run" a country without the false starts, confusion and chaos identified with the Castro regime.

AMBANG-1 is likewise greatly concerned with the necessity of not creating an impression inside Cuba that the JURE will return to mete out "justice." It is essential, A-1 states, to convince the general populace that the overthrow of Castro will not result in a bloodbath, rather that the sole aim is to save the revolution that has been betrayed. He is anxious that the people inside Cuba see the JURE as a responsible, intelligent and dispassionate group which is capable of bringing to Cuba all that the revolution promised.

AS YOU MAY KNOW FOR SEVERAL MONTHS I HAVE BEEN ENGAGING IN PURCHASING VARIOUS COMMERCIAL ITEMS FOR MR. SIMOBAS AND MR. VEGA OF YOUR EMBASSY. FOR A NUMBER OF MONTHS THESE PURCHASES WENT VERY WELL AND I BELIEVE BOTH YOUR GOVERNMENT AND I WERE SATISFIED WITH THE ARRANGEMENTS AND DELIVERIES.

SINCE THE DEPARTURE OF MR. SIMOBAS AND MR. VEGA, HOWEVER, I HAVE NOT BEEN ABLE TO CARRY ON MY BUSINESS WITH THEM IN A NORMAL MANNER. I HAVE GONE TO MUCH TROUBLE TO GATHER ARTICLES THAT THEY WERE INTERESTED IN AND TO DELIVER THEM AS INSTRUCTED; YET, NOW THREE WEEKS AFTER MAKING MY LAST DELIVERY I HAVE STILL NOT BEEN PAID.

I OBJECT TO [illegible] DELAYS IN MAKING PAYMENT TO ME AND REQUEST THAT MR. SIMOBAS OR HIS APODERADO IN THIS CITY BE INFORMED THAT I BADLY NEED THE MONEY AND CANNOT MAKE FURTHER DELIVERIES UNTIL I HAVE RECEIVED THE [illegible]

WORLD BRIEF

(NOFORN IN SLANTS. REMAINING INFO RELEASABLE TO LIAISON.)

1. BERLIN: THE COMMUNISTS VIEW AS "OFFICIAL" THE TALKS BETWEEN EAST AND WEST BERLIN NEGOTIATORS WHICH ACHIEVED THE AGREEMENT ON CHRISTMAS PASSES AND CONSIDER THEM A BOOST TO MOSCOW'S "FREE CITY" PROPOSAL FOR WEST BERLIN. WILLY BRANDT, ON THE OTHER HAND, REGARDS THEM AS ONLY "TECHNICAL" AND AS NO SETBACK TO HIS STATURE IN WEST GERMAN POLITICS.

2. YUGOSLAVIA: //TITO IS APPARENTLY NO LONGER DEEPLY INVOLVED IN ADMINISTRATION OF YUGOSLAV AFFAIRS. HE HAS EXHIBITED LACK OF KNOWLEDGE AND UNDERSTANDING OF A NUMBER OF FOREIGN POLICY ISSUES AND HAS BEEN DIVESTING HIMSELF OF RESPONSIBILITIES. TWO RESPONSIBLE OFFICIALS HAVE EXPRESSED CONCERN THAT HIS FACULTIES HAVE DIMMED.//

4 CUBA: COASTAL DEFENSE CRUISE MISSILES NOW REPORTEDLY ARE PART OF THE CUBAN ARTILLERY FORCES, [redacted] CUBAN INVOLVEMENT IN THE SOVIET-DOMINATED AIR DEFENSE SYSTEM IS ALSO INCREASING A SOVIET SO-1-CLASS SUBCHASER HAS ARRIVED IN CUBAN WATERS AND TWO OTHERS ARE PROBABLY EN ROUTE.

5. USSR: KHRUSHCHEV'S LONG-RANGE PROGRAM FOR DEVELOPMENT OF THE SOVIET CHEMICAL INDUSTRY IS TO BE ACCOMPANIED BY RETRENCHMENT IN OTHER PARTS OF THE ECONOMY DURING THE NEXT TWO YEARS. HOUSING CONSUMER SERVICES, AND SOME HEAVY INDUSTRIAL PRODUCTION ARE TO BE AFFECTED, AND IT SEEMS LIKELY THAT THERE WILL BE A SLOWING IN THE RATE AT WHICH MILITARY EXPENDITURES HAVE INCREASED SINCE 1960

6 ITALY: DOUBTS ABOUT THE MORO GOVERNMENT'S VIABILITY HAVE SUBSIDED SOMEWHAT AS A RESULT OF STRONG VOTE OF CONFIDENCE IT RECEIVED ON 17 DEC. NENNI'S AUTHORITY HAS BEEN STRENGTHENED BY HIS REFUSAL TO MAKE ANY DEAL WITH LEFTWING [illegible] [illegible] [illegible]

SUPPORT ON THE CONFIDENCE VOTE MORO'S POSITION IS FIRMER BECAUSE OF THIS AND BECAUSE OF THE VATICAN'S PRESSURE ON CHRISTIAN DEMOCRAT RIGHTWINGERS NOT TO BREAK PARTY UNITY. (CONF)

7. CUBA: THE CASTRO REGIME SEEMS INTENT ON CULTIVATING AFRIC COUNTRIES AS WAY OF LESSENING ITS ISOLATION FROM THE FREE WORLD. AN EMBASSY IN TANGANYIKA INDICATES THIS. IN ADDITION, CUBA HAS, DURING THE PAST MONTH, EXPANDED CONTACTS WITH NINE COUNTRIES SOUTH OF THE SAHARA. THERE IS ALSO REASON TO SUSPECT AFRICANS GOING TO CUBA ON SCHOLARSHIPS ARE GETTING TRAINING IN GUERRILLA WARFARE TECHNIQUES.

8. UK://BRITISH FOREIGN POLICY UNDER THE DOUGLAS-HOME GOVERNMENT INCREASINGLY FOCUSED ON KEEPING THE EAST-WEST DIALOGUE OPEN AND IMPROVING RELATIONS WITH WEST GERMANY. BOTH SIR ALEC AND FOREIGN SECRETARY BUTLER ESPECIALLY DETERMINED TO KEEP EXPLORING AREAS POSSIBLE AGREEMENT WITH MOSCOW -- A POLICY WHICH PAID OFF HANDSOMELY FOR CONSERVATIVES IN ELECTIONS OF 1955 AND 1959. MAIN OBJECTIVE - BUTLER'S RECENT VISIT, BONN WAS TO SOUND OUT GERMAN REACTION TO SUCH BRITISH INITIATIVES.//

HIS PARTY IS PARALYZED BY INTERNAL DIVISIONS AND IS UNDECIDED WHETHER TO CONTEST THE PRE-INDEPENDENCE ELECTIONS SET FOR NEXT YEAR OR TRY TO BLOCK THEM BY RESORTING TO VIOLENCE. OPPOSITION PARTIES, MEANWHILE HAVE DONE LITTLE TO COOPERATE AGAINST JAGAN BEYOND REACHING A TENTATIVE AGREEMENT NOT TO ATTACK EACH OTHER PUBLICLY.

10. FRANCE: PARIS IS TRYING TO PROMOTE TRADE WITH COMMUNIST CHINA BY ENCOURAGING PRIVATE FIRMS TO DEVELOP NEW MARKETS THERE THERE ARE BUILT IN LIMITATIONS TO THE EXTENT THAT FRENCH-CHINESE TRADE CAN GROW, COMPLEMENTARY PRODUCTS ARE FEW, AND CREDIT PROBLEMS CONTINUE TO LIMIT PURCHASES BY CHINESE WHO SEEM PRIMARILY INTERESTED IN OBTAINING FRENCH TECHNICAL SKILLS. PARIS INTEREST IN CHINESE TRADE AND EXPANDED CULTURAL CONTACTS WITH PEIPING HAVE STIMULATED SPECULATION THAT SOME SORT OF DIPLOMATIC RECOGNITION IS IN THE OFFING. THIS IS STOUTLY DENIED AT ALL LEVELS OF FRENCH GOVERNMENT

WHATEVER THE OUTCOME, PRESIDENT KEKKONEN'S DESIRE TO IMPROVE RELATIONS. MOSCOW CAME OUT AGAIN DURING HIS TRIP TO THE USSR.

12. SOUTH KOREA: PRESIDENT PAK CHONG-HUI'S DOMINATION OF THE NATIONAL ASSEMBLY INAUGURATED ON 17 DEC UNDER SOUTH KOREA'S NEW CONSTITUTIONAL REGIME MAY TRANSFER POLITICAL INFIGHTING TO A NEW ARENA. THE CONTROVERSIAL FORMER SECURITY CHIEF KIM CHONG-PIL CONTROLS THE PARTY APPARATUS, AND HIS MANY ENEMIES ARE LIKELY TO TRY TO USE THE LEGISLATIVE PROCESSES TO TRY TO WREST POWER FROM HIM. PRESIDENT PAK STILL BACKS KIM, HOWEVER, AND THEY AND THEIR COHORTS WILL CONTINUE TO MAKE THE GOVERNMENT'S MAJOR DECISIONS. THE CABINET HEADED BY CHOE TU-SON APPEARS TO HAVE BEEN CHOSEN WITH A MIND TO BALANCING FACTIONAL AND SECTIONAL INTERESTS AND FOR AN ABILITY TO CARRY OUT, RATHER THAN FORMULATE POLICY. 13. TURKEY: THE THREE-WEEK OLD CABINET CRISIS APPEARS TO BE APPROACHING A CLIMAX FOLLOWING THE FAILURE OF BOTH MAJOR PARTIES TO BRING MINOR PARTIES INTO COALITION ARRANGEMENTS. ONLY A COALITION BETWEEN THESE TWO, PRIME MINISTER INONU'S REPUBLICAN PEOPLE'S PARTY AND THE JUSTICE PARTY, OR A "NATIONAL COALITION" OF ALL POLITICAL GROUPS, REMAINS TO BE TRIED. DESPITE THE DEEP DIFFERENCES, AN ASSOCIATION BETWEEN THE TWO MAY PROVE FEASIBLE, FOR THE POLITICIANS FEAR THAT EXTENDING THE CRISIS MUCH LONGER MIGHT PROVOKE MILITARY INTERVENTION. (CONF)

THEIR PLANS REPORTEDLY INCLUDE ASSASSINATION OF [illegible] LEOPOLDVILLE LEADERS, AN "INVASION" OF THE CONGO, AND INSTIGATION OF A COUP BY THE CONGO ARMY. THE WEAKNESS OF THE LEOPOLDVILLE REGIME, ESPECIALLY THE QUESTIONABLE RELIABILITY OF GENERAL MOBUTU'S ARMY, CLEARLY ENHANCES THE CNL PROSPECTS. LAST MONTH MOBUTU AND SURETE CHIEF NENDAKA, THE REGIME'S TWO KEYSTONES, WERE WAYLAYED BY SOLDIERS AND NEARLY KILLED. MEMORANDUM FOR: Clandestine Services Career Service Board

SUBJECT : Recommendation for Promotion from GS-12 to GS-13 for Mr. Jerome A. Fox

1. FE Division recommends the promotion of Mr. Jerome A. Fox from GS-12 to GS-13.

2. Mr. Fox first joined the Agency in 1955 in the DDI. He rose rapidly from GS-07 to GS-12 which grade he achieved in March 1961. He spent one overseas tour in Tokyo in the Factory Markings Program. In April 1963 he transferred to the DDP. This action and the adjustments it necessitated have undoubtedly held him back from the normal career advancement to be expected for one of his ability.

3. In the DDP Mr. Fox first served in Vietnam Operations in Headquarters and then from 1964-1966 in Saigon. There he performed effectively in both liaison and unilateral operations with elements of the Vietnamese police. He personally recruited several agents and established a successful mail intercept unit. He was first recommended for promotion to GS-13 during his Vietnam tour.

4. In November 1966 Mr. Fox joined FE/PMI, first on the Indonesian and currently on the Philippine Desk. He has served as the Indonesia Desk and Branch referent for Communist Party Operations, where he proved himself to be an excellent analyst. He has also served as a desk officer handling a variety of projects. He has performed his duties in a consistently strong manner, and has shown sound operational judgment. Mr. Fox writes well, and gets along extremely well with his co-workers and contacts. He is now scheduled for a field assignment in Manila in 1969. In view of his strong Headquarters desk performance and his previous recommendation from Vietnam, Mr. Fox was recommended for promotion again in February 1968.

5. Mr. Fox is an experienced and competent Headquarters and field operations officer. He has repeatedly demonstrated his ability to perform at the GS 13 level. In consideration of his fine record of productivity I recommend that he be promoted to GS-13.

MEMORANDUM FOR: FE Career Management Committee

SUBJECT : Recommendation for Promotion from GS-12 to GS-13 of Mr. Jerome Fox

1. This office wishes to reiterate its previous endorsement of the Saigon Station's recommendation for the promotion of Mr. Fox from GS-12 to GS-13.

2. Mr. Fox was initially assigned to the Indonesian Desk as an Operations Officer responsible for Headquarters support of the Djakarta Station's Communist Party Operations Program. This was a demanding task requiring sound operational judgment, experience, and the capacity to absorb large quantities of operational data and information. Despite no prior background in Indonesia, Mr. Fox quickly got on top of the material and projects and made a valuable contribution. He also had other duties concerned with support for other Station unilateral activity.

3. Mr. Fox was subsequently assigned to the Philippines Desk in preparation for an assignment to the Philippines as chief of a separate field unit in Cebu. His work on the Philippines Desk in support of Manila Station operations was also marked by a high degree of professionalism and competence.

4. Mr. Fox is a capable and experienced Operations Officer. He has proven in Vietnam a unique ability to develop valuable operational assets(he was the case officer charged with sensitive contacts with the Vietcong), and his work in this Branch has been excellent. In view of this good record of productivity, and as a stimulus for future development, I strongly recommend that Mr. Fox be promoted to GS-13.

SUBJECT: Letter of Commendation

TO: COLONEL FRED [illegible]
Commander, Det #4 (PACATIC)
1125th USAF Field Activities
(ATIC) APO 94

1. The successful outcome of the Aerospace Technical Intelligence Course conducted at Nichols Air Base, Pasay City, has been due to the indefatigable efforts exerted by the training team of your unit from 12 to 23 June 1961.

2. During that brief period your team displayed professional competence and mastery of the subject. They successfully imparted to the students vital data on the procedural aspects of gathering aerospace technical intelligence. Their extensive use of training films further enhanced the student's learning process and the practical training they gave in intelligence photography will go a long way in helping PAF personnel assimilate important technical aspects. They are, indeed, a credit to your organization.

3. It is, therefore, with great pleasure that I commend the following members of your team for the valuable services they rendered to the Philippine Air Force;

MEMORANDUM FOR: CSPO/Branch C

SUBJECT : Mr. Jerome Fox, Request for Reassignment from DDI/OCR to FE/VCL

1. The FE Division requests that arrangements be made with the DDI/OCR for the reassignment of Mr. Jerome Fox, GS-12, to the VCL Branch to work on the recently approved North Vietnam program. The Vietnam Desk of VCL has a requirement for an officer to devote full time to the collection, collation and evaluation of material available on North Vietnam. This material, once assembled, will be used as a basis for both paramilitary and psychological warfare operations to be mounted against North Vietnam. It is felt that Mr. Fox is particularly qualified for this assignment with his excellent background as a research officer and the experience gained on his Far East assignment in 1959-62. The knowledge he gained at that time of covert operations in relation to his DDI responsibilities will be helpful to him in the work envisioned for him in FE/VCL. Mr. Fox has traveled in Southeast Asia and also dealt with North Vietnam as an operational target during his military service 1952-54.

2. It is our understanding that Mr. Fox is available for reassignment. He has been interviewed by Division officers who feel his assignment would satisfy an important requirement on this priority program. It is requested that his assignment to FE/VCL, without a change in Service Designation, be arranged with DDI for approximately one year. At the end of that time, based on a review of Mr. Fox's capabilities and interest in relation to a permanent DDP assignment, the possibilities of a change of service designation would be explored.

Acting Chief, Far East Division

It is neither feasible nor desirable to attempt an evaluation of Mr. Fox's performance as an operations officer based on the relatively short period (5 months) he has been assigned to the Korean Desk. Throughout this time he has been faced by a series of medical and personal problems which have understandably preoccupied him. His medical problem, which causes him almost constant pain, has led him to apply for disability retirement; a decision on his application is pending. He has also had to undergo a series of family problems which required a great deal of time and attention. Under the circumstances no specific duties and letter grades are being listed in Section B above.

As the Station narcotics referent, Subject has continued to concentrate his efforts on developing our drug field collection capability. The penchant for detailed analysis that earlier made him an authority on Communist Party affairs has served him well in the past year in building the Station canon of knowledge on narcotics matters. He has successfully recruited the head of a private organization concerned with addict rehabilitation and drug abuse prevention. Because of his proximity to the drug world, this agent serves as a rich source of background data and as a spotter. In the latter role he has produced two individuals whom Subject has recruited as intelligence sources. One, the estranged wife of a narcotics wholesaler who, at one time was engaged in international trafficking. The other is a chemist formerly employed unwittingly, on a part time basis, by a suspected drug syndicate. The latter source is, at this writing, once again on the fringe of involvement with a group that apparently wants to use her as a courier on a one-shot basis and later utilize her professional skills in their laboratory.

Subject is the Station representative on Mission narcotics affairs and the focal point for the Mission Narcotics Intelligence Sub-Committee. He provides the day-to-day liaison with the regional DEA office. Liaison with the Philippine enforcement services, while largely the realm of DEA, provided Subject an opportunity to recruit unilaterally one of the country's leading experts in narcotics enforcement after he was chosen

COMMENTS OF REVIEWING OFFICIAL

Subject has completed his second tour of duty at this Station. Looking back over his record of accomplishments, one will find a number of good achievements, but when they are all added up and measured against four years at the Station the sum falls short of what I believe he was capable of producing and should have produced. The promise that he showed during the early part of his tour never really materialized. He can and does work hard at his assignment, but he is unable to apportion his time; he can analyze an operational situation well, but cannot express the analysis lucidly in writing without a great deal of effort and re-writing. In fairness to the Subject it should be noted that during a part of this

Section C. Narrative Comments (Continued)

for a multi-national advisory role abroad. A turnover was made to a TDY BKHERALD officer from the country concerned prior to the expert's departure from the Philippines.

Because of the profusion of various U.S. intelligence groups in-country, PBRAMPART and related business is a very lively and time consuming activity. He has coordinated and monitored the activity, maintaining the while good and forthcoming working relationships with his counterparts.

A Muslim source, whom he recruited, has been sent on regular trips into his home province now an embattled area in the insurgency and has become a regular producer on Muslim attitudes and plans. He enjoys access as well to Muslims resident in the Manila area and to travellers from the southern Philippines.

Subject is an intelligent, experienced officer with a wide knowledge of the entire Philippine scene, its participants and their pecking order. He is a quick and ready source of the details of the history of recent years and he has extensive knowledge of where many of the more important bodies are buried. He maintains a wide variety of disparate contacts that enable him to maintain a detached perspective. It may be, however, that a degree of staleness is affecting his performance and four years has been too long a tour. A recurring problem, an attempt to do too much at one time, continues to mar his performance; over time, this has been the subject of discussions with him. Because of his inability to establish correct priorities for himself, he often expends his extensive energies on incidentals at the expense of the important. This is an unfortunate failing for under the pressure of inexorable deadlines, clarity and detail suffer in his operational correspondence and, in general, he hides his considerable light under a bushel of his own making.

calendar year he was plagued with both health and personal problems that diverted him from the work at hand.

Subject has spent almost seven consecutive years on Philippine affairs, at Hqs and in the field. In Subject's case I believe this has worked to his disadvantage. He is "burned out" on the Philippines.

The rating officer has been fair and objective in his assessment of Subject's performance for the period covered by this fitness report. Subject's performance came to my attention daily.

In keeping with our growing national concern for worldwide narcotics production and traffic, the Station reallocated personnel, resources and priorities in order to learn the nature of the Philippine role in this illicit activity. Subject was assigned, halfway through this reporting period, as Station referent with as his primary responsibility the coordination of all of our efforts in the narcotics field. One other officer has been assigned full time to assist him.

Subject began, starting literally from scratch, by surveying the entire mission and the military bases to learn what on-going activity already existed and what areas of the problem the various civilian and military agencies considered to be of prime concern. He established an intelligence sub-committee of the mission narcotics group and set the guidelines for inter-agency intelligence coordination and established a common source registry. A great amount of missionary work has been necessary on his part, even among the professionals in the drug field, differentiating enforcement considerations from those of pure intelligence. He has established good working relationships with the concerned mission elements, concentrating primarily, of course, on liaison and support arrangements with the LNAGON representatives; the latter, during this period, moved their regional office to Manila expanding greatly

COMMENTS OF REVIEWING OFFICIAL

There is no question in my mind that Subject has ability. What he lacks is the capacity to organize himself and his work. The result is that his performance is very uneven. This deficiency has been brought to Subject's attention on several occasions in the past 30 months. He recognizes it, but has been unable, in my opinion, to overcome it finally. This limits his usefulness at a small or medium sized Station where perforce an officer must be able to handle competently a number of disparate matters simultaneously. His written work continues to fall short of the level one should be able to expect from an officer of his grade and experience. It is

their need for our support.

Subject, at the same time, surveyed the host government intelligence and enforcement agencies to learn how they had structured their responsibilities in combating the narcotics trade. By seeking out current and former liaison contacts, the picture that he received of the estimated size of the problem and the Philippine control effort gave us some idea of the parameters of what it was we were dealing with. Through a formerly dormant liaison contact, one of the country's experts on narcotics, he has developed both a window on what is being done officially and a means of access capable of affecting the Philippine policy on the subject. During a recent regional ASEAN meeting on narcotics held in Manila, Subject was able to insure that our objectives for the conference were met through this influential asset.

Subject has made a fine beginning in getting our narcotics effort underway. He has done the basic research, begun building the necessary data base and has culled from other activities three or four Station assets whose natural access is being utilized to develop leads into the murky Philippine underworld. His flair for organizing disparate data is being put to excellent use.

In the earlier period covered in this fitness report, Subject was plagued by a nasty, debilitating fever that eluded diagnosis for some time. A period of hospitalization followed by the necessary recuperative period kept him out of action for a lengthy period. Close on its heels, this was compounded by a freak bone break in his hand that required surgery and once again kept him off the active list.

Subject is a good agent handler; he is both FI and CI minded and he has the ability to ask the right questions to extract the maximum information from his sources. He has a great deal of energy and he liberally expends it in his work. This strength, curiously, is also a weakness since he has the tendency to ride off in all directions at once. In this flurry of activity, by attempting to do everything at the same time, his writing tends to become a shorthand of sorts and clarity inevitably suffers. He is aware of these problems and has consciously made the effort -- particulary since he has become the narcotics referent -- to give proper order to his priorities.

As has been mentioned previously, his knowledge of the Communist Party activities and personnel is impressive and until he relinquished his role as the Communist Party referent, he was a helpful focal point for other Station officers with party assets. In the months ahead his concentrated efforts against the narcotics target should bear fruit.

because of these shortcomings that I would rate him in the overall sense as Proficient. We get the results we want from him, but we have to push fairly hard. Comments made in earlier Fitness Reports regarding Subject's expertise in local Communist Party matters continue to apply. He is indeed a walking encyclopedia on local party matters and shows considerable acuity in his analyses of the party. Subject's work comes to my attention on the average of five to six times a week.

This report covers a period of four months. There was no change in the substance of Subject's duties - merely a re-ordering of the priorities. Specific duty number four was elevated to the second priority. While we cannot cite any specific accomplishments yet in the performance of this second priority, we can say, in all honesty, that Subject is making a determined effort to achieve results. He is allocating his time in accordance with priorities and meeting deadlines. Comments I made in earlier fitness reports on his qualities as an agent handler, recruiter and "guru" of the Philippine Communist movement continue to apply.

COMMENTS OF REVIEWING OFFICIAL

Concur with comments made by the supervisor. Mr. Fox is an overall proficient case officer with some very strong talents, particularly in the Communist and CI field. He lacks supervisory experience and his talents in this regard are uncertain. Nonetheless, he does render a creditable service to the organization and is a responsible and dedicated employee. In order to determine if he has the potential for further advancement, he should be given some supervisory responsibilities to evaluate his talents in this area.

MAIL ROOM

The Fitness Report of the previous period continues generally to apply during this rating period of seven months. Subject was on home leave for about one month during this period.

Subject continued to handle until his home leave in May 1971 two agent penetrations in the decision making level of the Moscow oriented communist movement. They have since been turned over to another officer for handling. Also, Subject continued to handle the Muslim agent recruited during the previous period but the Agent's performance has been marginal. In July 1971, Subject recruited a former Philippine intelligence officer who was connected with the two agent penetrations cited above. The primary purpose of this recruitment was to increase the Station's control and equity over the two agents and, as a by-product, to obtain intelligence on the communist movements. During July four developmental cases, all intelligence producers (including documentary), were turned over to Subject for continued development towards recruitment. One has unique access in the student movement, mainly in the Greater Manila area but also in the main provincial cities; another is an experienced officer of a civilian law enforcement agency who collaborated unilaterally with the Station; the other two are senior intelligence officers who have unofficially passed intelligence information. Subject continued to handle his duty as (Continued)

COMMENTS OF REVIEWING OFFICIAL

I would characterize Subject as a competent, hard working case officer who can both handle cases and recruit new assets and who is capable of an even better performance than that reflected in this fitness report, if he could only organize himself. He knows his subject, communism in the Philippines, better perhaps than the majority of the Filipino communists. This is a mixed blessing, however, because he is so easily distracted pursuing obscure historical points, not really relevant to the conduct of operations, that occasionally he finds himself behind schedule in meeting levied requirements. I have taken him out of communist operations as such except in his capacity as the "referent" (continued)

NARRATIVE (Continued)

Referent for Communist Matters in an excellent fashion. He has a thorough knowledge of the communist situation in the Philippines and can provide briefings on any aspect of it. Subject has made meaningful comments on the communist penetration operations of other officers advising them on vulnerabilities and suggesting approaches for greater exploitation of these assets. His briefings are well prepared and he delivers them fully and persuasively. During this rating period, Subject was the most aggressive and effective of the three "Referents", who are senior operations officers responsible for the main operational targets of the Station.

Subject has continued to be an effective agent handler. He motivates them and applies discipline without destroying initiative. He has directed them to collect difficult intelligence information, which has been of high value in planning and assessing future operations. Headquarters grades to Subject's intelligence disseminations from the two communist penetration agents above attest to Subject's competence in extracting and preparing intelligence disseminations.

While Subject has performed well as a Referent and agent handler, he has not done as well in the priority area of acquiring fresh assets in the unilateral and liaison penetration fields. This requirement has been spelled out in his Letter of Instructions (LOI), discussed by COS in the weekly operations staff meetings and daily Referent meetings, and in separate consultations with COS and DCOS. It is not that Subject dislikes contacting new people or contacting Filipinos; to the contrary, Subject has a warm, natural, and sincere approach in meeting Filipinos. Initial contacts are made with potential assets but there is a lack of planned and systematic follow through that all developmental cases require. Subject keeps himself busy throughout the day and his workday at the office normally begins at 0730 hours. He is no slouch when it comes to work and he appears to gravitate to it. His attitude and efforts in a recent highly sensitive Station operation were commendable. Subject is at his best in ad hoc duties: he sizes up a problem quickly, discusses his operational plan with COS/DCOS, and proceeds at once to implement it. Intelligence product derived from such operations are well written and meaningful; operational reports are thoughtful and thorough. His total work load described above is no heavier than any other officer at this Station. The Station of the '70's is lean on personnel and heavy on responsibilities. Since there appears to be no relaxation of the latter and the trend is further personnel reduction, not increase of personnel, operations officers will have to trim excess corners.

NARRATIVE (Continued)

In my opinion, Subject's basic weakness, which was pointed out in the previous Fitness Report, continues to be his inability to budget his time to handle the priorities as established by COS/DCOS as well as by himself. Subject spends considerable time on a given matter of the moment and has great power of concentration on a single problem. These are attributes many wish they possess, but at the same time they impede the efficiency of an operations officer with numerous high priority duties. Unless he can budget his time by discriminating against the low priority or non-priority matters and focus on maintaining a balanced portfolio of contact and staff responsibilities, I believe his further development into the well-rounded senior officer would be impaired. Subject has made a determined effort to correct the above weakness including the submission of paper work by the deadline. By the end of the rating period, there has been favorable progress. I am confident he can overcome completely this area of weakness by exercising the same discipline he uses in executing duties #1 and #3.

Above all, Subject tries to excell and he works extremely hard. I believe that Subject has the potential capability to progress to more responsible positions in the operations and management fields: he has sound operational judgment, he is cooperative and responsive, he works well with and has the confidence of people he deals with, and he has a good feel for the Station's total aims and capabilities.

Subject was given an overall Strong in view of his vigorous and successful prosecution of the two important duties, his determined effort to overcome the weakness cited above, and his potential capability for continued growth in the management and operational fields.

Subject has responsibility for the Station's communist penetration project. He has budgeted his funds realistically and has spent it on operations which have brought good results.

REVIEWING COMMENTS (continued)

for the subject, assigned him other responsibilities and given him strict deadlines in the hope that he will get organized. He is an above average officer who could do a lot better. His work comes to my attention on a daily basis. The rating officer is known to me to be a fair and objective rater. In this case, however, I disagree with the overall rating of Strong, because potential of this officer notwithstanding, he has not performed overall at that level. Both the Subject and the rating officer are aware of my views and both have read the foregoing comments. I believe the overall grade should be PROFICIENT.

Beginning in early July 1970 a new Station operational policy was enunciated. It emphasized the thorough operational and security assessment of on-going cases and the acquisition of new agents in various priority fields. In early August the Station was reorganized and Subject was appointed as the Referent for Communist Matters (Duty 2), the highest priority area in our Operating Directive. This responsibility, plus other equally important priority of acquiring high grade agents in the communist movement and the Philippine Security Services, was incorporated in Subject's revised Letter of Instructions (LOI) later in the year.

Subject has demonstrated a keen grasp of the details of the communist movements. He has developed a thorough knowledge of the leaders, their inter relationships, personal background, strengths and weaknesses. At the same time he has kept current on the many front organizations. As Referent for Communist Matters, Subject has at his disposal the utilization of all Case Officers under official and non official cover to prosecute, as noted above, the Station's number one priority. While he has no command responsibility, he has been granted considerable latitude in the coordinative, creative, reporting, and project management role. Subject has used his knowledge effectively by providing staff advice to Case Officers, spotting new leads, approaches, and

The rating officer has done well in describing this officer's strengths and weaknesses. He is an effective team member, a perceptive student of the communist movement and a thorough agent handler. He knows the craft and practices it carefully. He is an officer on whom I can depend to handle well assignments involving people without need for close supervision. He now is in a position that will allow him to demonstrate leadership abilities and I believe he will acquit himself well. Compared to other officers of the same grade known to me, I would place Subject well above the average. He has the potential for further growth given the opportunity.

opportunities; suggesting new targets; sharpening the focus of going cases; assisting in the pruning of marginal assets; briefing visiting officials and Our Government's officials assigned to the Philippines; writing assessments and target analysis; and reviewing Station's total efforts against the communist movements.

To achieve a tighter control and monitor of the Station efforts against the communist movements, Subject submitted a comprehensive project proposal to Headquarters. Responses of Case Officers to Subject's assistance have been favorable and productive. He has a friendly and easy way that exudes confidence and he has been generous with his time to those who solicit it to discuss matters related to his responsibilities.

Subject has handled his on-going cases very professionally. Two agents, who operate as a team, were acquired from a friendly service earlier in the year and they represent our deepest penetration in the pro Moscow communist movement in the Philippines. Between them we are provided with key information as to the Movement's policy, plans, and organization. During this period Subject has formally recruited a Muslim who was spotted and developed by a previous Case Officer. The asset was subjected to a technical examination and has since been a reporting source on matters pertaining to the Muslim minority problem in the Philippines. He is a potential asset to use against our Soviet Bloc operations. Subject has handled a liaison official who has agreed to share his cases with the Station. In addition to receiving positive intelligence on communist matters, Subject has been attempting to make this official a truly suborned liaison asset to provide counterintelligence information as well. Subject has conducted a thorough assessment of a second liaison collaborator and subjected him to two technical interviews which resulted in his termination. He had provided sensitive documentary intelligence; however, the factors suggesting termination were overriding. Subject has handled the Manila end of a complicated communist penetration case with results that have impressed Headquarters and a third Station. Subject served as the first Case Officer of an asset turned over to the Station by liaison. Subject conducted a thorough assessment of this asset's capability and subsequently trained, motivated, and handled him effectively before turning

NARRATIVE (CON'TD)

him over to another Case Officer. He has shown thorough knowledge of his cases, exercised tradecraft, and sound operational practices and judgment in his contact procedures; displayed inventiveness in extracting maximum information and at the same time motivating the assets; and has shown that he has full command of the assets. Subject is well prepared for his meetings and is a thorough debriefer.

While Subject is an excellent agent handler he has not done as well in the higher priority agent acquisition field. Perhaps he has not yet achieved his stride to contact communist targets either directly or through the recruitment of principal agents. With his excellent knowledge of the communist targets, it would appear that he should theoretically be the most aggressive in the agent acquisition field. I still have hope that there will be an operational breakthrough in this vital sector by this potentially capable officer. Of somewhat lower priority than the above, Subject, like all other declared officers, has also been tasked with the job of penetrating the security services for positive and counterintelligence information. He has acquired several liaison contacts from his predecessor and while one of them is being met regularly there has been no appreciable increase as yet in the number of developmentals in this area.

Subject is a "team player" who has demonstrated high dedication and integrity; his intelligence disseminations and operational correspondence shows that he has a firm grasp of the Station's mission; he is sensitive to information that must be brought to the attention of COS/DCOS and communicates such information promptly. Subject responds to requests for advice and discussions from various quarters in an enthusiastic fashion and gives his time freely and constructively. While the latter is one of Subject's greatest strengths, it is at the same time a main contributory factor to his weakness, I believe. Subject is not as rapid as he should be in meeting deadlines and he had to be prodded to get his operational correspondence and also administrative requirements, such as accountings, to the concerned offices. It should be stated, however, that when these papers are submitted they are well done and clearly thought out. I believe this weakness, which could be corrected easily with firmer personal discipline, is a main inhibiting factor to his assumption of a position that requires minimal supervision. Subject and COS/DCOS have daily consultations

NARRATIVE (CON'TD)

and Subject has been encouraged to budget his time so that his main priorities can be accomplished in a balanced keel. Consultations have been in a constructive vein and Subject has responded favorably. Subject has the willing attitude, sustained interest, aggressiveness, and professional competence to potentially excel further to assume more senior operational and management responsibilities. Subject has no cover responsibilities.

Subject budgets his funds realistically and spends them wisely and with good impact. At the same time he is economy minded in the use of Government equipment.

No substantive change from previous Fitness Report. The comments therein remain essentially valid. Subject will be acting capacity covering in the main the current supervisor's functional responsibilities for an interim period of over two months. Through a deliberately imposed trial period in preparation for this change, Subject has moved in strongly and with good judgment. The variation in Rating Letter grades reflects the longer period of assessment. Subject has improved demonstrably in approaches and initiative under Specific Duty No. 3; under Specific Duty No. 6 the current Supervisor has noted a tendency to be less than prompt in finalizing support actions so vital to liaison as such and our own support elements; finally, the present Supervisor finds room for improvement in the conduct of intra-Station relationships, but this is admittedly a highly subjective view. There remains no question about overall professionalism and capabilities.

COMMENTS OF REVIEWING OFFICIAL

The reviewing comments made in the previous fitness report continue to apply for this brief rating period. For the same reasons stated therein, I would rate Subject in Duty #1 as Proficient and the overall grade of Proficient. Duty #1 is Subject's principal function assigned in his Letter of Instruction (LOI). During the past two weeks and for a two week period in mid April when Subject managed the Communist Operations Branch and his cases all by himself, I have observed a distinct increase in his effectiveness. He has worked long and hard, has shown initiative and imagination, has kept DCOS/COS currently briefed, and has shown good judgment in the decisions he

made and recommendations referred to DCOS/COS. Subject has been encouraged to continue to exploit these strengths, as well as to expedite the preparation of written reports as noted by the Rating Officer. I have no doubt that Subject can and will exploit his potential to the maximum capacity during the next rating period in order to increase his rating, his comparative standing among the Station's other GS-13 officers, and to fulfill more thoroughly the priorities in his LOI.

Subject arrived at Station in May 1969 well prepared and took over from his predecessor in an organized and professional manner; there were no hitches, either in terms of personality conflicts or operational lag. He has since continued to demonstrate care in preparation and approach to what is a demanding and highly varied assignment; he "uses" his past experience with originality and selective aggressiveness, and more important, with a keen sense of adaptability to his operational environment. Subject is definitely not a clock-watcher and gives of his own time freely and at his own initiative. Subject's initiative in developing new assets/operations is limited only by the broad scope of duties already assigned.

Section B Specific Duties are directly related to Subject's Letter of Instruction dated 26 May 1969. In discharging his responsibilities as MPWATCH referent, which includes advice and guidance to other Mission intelligence components in addition to Station officers, Subject is limited only by the extent to which he is called on; he himself is thoroughly grounded and available for the discharge of this function. He has handled one existing and very sensitive coopted liaison asset in excellent fashion and is developing a second such asset into a unilateral role; based on qualifications and experience, he can do more in this area and in the unilateral field generally, even given an already restrictive time schedule. In a rapidly changing operational atmosphere,

Concur generally with ratings and narrative comments. Subject is a dedicated, responsive and methodical officer whose previous duty Station was Headquarters Philippine Desk. In a relatively brief period of time Subject has obtained a good knowledge of the MPWATCH situation and operational information. Probably because of the presence of knowledgeable senior ops officers at the Station, Subject has been somewhat reserved in executing his assigned responsibility as MPWATCH functional officer. I believe Subject could have been more vigorous in this primary area of responsibility. This may change when these officers are rotated this spring and summer. This matter has been discussed with Subject by COS/DCOS and encouraged him to assume a more aggressive and substantive

not necessarily conducive to easier relationships with local counterparts, Subject handles himself with professionalism, tact and understanding, well designed to absorb increasing sensitivities and still get the job done. Operational and performance consultations are held constantly -- daily on specifics and at least weekly on detailed performance and operational objectives. These sessions are frank and Subject is as much contributor as receiver, but he is distinctly receptive to realistic supervision and guidance for operational continuity. Subject is markedly security conscious, maintains his cover status as appropriate and is perhaps overly cost conscious. His work in analysis and research in the complex MPWATCH field, bringing together and collating viably positive intelligence (which otherwise be lost) in draft form is exemplary; his finished written work requires and is getting continuing attention. In fairness to Subject on latter point, he does very well in this area when adequate time is available to "finish" the product; on balance we prefer him active and mobile and can live with this marginal fault while evident efforts to improve continue. Overall, Subject is a well-rounded operations officer, a credit to the Agency and capable of larger responsibilities.

role in suggesting operational ideas, levying tailored intelligence requirements, etc. to the various ops officers. Accordingly, for this rating period, I would rate Subject in Duty #1 at Proficient with an over-all rating of Proficient. Subject has the potential to increase his capability in the operations and ops management spheres. Subject and his rating officer work effectively as a team; consultations between them have produced some positive results.

During the reporting period Mr. Fox has assumed greater responsibility as an Acting Desk Chief. As such he is responsible for the support of the operations of a large and active Station and for the direction of some eight employees either serving on this Desk or in process for the field. On balance he has done extremely well. His ability to express himself well verbally or in writing has stood him in good stead. His operational judgment is extremely good. He gets along well with his subordinates, delegates to them, and has obtained good production from them. He is highly cost conscious.

Mr. Fox is a bright, energetic and capable officer. At the same time, he is professionally sound in his judgement. He is thorough in reviewing and evaluating his programs and has a superior knowledge of his subject matter. He is cost conscious.

During the past year he has handled a very large work load. While his general performance has been exemplary, there have been, at times inordinate delays in completing a proportion of his written work, accounting, etc. Mr. Fox has been cautioned in this occasionally erratic performance, and it is expected that he will show marked improvement.

This officer is scheduled for assignment to the Philippines in mid-1969. His operational work in Hqs in handling visiting unilateral and liaison assets, as well as local developmentals argue well for a fine performance in the field. He is an extremely personable individual, who while intense does very well in social situations. He is a self starter, who needs little guidance. These factors should stand him in good stead.

In spite of occasional delays noted above, Mr. Fox was a very strong asset for the Philippine Desk during the past year. He remains a most capable officer with considerable potential career development.

Mr. Fox is a thoroughly competent case officer who has been a major asset to the Philippine Desk. He has worked extremely hard with a minimum of supervision. He has not limited himself to his assigned duties, but has interested himself in other aspects of the Desk. In this regard he contributed considerably to the complete reorganization of the desk files.

In carrying out his duties he has been extremely thorough. His analysis of his cases has been excellent. While he writes clearly and meaningfully he still tends to be slow in handling correspondence. He will have to pay extra attention to this in his coming assignment as a Chief of a one-man base.

Mr. Fox is personable intelligent, and mature officer. He is a self starter who should do extremely well in his upcoming assignment.

Mr. Fox has had no supervisory responsibilities during the period under review. He is commendably cost-conscious.

COMMENTS OF REVIEWING OFFICIAL I concur with the Rating Officer's evaluations and comments. Prior to his assignment to the Philippines Desk Mr. Fox served under me on the Indonesia Desk. While there he mastered with commendable speed a variety of complex operational matters and related subjects of interest. He could always be counted on to know his cases and come up with the facts. He is a sound professional who can be trusted to do a job with a minimum of supervision.

In view of his excellent performance since his assignment to this Branch, Mr. Fox has been recommended for promotion to GS-13. He is also being programmed for an assignment as Chief of a facility in Cebu where his independence and self-reliance should stand him in good stead.

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. Manner of performance of managerial or supervisory duties and cost consciousness in the use of personnel, space, equipment and funds, must be commented on, if applicable. If extra space is needed to complete Section C, attach a separate sheet of paper.

The comments noted in Mr. Fox's previous Fitness Report to the effect that a little more experience with the Indonesian Desk (to which he was assigned in mid-October 1963) should make him a strong member have been more than amply justified during this period. With minimum supervision or direction, Mr. Fox undertook the task of absorbing and systemitizing the complexities of Djakarta Station operations against communists and other left-wing elements. The result has been increased comprehension on the part of Headquarters regarding these efforts.

Mr. Fox also contributed materially in the way of preliminary operational research, support, recommendations and follow-through on two operational ploys conducted by Headquarters: one, an attempted recruitment of a communist functionary in a third country; and the other the turnover of a former Djakarta Station asset now in the U.S. to another agency. Mr. Fox was further involved in studies to determine the feasibility of capitalizing on other agency assets for entrees to the communist movement not only in Indonesia but also the Philippines, Malaysia, and Singapore. His performance in these functions was characterized by thoroughness and imagination.

Mr. Fox is an extremely capable, intelligent officer with whom it is a genuine pleasure to serve, both professionally and personally. He is intellectually

I would have rated Mr. Fox about the same. He at times suffers from an inability to articulate his thoughts clearly. There is no question of his professional grasp of his field, however. His feel for CP penetration operations is unusually sharp and he is capable of playing a significant ops role in a field assignment.

curious, has a probing mind and has the knack of quickly and accurately assessing a given situation. A diligent worker, he retains a good sense of humor and gets along well with his colleagues. He is inclined to become a bit impatient with the bureaucratic procedures at Headquarters, but has the maturity to subdue such feelings in the interests of expediency.

As for weak points, Mr. Fox has tended to be somewhat lax about answering correspondence, particularly when he felt them to be of marginal value. This has been pointed out to him, however, and he is effectively overcoming this defect.

During this period, Mr. Fox had no supervisory duties as such, although he assisted on an ad hoc basis in the supervision of a career trainee temporarily assigned to the Indonesian Desk. His performance here was promising and it is contemplated to assign him some supervisory responsibilities in the future.

Mr. Fox exhibits good cost consciousness.

Subject has been assigned to the Indonesia Desk since mid-October 1966, consequently evaluation of performance of specific duties at this point would not be based upon representative evidence.

During the very brief interval Subject has been with the desk, he has shown several consistent qualities that deserve noting. Assigned the Communist Party operations sector, he applied himself to background reading, files research and organizing his materials, with commendable energy. He has accepted a variety of spot assignments requiring timely response, shown considerable initiative in locating the necessary facts, and met the required deadlines without undue assistance or observation. He shows every evidence of absorption in his assigned field. A little more experience with the country, Headquarters procedures and local conventions should make him a strong member of the desk.

LANGUAGE TRAINING OBJECTIVES AND METHODS

The general aims of language training are attainment of proficiency in speaking, understanding, reading and writing. The specific objectives are (1) ability to produce and distinguish the sounds of the language; (2) ability to use a stock of basic sentences and expressions; (3) ability to recombine the elements of basic sentences and expressions and to apply them to new situations; (4) ability to comprehend the language spoken at normal speed in various situations; (5) ability to write and read the language commensurate with ability to speak.

Methods used in all courses stress oral drills and free conversation based at first on memorized material and, at a later stage, on varied reading materials. Written and oral tests are given at intervals. Listening to and recording on tapes in the Language Lab is essential for class preparation.

SECTION C — **NARRATIVE COMMENTS**

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties must be described, if applicable.

During the period covered by this report, Mr. Fox has [illegible] first time been assigned as an operations officer in the DD/P, having transferred from the DD/I in April 1963. Mr. Fox has made this transition very well, and has adjusted himself to the operating tempo and atmosphere of a busy desk. He is now a competent and flexible case officer, making a valuable contribution to his desk and branch. For the past month, he has served very capably as acting chief of the North Vietnam element of the desk, during the absence of another officer.

Mr. Fox was quick to recognize the difference between his present assignment and those previous to it. This difference has required some changes on his part, in terms of emphasis and flexibility. Mr. Fox has graciously accepted guidance given him during this period, and has developed into an efficient DD/P officer.

Mr. Fox's assignment involves partial supervision of two junior officers. He directs these officers effectively, and in a natural manner, giving promise of considerable supervisory capability which future assignments can develop.*

Following some additional time on the desk, during which time it is expected that Mr. Fox will assume more responsibility for the North Vietnam program, it is planned to send him to the field, as his performance on the desk would indicate that he is fully capable of an operational field assignment.

*Mr. Fox's supervisory duties have not been directly related to fiscal matters. However, he has revealed a normal degree of cost consciousness in those budgetary matters with which he has come in contact.

COMMENTS OF REVIEWING OFFICIAL

Concur in supervisor's comments. I have observed this officer since early May 1963 and I believe he has developed steadily in the operations field, a field new to him. After another six to nine months on the desk, he should be ready for his first ops assignment abroad, hopefully in Saigon working on the North Vietnam program. He is showing the earmarks of a well-rounded, thoughtful case officer and we should not delay too long in getting him to the field in a real operational situation.

Subject during his tour of duty at this station demonstrated a thorough knowledge of the Factory Markings program and was sincere and competent in performing his duties. The establishment of the joint center (Comet) was a creditable achievement which should make an important contribution to the program in the years to come. He was cooperative and willing to undertake additional duties when requested. He has done an outstanding job in the training of both ODYOKE and and foreign personnel.

The reporting officer feels that Subject has a tendency to procrastinate and that on a few occasions he did not follow through on his commitments as aggressively as he might have. This, however, was the only weakness noticed in an otherwise competent performance.

Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

The undersigned's assessment of subject officer continues essentially the same as stated in the previous fitness report.

During the 18 months this officer has performed his duties at Tokyo Station he has carried on and, with marked success, built upon the program organized by his predecessor. Subject officer by diligent effort and by demonstrating outstanding competence and expertise in the Factory Markings field has successfully established himself as the focal poin for the Factory Markings Collection Program (FMCP) within both the Station and the ODYOKE intelligence community. He has established and maintained excellent working relations with all ODYOKE intelligence components having an interest and/or capability in the FMCP. His status insures the maximum coordinated effort in this field with resultant benefits to the entire intelligence community. The thoroughness and effectiveness with which I believe the FMCP is being carried out in the North Asian area is strong testimonial for the caliber of subject officer's performance.

Subject officer has demonstrated high devotion to duty and complete willingness to undertake any task, no matter how difficult or inconvenient, which would contribute to the FMCP. In addition, he has voluntarily undertaken to look after the broader interests of KUBARK with both KUDOVE and ODYOKE military intelligence components in this area. In the performance of his duties subject officer has also displayed a high degree of initiative and self-reliance, as well as mature judgment in assessing the goals of his program and devising and implementing all measures necessary to achieve them.

With regard to subject officer's current assignment and performance I have no weaknesses to note. From the point of view of his career development I do recommend further trainin (continued)

True, we have no person performing comparable duties in the station, but we have few, if any, officers here who consistently perform at this high level. SECTION E — NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

Stress strengths and weaknesses demonstrated in current position. Indicate suggestions made to employee for improvement of his work. Give recommendations for his training. Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

Mr. Fox is a steady, conscientious worker, and has consistently displayed initiative and thoroughness in his research assignments. His main weakness is in organizing and presenting the results of his work. This weakness is also apparent in his oral presentation of argumentation. Mr. Fox frequently "talks around a point" instead of "hitting the point". This weakness has influenced the rating given under Section D - "thinks clearly", and limits his effectiveness as a supervisor. It is hoped that Mr. Fox will overcome this weakness in his forthcoming assignment overseas.

INTELLIGENCE PRINCIPLES AND METHODS NO. 8

SECTION I: IDENTIFYING INFORMATION

NAME **FOX, Jerome**	SEX **M**	DATES OF COURSE **26 Sept. - 21 Oct.**	NO. OF STUDENTS **14**
DATE OF BIRTH **9 October 1928**	EOD DATE **15 June 1955**	GRADE OR RANK **GS-7**	OFFICE **ORR**

PROJECTED ASSIGNMENT OR PRESENT POSITION

Identification Specialist

SECTION II: OBJECTIVES OF THE COURSE

1. To introduce students to the skills and methods involved in the processing of intelligence materials;
2. To provide practice in the oral and written presentation of intelligence for a variety of purposes.

SECTION III: SPECIFIC CHARACTERISTICS OF THE COURSE

Intelligence Principles and Methods is a four weeks (160 hours) extension of Basic Orientation Course for personnel who are or will be engaged in the production of intelligence. Emphasis is on "learning by doing", through the medium of a series of integrated written exercises which require processing of actual intelligence documents. Exercise is also gained in the oral presentation of intelligence through a series of briefings before the class. Each student is assigned a special research problem for which approximately 40 hours are allotted in the course schedule. The results are presented to fellow-students and instructors in an oral briefing at the close of the course. The student also prepares an annotated bibliography, and writes a critical review of one of his chief sources.

SECTION IV: HOW THE STUDENTS ARE EVALUATED

Written exercises are graded independently by at least two members of the instructional staff on the basis of how well the student has fulfilled the requirements of selectivity, organization, accuracy to original, brevity and clarity of style. Grades for each type of written exercise are entered in Section V. Oral briefings are evaluated by both instructors and fellow students through the use of written critique sheets and oral observations following each presentation. A composite grade is given for the oral briefings. In the evaluation of the research problem the grade entered reflects intelligence focus, exploitation of sources, and general effectiveness of written and oral presentation. The grades are defined as follows:

SUPERIOR: The student demonstrated outstanding ability or proficiency in meeting this course goal or objective; he [illegible] thorough knowledge of the material presented [illegible] area.

Section IV. How the Students are Evaluated (Contd.)

EXCELLENT: The student showed unusual competence, skill or ability in meeting this objective or goal; he demonstrated a thorough grasp of the presented material, or, if skills are involved, he demonstrated that he can perform in an extremely effective manner in this area.

SATISFACTORY: The student met this objective in a competent and adequate manner; he demonstrated a good understanding and grasp of the information presented, or, if skills are involved, he demonstrated sufficient competence to operate effectively in this area.

POOR: Although the student may have met some of the standards set for minimum achievement of this course goal or objective, he demonstrated serious gaps in knowledge or sufficient lack of skill to be of doubtful competence.

FAILURE: The student was unable to grasp the concepts of information presented, or demonstrated that he had not acquired the necessary information and skills to operate at even minimum capacity in this area.

SECTION V: REPORT OF STUDENT ACHIEVEMENT

SECTION VI: INSTRUCTORS OVER-ALL EVALUATION

In terms of all factors observed during the course and taking into account this student's experience in the Agency, grade, and general area of work, an "X" in one of the boxes shows the judgment of the instructional staff of his performance.

COMMENTS:

FOR THE DIRECTOR OF TRAINING:

THIS PAGE OF THE REPORT IS NOT TO BE SHOWN TO THE STUDENT UNDER ANY CIRCUMSTANCES

SECTION VII: INSTRUCTORS' COMMENTS

Observations of the instructional staff, especially on habits, characteristics, strengths, weaknesses or anything that may have influenced the student's performance in the course are reported here.

Mr. Fox's performance in the course was no more than average, but he applied himself to the work and was interested in getting something out of the instruction. Mr. Fox took "Economic Relations between Afghanistan and the USSR" as the topic for his research project and did considerable work on the subject, in spite of a dearth of material. His critical review was workmanlike and showed that he had put a definite effort into preparing it.

Mr. Fox improved throughout the course in his oral briefing, although at no time were they well organised or concise. When his faults were pointed out to him, he made a genuine attempt to remedy them. Mr. Fox also has the capability of self-criticism; he frequently recognized his mistakes himself and was interested in discussing them with his adviser. Although his performance was frequently disappointing, I believe that he obtained considerable benefit from the course as he was genuinely anxious to learn and improve.

This evaluation, shown by an "X" in one of the boxes, takes into account this training record, the student's age, grade, Agency experience, and projected assignment. It is included for the purpose of giving supervisors an estimate of the implications of the training evaluation report for the student's assignment and career potential.

READING ANALYSIS PROGRAM 8

OBJECTIVES OF PROGRAM

1. To determine employees' proficiency level in scanning, extensive and intensive reading tasks.
2. To determine employees' degree of reading versatility. Versatility is defined as the ability to apply the several reading skills appropriately to various reading situations.
3. To ascertain the probable gain which would accrue from further training in reading skills.
4. To inform each employee concerning his relative reading proficiency in scanning, extensive and intensive reading and his versatility.

TEST DESCRIPTION

READING COMPREHENSION TEST: Measures speed and accuracy of basic comprehension skills. Complete and objective understanding, analysis, and interpretation are required in this test.

EXTENSIVE READING TESTS: Measure the degree of proficiency in informational, or general reading.

INTENSIVE READING TESTS: Measure reading proficiency in acquiring basic knowledge of new subjects.

SCANNING TESTS: Measure proficiency in the organization and location of specific information, main idea, and questions.

ANALYSIS OF READING PERFORMANCE

	Poor	Fair	Sat.	Exc.	Sup.
1. Basic Comprehension Skills			X		
2. Extensive Techniques			X		
3. Intensive Techniques		X			
4. Scanning Techniques:					
Specific Information					
Main Idea			X		
Questions			X		
Organization				X	
			X		
5. Versatility			X		

COMMENTS AND RECOMMENDATIONS:

Mr. Fox scans for specifics quickly and accurately; he scans for main ideas satisfactorily, but could improve his use of that technique with practice. Poorer comprehension in intensive reading could be caused by lack of concentration or failure to organize information while reading. Extensive reading could be improved by adjusting rate to read selectively for pertinent information. The Reading Improvement Course would be of benefit in developing use of more diversified skills.

TO BE COMPLETED BY FIELD STATION

12. IN CONSIDERATION OF THE EXPERIENCE AND PERFORMANCE OF THE EMPLOYEE AND HIS PREFERENCE FOR NEXT ASSIGNMENT, INDICATE YOUR RECOMMENDATION FOR HIS NEXT ASSIGNMENT AND TRAINING:

I believe that Subject could make a contribution as a case officer at a station with an active MHABYSS program. He knows the subject well and can get along with LNAGON personnel. His other strength lies in Communist Party operations either as a handler of recruited assets or as an analyst of doctrine. In light of the foregoing, Bangkok Station might well be an appropriate assignment. Should that not be practical, recommend that Subject be reassigned to HQs. in a component where his strengths can be utilized. If assigned at HQs, he should be given the (CONT'D)

13. IN CONSIDERATION OF THE EXPERIENCE AND PERFORMANCE OF THE EMPLOYEE, HIS PREFERENCE FOR NEXT ASSIGNMENT, AND THE STAFFING REQUIREMENTS OF YOUR COMPONENT, INDICATE YOUR COMPONENT'S RECOMMENDATION FOR HIS NEXT ASSIGNMENT AND TRAINING.

Mr. Fox will be assigned to EA/PMI upon completion of his tour and home leave. He has been so advised.

MEMORANDUM FOR: Deputy Director for Plans

SUBJECT : Messrs. Jerome Fox and Harry G. Peterson - Fourth Security Violation

REFERENCE : HR 10-16

1. This memorandum contains a recommendation for approval in paragraph 4.

2. Two officers of this Division have incurred their fourth security violation. Reference requires that I impose at least two weeks' leave without pay in each case unless your approval is obtained for a lessor penalty. I propose such a lessor penalty and request your concurrence.

3. The officers concerned, Messrs. Jerome Fox and Harry G. Peterson, are both dedicated Agency employees who have never, to the best of my knowledge, evidenced contempt for our security procedures nor displayed such gross negligence as to require strong remedial action. In neither case were any of the violations such as to indicate a compromise of information was probable; all were either open-safe or "exposed-classified-material" violations such as one-time typewriter ribbons, and none involved loss of documents, indiscreet talk or other more serious matters. Further, the majority of the violations occurred on occasions when the individuals concerned worked past the normal close of business and, while this is no excuse for carelessness, frequent overtime work does increase the possibility of a violation since the usual after-hours duty check is not operative. It seems to me, therefore, that the two weeks' leave without pay required by reference would be an excessively harsh penalty and not conducive to the enhancement of Agency security in general. I, therefore, propose the imposition of two days' leave without pay and a written reprimand for each officer. Copies of the proposed reprimand are attached.

Supplement to Staff Employee Personnel

Action for Integration of JEROME FOX

Effective 21 November 1967

The purpose of this memorandum is to call your attention to existing policies which are particularly material to you while you are integrated and to set forth certain rights and obligations which are incident to your status as an appointed employee. It is hereby agreed and understood that:

1. As an employee of this organization, at the present grade and salary of GS-12 $12,443. per annum, you will accept cover employment with another instrumentality of the Government (hereinafter referred to as "your cover facility") effective as of 21 November 1967. You will, insofar as consistent with your basic responsibility to this organization, abide by all the rules, regulations, practices and policies of your cover facility, in order to appear as a conventional member of that establishment. Your appointment to your cover facility is being effected at FSR-5 and salary of $12,074. per annum. You are prohibited, except as specifically authorized herein, from retaining emoluments paid by your cover facility.

2. It is understood and agreed that the minimum period of your overseas tour of duty is governed by and coincident with the prescribed tour of duty of your cover organization. Currently, your prescribed tour consists of a period of 2 years from the date of your arrival at your overseas post of duty. Your assignment may be terminated earlier for the convenience of this organization and the length of your tour of duty, as currently specified, may be unilaterally changed by this organization in order to conform with subsequent changes in the prescribed tour of your cover facility. If you request termination of your overseas assignment solely for your own convenience, unless it is for circumstances that are considered by this organization to be beyond your control or if you are terminated for cause under the regulations of this organization before you have completed the minimum period of service prescribed above from the date of arrival at your overseas post of duty, you will not be entitled to return travel or transportation for yourself or your dependents to the United States at Government expense. If you request termination of your overseas assignment solely for your own convenience, unless it is for circumstances that are considered by this organization to be beyond your control or if you are terminated for cause under the regulations of this organization before you have completed one (1) year of service from the date of your arrival at your overseas post of duty, you will be required to reimburse the Government for all of its expenses for your travel and transportation, and that of your dependents, from the continental United States to such overseas post of duty.

3. Travel to your post of duty overseas and your return travel to the United States, as well as travel performed overseas which is consistent with your cover designation, will normally be at the direction of your cover facility. Such travel will be accomplished in conformance with applicable regulations of your cover facility except when you are directed for operational reasons to perform travel in accordance with the regulations of this organization.

4. Salary and (except as provided in paragraph three (3) above) allowances paid by your cover facility shall be retained by you to the extent that they are less than or equal to the salary and allowance payments due on the basis of your grade level with this organization. If such cover payments are less than the amount due, the difference will be credited to your payroll account with this organization. If such cover payments exceed the amount due, the overage will be remitted to this organization at designated intervals, presently ____________. Computations hereunder will be made on the basis of the aggregate gross due and received provided, however, that in computing remittances for overage Federal and, if applicable, District of Columbia income taxes withheld by your cover facility against the overage may be deducted. To assure timely accuracy in your payroll account with this organization you are expected to immediately report cover facility payroll changes.

5. Your status as an employee of this organization will continue in full force and effect during your period of duty with your cover facility and you will continue to be entitled to all rights, benefits and emoluments of such status. Certain variations in procedure will be required, however, to preserve the security of your cover position.

a. Upon integration into your cover facility, you will continue to be covered by the provisions of the Civil Service Retirement Act, as amended, and at your personal expense you will be subject to payroll deductions for retirement purposes (now six and one-half per cent) on the basis of your cover salary or your salary from this organization, whichever is the greater.

b. If you receive taxable income from both your cover facility and this organization, necessary adjustments for Federal, and if applicable, District of Columbia income tax purposes will be made in conformance with instructions received from this organization.

c. Consistent with your cover activity, you will continue to be responsible for compliance with the rules and regulations of this organization.

d. You are not assured upon the completion of your period of duty with your cover facility of any status with your cover based on your services performed with that organization at the request of this organization.

e. All annual and sick leave which is accrued to your credit at the time of integration will be transferred to your cover facility. While integrated you will be permitted annual leave, sick leave, home leave, and leave without pay in accordance with the regulations of your cover facility in lieu of the leave benefits of this organization. Upon completion of your integration your accrued annual and sick leave will be transferred to your credit with this organization. If security conditions require that your cover facility make a lump-sum payment for accrued annual leave, you will be required to pay the gross amount thereof to this organization including any income taxes withheld by your cover facility.

6. You will be required to keep forever secret this agreement and all other information which you may obtain by reason hereof, unless you are released in writing by this organization from this obligation. Violation of such secrecy may subject you to criminal prosecution under the Espionage Laws, dated 25 June 1948, as amended, and other applicable laws and regulations. The termination of your employment with this organization will not release you from the obligation of any security oath you may be required to take.

MEMORANDUM FOR: FE Career Management Committee

SUBJECT : Recommendation for Promotion of Mr. Jerome Fox from GS-12 to GS-13

1. The Vietnam Station has recommended the promotion of Mr. Jerome Fox from GS-12 to GS-13. He has been in his present grade for almost five years. He is already performing at the level normally expected of a GS-13. Mr. Fox was ranked fifth among all GS-12's currently at Vietnam Station. The Station recommendation as contained in Saigon 4925 (T2709) is quoted in the following paragraphs.

2. This employee has performed at a highly commendable level during his tour at this Station. During the first year he was assigned to a variety of jobs, all of which he approached with vigor and capability. These included liaison responsibilities with both the Special Branch of the National Police and the Saigon Municipal Police. He has also engaged in unilateral agent activities; he has developed, recruited and managed two unilateral agents, and plans to attempt the recruitment of a third prior to his departure. During the last period of his duty, Subject has concentrated on the development and progress of a sensitive FI/CI activity concerned with a mail intercept. He initiated this project, and has since managed it in such a manner that it has evolved into a unilateral project with considerable potential. During the course of his tour, the case officer was also charged with the implementation of an activity designed to bring about the release of an American prisoner held by the VC. While this did not come to fruition, Subject approached this difficult task with a reasonable degree of initiative and energy.

3. Subject displays the qualities of a highly capable, well-rounded officer. He has approached his own tasks with a mature and efficient manner, and has always demonstrated an excellent understanding of the role and mission of MACV and the Station in this area. He appears to be highly motivated, and I consider him an officer with a great deal of long-range potential.

3. the safe contained material classified through SECRET;
4. the char force had not been in the area prior to this discovery.

SDO Craig changed the combination and secured the safe at 8:30 p.m.

INVESTIGATIVE FACTS:

Mr. Jerome Fox, the custodian of the safe, accepted full responsibility for this occurrence when interviewed in his office on 10 March. Mr. Fox stated that he obviously failed to secure the safe due to the fact that he had no reason to believe anyone else would have opened it subsequent to his departure at 6:00 p.m. (NOTE: The safe was left improperly secured for approximately 90 minutes.) It should be noted that Mr. Fox had signed for the security check of his area.

CONCLUSION:

In view of the above circumstances, Mr. Fox is charged with an Open Safe security violation.

SECURITY HISTORY:

Mr. Fox has been employed by the Agency since June 1955. A review of his record indicates that he has been previously charged with an Open Safe security violation which occurred on 23 May 1964, an Exposed Classified Material security violation which occurred on 11 January 1966, and an Exposed Classified Material security violation which occurred on 12 May 1966.

TRAINING REPORT

Instructor Training Course No. 60 — **6** students
40 hours, 30 Oct. - 3 Nov. 1961

Student: **Fox, Jerome** Year of Birth: **1928**

EOD Date: **June 1955** Grade: **11** Office: **Orr/3t/FM**

COURSE OBJECTIVES, CONTENT, AND METHODS

The Objectives of this course are:

1. To develop an acquaintance with the learning processes.
2. To apply the principles of learning and instruction in practical teaching experiences.

This course included planning and practical teaching work in: principles of learning and teaching; effective oral communication; demonstration techniques; training aids; elements of effective class discussions; principles of lesson planning; all based upon the implementation of the principles of learning. Due to the shortness of the course, familiarization only was attempted with the above aspects of teaching.

During this course, each student presented to the class a sample speech, demonstration, a class discussion, and lesson plan, all related to his own subject matter area. These presentations were critiqued and rated by his classmates and the instructor. Over half of the students' course time was spent in practical exercises.

ACHIEVEMENT RECORD

This student has satisfactorily accomplished the course objectives and met the course standards in presenting his exercises. Mr. Fox has a pleasant manner of speaking, and with each presentation to the class his effectiveness increased. He was able to use visual aids effectively to good advantage, and he made worthwhile suggestions for improving the presentations of others. He evidenced a sound grasp of the principles of lesson plan format.

Despite his noticeable progress during the course, Mr. Fox needs to show more interest in his students and regularly maintain good eye contact with his entire class. By giving continual attention and practice to vocal variety, overt manifestations of enthusiasm, and the establishment of closer rapport with the students, Mr. Fox should be able to increase considerably his competence as an instructor.

REMARKS:

Mr. Fox met the course objectives and completed all of the course assignments for the two weeks he attended with average results.

Encountering some difficulty at the outset, Mr. Fox soon overcame many of his problems in the two week time. He demonstrated an eagerness to learn, by asking to be checked out in not only course equipment, but other equipment as well. He also offered to complete additional assignments on his own time.

It is suggested he continue his practice and association with photography in order to maintain and improve present proficiency.

MEMORANDUM FOR: Director of Central Intelligence

VIA : Deputy Director for Administration

FROM : F. W. M. Janney
Director of Personnel

SUBJECT : Mr. Joseph Burkholder Smith

1. (U) Action Requested: None; this memorandum is in response to your request of 15 May 1978 to provide you with a very brief rundown on Mr. Joseph Burkholder Smith.

2. (C) Mr. Smith was born in 1921, holds B.A. and M.A. degrees in History and has studied at the Ph.D. level in this field. He served as a Corporal in the U.S. Army (1943-46) and from 1946-51 he was an Assistant Professor of History at Dickinson College. He entered on duty with the Agency in September 1951 as a GS-09 and reached the GS-14 level before his retirement in June 1973. At the time of his retirement, he was assigned to the DDO/Western Hemisphere Division. He received the Career Intelligence Medal. Overseas assignments included Singapore 1954-56; Manila 1958-60; Buenos Aires 1962-66; and his last assignment, Mexico City 1969-73.

3. (S) Apparently after retirement, he wrote a book, Portrait of a Cold Warrior, which he did not submit for security review or for DCI approval. This book was already printed in advance uncorrected proofs when the Agency first learned of its publication. It contained classified information; however, the Office of General Counsel advised us that it was the final decision of this Agency and the Department of Justice that we would not pursue civil action against Mr. Smith. In this sort of action you must prove damages. The Operations Directorate was reluctant for security and sensitivity reasons to point up those areas wherein we had been damaged.

4. (U) In the event you wish to read further on this subject, we have attached papers furnished us by Mr. John Greaney of the Office of General Counsel.

How CIA Agents Suffer From Secrecy

CONTINUED

d

By Joseph Burkholder Smith

TWENTY-FIFTH college reunions are great occasions for letting the world know how well you've done, and mine was no exception. All my old classmates, it seemed, had become assistant secretaries of state or vice presidents of General Motors or had acquired some equally impressive title. So it was a little embarrassing when they'd ask me what I was up to.

Not that I hadn't done well myself — I was at the time fairly high up in the Central Intelligence Agency. But I wasn't allowed to say that, so when they asked, I had to mumble something vague about being a civilian employee at Patrick Air Force base, an excuse that, I could tell, conjured up images of genteel failure (too much drinking, perhaps) in the people who heard it.

Not being able to impress my old classmates was a small wound, but it symbolizes an important problem for CIA agents. We live in a society where lots of people plan their lives so as to accumulate the greatest possible number of credentials of the sort that will wow their peers at reunions and similar moments. These credentials give many Americans a sense of identity and of security. CIA people are by no means immune to the desire to impress people with credentials, but their jobs are directly at odds with that urge. In that way and several others, we in the CIA have been deprived of the normal ego supports of the American life of our time, and how we dealt with (and didn't deal with) their absence from our lives has had something to do with how our agency has (and hasn't) done its job.

It wasn't just our status among our peers that suffered as a result of our work. Normal family life was a victim too. The CIA's Clandestine Services division has for years had the highest divorce rate of any organization in the government. Part of the reason is that recruits of my generation of clandestine operators were instructed never to tell their wives what they were really doing. "Just say it's a question of national security," they told us when we had to take one of our frequent absences from home.

Of course, many men also discovered quickly what an improvement that line was over the old "working late at the office" routine and took advantage of it. Still, most of the marital problems came not from philandering but from the unspectacular, bitter toll that living under cover takes on people. Officers with good marriages might tell their wives in general terms what kind of work keeps them out at night, but they have to insist that the wives give no hint. The first thing a CIA wife learns is never to ask another woman what her husband does, for fear she will be asked the same question.

CIA wives also have to join their husbands in keeping their children in the dark. When schools have programs in which the kids' fathers tell their classes about their fascinating work, she has to help invent reasons why her child can't volunteer his father's participation. When the son wants to visit his father's office, the way his friends do, she must try to ease his terrible feeling of rejection when his father tells him no. This kind of travail makes many women wonder if it's worth the effort.

Talking to Yourselves

IF A CIA AGENT is stationed in Washington, he has to get used to being asked at every party, by every stranger he meets, "What do you do?" Personal qualities like kindness, good temper, or intelligence — even good looks and money — mean nothing in the nation's capital compared with where one stands in the pecking order. A CIA couple who maintain their cover are quickly "selected out" of any party they go to and end up in a corner talking to themselves.

CIA wives, particularly, feel this instant social failure deeply and resent it. Until the women's movement, most women were raised to channel their ambitions toward the areas of party-giving and cooking. When married to a CIA agent, they felt they were denied these things because of their husbands' work, and their marriages got into trouble.

When CIA families go abroad they find their lives even more disrupted by status anxieties. The American official community, centered at the embassy, spends more time and effort than the Soviet KGB trying to discover who are the CIA families. If a CIA officer is assigned to the embassy under the guise of being in the Foreign Service, the U.S. Information Service, or the Agency for International Development, the real employes of those organizations ferret the CIA agents out and then take pains to treat them as second-class citizens. The government employees who are "legitimate" embassy personnel don't speak to them at all. If they arrive at the embassy under deep cover, with no false identity, then not even the other CIA personnel speak to them.

The game of uncovering the CIA people is made simple for the "legitimate" embassy personnel by a number of means: The State Department won't let CIA agents call themselves, as a cover, Foreign Service Officers; they have to say they're "Foreign Service Reserve" or "Foreign Service Staff" officers. Real FSSs, as they're called, are fairly low-level and real FSRs are never in political jobs, so the CIA's people — listed as FSS or FSR "political officers" — are obvious to one and all.

In the same status-preserving spirit, the State Department used to publish an annual Biographic Register, a who's who of the Foreign Service that included information on degrees, jobs, and murky pasts; it wasn't until 1975 and the murders of several CIA agents that State made the Biographical Register a classified document.

Envy, Jealousy, and Distrust

THERE ARE several ways to deal with the problem of credentials. One is to rise above the woes of status anxiety. Another is to learn to laugh them off, even if they are painful. Unfortunately, however, a more common way of handling the trade-off between your cover and your status is to give up some of the first to get more of the second. In foreign capitals CIA agents often have been so anxious for the natives and the diplomatic community to consider them

important that they've made their secret jobs obvious — which has not only brought them envy, jealousy, and distrust, but has made it very hard for them to do their job of intelligence-gathering properly.

"Do you know that CIA people are paid double salaries to serve abroad?" the new political officer in Singapore said to me when I showed him and his family around the Singapore Swimming Club on the Sunday after he arrived. "They get paid twice as much as you or I do. They get paid for their cover jobs and then paid again for their hanky-panky work. That's why they live better than we do."

I felt flattered that I was holding my cover well enough to be told his secret, and I only wished what he was saying were true.

But it was an impression that was understandable, if erroneous. CIA officers did serve in covers that were lower in rank than their real jobs, and, both on the job and off, they didn't live lives consistent with the rank they were pretending to have. For reasons of their jobs, agents cultivate contacts in the local government and other diplomatic missions in circles far higher than people of their cover rank ever have a chance to meet. And they insist on renting the kind of houses to which their CIA rank entitles them, as well as demanding and receiving a lot of special perquisites.

My new friend was wrong about the double salaries, but all the CIA officers he had seen abroad would certainly have given him the impression that he had about that rate of compensation.

In particular, most CIA station chiefs are not content to live in quarters much less grand than the ambassador's official residence. In many countries, this makes sense — the CIA has liaison responsibilities that are officially recognized by the ambassador and the State Department. But this is not appreciated by the lower-level employees of the embassy, if it's told to them at all. Resentment of the chief of station's life style bubbles up.

In the past, many chiefs of state made no attempt to hide their preference for dealing with the CIA station chief rather than the ambassador — sometimes because they owed a great debt to the CIA, which may have stolen the election for them or financed the coup that put them in power. In any case, CIA station chiefs have always felt they could not entertain these men in hovels. It would be detrimental to the prestige and interests of the United States, they argue, if they did not have the rank and accoutrements of the foreigners with whom they deal. One station chief I knew in the 1960s got two grade promotions by this gambit. It has served many a CIA official well in regard to his housing.

Frank Snepp, in his book "Decent Interval," gives a vivid account of the perquisites agency personnel enjoyed in Vietnam. They had their own hotel, club, swimming pool, and cars. In the 1960s in Asia it was customary for CIA officers to have chauffeurs, too, on the rationale that you needed somebody around to guard CIA cars against looting. Since the cars were government property, the gas and oil and maintenance costs, as well as the chauffeur, were paid for out of the station's housekeeping funds. People who were listed as lowly attaches were often seen driving around in big, unmarked, chauffeured cars, which drove the Foreign Service Officers into frenzies of envy.

"We'll Entertain Ourselves"

EVEN WORSE, perhaps, than using perquisites to fend off the pangs of status anxiety is CIA people's tendency to huddle together. If the rest of the world thought we were nondescript Army officers and the like, well, we knew who was and wasn't who and could play the game with each other. The other embassy personnel won't invite us to their parties? We're too low on the diplomatic list to get invited to the important functions given by other embassies and by officials of the local government? We'll entertain ourselves. Conscientious CIA officers try hard to curb this practice, which after all is a breach of nearly every tenet of good security, but they fail more often than they succeed.

In the days when our national purpose was more clearly defined, when we would, in the words of John F. Kennedy, pay any price and bear any burden in defense of the free world, it didn't matter so much if the cover of CIA personnel was a little thin. In some countries, the prestige of the agency was even higher than it was at home, enormously higher than it has been at home for the last three years. In the Philippines in the late 1960s, the CIA was so well regarded that members of the Army Counter Intelligence Corps used to try to recruit Filipinos by passing themselves off as CIA agents. Today, the open life style of a station chief can lead to his death, as it did for Richard Welch in Athens.

Welch was killed by the gun of an anti-American assassin, but the gun was put into the assassin's hand by all the defenses against the dilemmas of covert life that I've described. Welch lived in a house inherited from past station chiefs, everyone in the embassy knew his true position, and his biography appeared in the Biographic Register, which could be found in any library.

After Welch died the register was mercifully classified, but that doesn't mean an end to the problem. CIA personnel will always feel a strain from having to pretend to be much less successful than they really are — even if they love their work and believe in it deeply, they'll still feel pangs. That's human nature, and while we ought to curb the obviousness of CIA agents' identities, to some extent we've just got to deal with it.

On way to do that is to treat CIA agents sympathetically. These are obviously people who have sacrificed something to work for the agency, and who depend to an inordinate extent on having stable relationships with their co-workers, since they can't have stable relationships with anyone else. The main thing in an agent's life — practically the only thing, for many — is how he's treated at Langley, where he stands there.

CIA Director Adm. Stansfield Turner.

So when Adm. Stansfield Turner quickly fired 820 Clandestine Services officers last year, my initial approval (some of those fired, I thought, must have been the people who made me decide to leave the CIA in 1973) gave way to misgivings. It's true that the greatest physical hazard many spooks have ever faced is the danger of choking on the pit of the olive in their martinis. But the greatest hazard we all face in life is not physical danger, it's having something eat away at our soul. No one has to be a clandestine operator, of course, but once he is, he is deprived of the normal means of sustaining his self-image that prevails in our society.

I don't mean Turner should have kept on incompetents. But I'm sure that after those 820 firings everybody else at Langley felt bitter and frightened. These are not, after all, people who have anything else to fall back on, and they need a lot of support from their organization. Turner has to use these people, and if he wants to use them effectively he ought to find a way of letting some go while making the rest feel secure.

17 June 1968

MEMORANDUM FOR: Chairman, Clandestine Services Career Service Board (Panel A)

SUBJECT : Joseph B. Smith - Recommendation for Promotion from GS-14 to GS-15

1. Mr. Smith joined the Headquarters Training Branch of the OTR Operations School in October 1966 specifically to assume responsibility for Covert Action training. He spent the first few months in a thorough study and review of all CA courses previously given in OTR. This was a long and complicated job, compounded in part by the public compromise of a wide range of Agency CA activities. In closest coordination with the CA Staff, Mr. Smith devised a totally new and different CA curriculum, consisting of two short seminars for middle and senior grade officers -- one called a Covert Action Operations Seminar and one a Politics Workshop. These seminars, emphasizing the integrated nature of CS operations, have evoked a very positive response, confirming the soundness of Mr. Smith's creative efforts in revamping CA training in this fashion.

2. As a corollary to the main duties cited above, Mr. Smith has also successfully run, in conjunction with FE Division, a Psychological Warfare Operations Course for military officers being assigned to MACV/SOG in Saigon. Finally, in the CA field, Mr. Smith has provided tutorials, as requested by various area Divisions, to a number of Staff and Contract Agents and to foreign liaison representatives in such fields as black radio, youth and student operations, veterans organizations, and methods of countering Communist propaganda.

3. In February 1968 Mr. Smith was asked to assume responsibility as Tradecraft Advisor and Coordinator for the Operations Support Course, a critical block of instruction for (primarily young

SECRET

and inexperienced) CS clericals headed for overseas assignments where they may be called upon to assist case officers in operational support tasks. Although, strictly speaking, this teaching and coordination task was outside Mr. Smith's normal purview and main area of expertise, he accepted this additional responsibility with exemplary willingness, and then proceeded to discharge it smoothly, energetically, and effectively. In addition to managing an extensive live problem, the Tradecraft Advisor must ensure that presentations by a number of instructors result in a balanced and coherent coverage of all operational subjects in the course. This entails the coordination of efforts of several senior and experienced instructors, all under the nominal aegis of the course's Chief Instructor, and, thus, demands a great deal of finesse and tact. Mr. Smith has not only fulfilled this difficult role in a highly efficient manner but has also drawn on his own long field experience for pertinent and meaningful contributions to the course.

4. During Mr. Smith's tour with OTR, he was requested to participate as a member of a Survey Team in a review of the effectiveness of the Propaganda Group of the CA Staff. In a 30 June 1967 memorandum of appreciation to the Director of Training, Chief, CA Staff commented as follows on Mr. Smith's work:

> "Throughout Mr. Smith participated in a most effective professional manner bringing to bear his extensive background in the Clandestine Services. His direct and objective approach to the problems considered in the course of the survey made his contribution to the over-all Team effort invaluable. The Team report, which I am still in the process of discussing within the Staff, will be of considerable value not only to this Staff in our future planning but also, I feel, to the future posture of the covert propaganda mission of the Clandestine Services; thus, I heartily commend Mr. Smith for his effective participation with the Survey Team in this effort."

5. In his last two fitness reports Mr. Smith has received a "Strong" rating and the Chief of the Operations School as reviewing official has added his opinion that Mr. Smith has done his job with distinction and with credit to himself and his career service, citing the assignment to ~~OTR~~ as a first-rate example of quality in rotational tours. While Mr. Smith passed on his expertise through the training process, he also enhanced his own versatility through involvement in the various training activities cited above.

6. In recognition of the foregoing, it is felt that Mr. Smith is qualified to carry out the duties of the GS-15 grade for which he is recommended. Mr. Smith has been in grade 5 1/2 years.

Charles B. Wheeler
Chief, Operations School/OTR

Smith has worked under my supervision on two occasions, once in the Philippines and most recently in the Office of Training. Both jobs were in the CA field where Smith is, I believe, one of the Agency's most experienced officers. My own view is that Smith made an outstanding contribution to Agency training, particularly in CA, during his recent tour with OTR.

MEMORANDUM FOR: Director of Training

SUBJECT: Statement of Appreciation - Mr. Joseph B. Smith.

1. We wish to take this means and opportunity to express formally and for the record the appreciation of the Covert Action Staff for the work of Mr. Joseph B. Smith as Chief Instructor for Covert Action of the Headquarters Operations School in the Office of Training during the past two years.

2. As you know, Mr. Smith worked closely with the Covert Action Staff in totally revamping the Headquarters covert action training program. It was through his efforts that the new intensive Covert Action Operations Seminar was introduced as a technique of instruction to replace the outdated Covert Action Operations (Familiarization) Course. He carried his basic concept one good step further in introducing the Political Action Workshop as an advanced forum for studying and applying covert action operational and planning techniques. Mr. Smith's work has also laid the groundwork for more specialized follow-up in covert action training.

3. The enthusiastic reception and endorsement of these two courses, the quality attendance by Division officers, and the participation by senior Division officers as speakers, attest to the need for new courses and the success of these endeavors.

4. Those of us who had the opportunity to work closely with "Little Joe" learned to appreciate his vitality, flexibility and personal commitment to the success of these training innovations. The contribution they have already made, and will continue to make, to the Agency's training program are testimony to the role that he played in devising and implementing them.

1. In response to my request of 2 May 1967 your Office did an extremely fine job in organizing and conducting the training course for the military officers who will be going to Saigon to work with Agency personnel in psychological warfare. Special note should be taken of the efforts of Mr. Joseph Smith, of your Office, who organized the course and provided not only the impetus for the program but also the catalysis for a very enthusiastic response from the students.

2. The group of trainees have been requested to provide a critique of the course after they have settled into their jobs in Saigon in order to determine how well the course material fitted their assignments. We will forward copies of these critiques as they become available.

SECTION C	NARRATIVE COMMENTS

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties and cost consciousness in the use of personnel, space, equipment and funds, must be commented on, if applicable. If extra space is needed to complete Section C, attach a separate sheet of paper.

Subject is a mature seasoned officer who has an excellent grasp and understanding of local politics and its ever changing profile. Most of his career Subject has specialized in the CA activity and this experience has proven very useful to the Station. During this reporting period he was given added responsibility in supervision and a change of pace with operational duties in the subversive, leftist and exile field. He accepted the new challenge and performed well. Just recently the Station has completed major reorganizational changes which resulted in Subject once more concentrating his attention on CA and Mexican government matters. He has done exceptionally well at developing contacts in Government circles and we are taking advantage of his ability to do this to develop long lasting and meaningful relationships. (This beyond official liaison contacts.)

Subject is responsive to guidance and direction and is one of our more imaginative officers. Most recently he has indicated a desire to retire, after completion of his present tour in August 1973. Subject has performed well at this Station for over three years and his departure will be most felt in the area of his specialization.

COMMENTS OF REVIEWING OFFICIAL

I agree with the above. The loss to the Station is greater than usual for Subject is retiring and thus his considerable talents will probably be unavailable to the Agency, unless some special arrangements are made in the future, depending on what he ends up doing.

I am personally sorry to see this friend leave the Agency and I know further that it will be hard to replace his abilities in various operational fields, including that of good contacts in the community here. He has served the Agency well here and in many other posts and his leaving is a loss to us.

Subject is now well into his second tour at this station and has not lost any of his momentum. He charges into his work daily as if it were all a new challenge and new experience. His past fitness reports from this station have all reflected his professional approach to the job and he continues to merit these plaudits. He is conscientious, dedicated and a team worker. He takes direction well and takes great pride in meeting deadlines. One of our more imaginative officers who is effective.

Yet, with all of this, he has not progressed in the organization as he should have. It has been recommended that he be considered for promotion and/or a chance in a command job. The station is presently considering some reorganization which will give Subject an opportunity to manage and direct activity which will be diversified and a change from the specialized jobs he has held in the past. This will be another excellent test for him and we are optimistic in that he will handle this new assignment with the same degree of expertise that we have learned to expect from him.

COMMENTS OF REVIEWING OFFICIAL

I agree with all of the above. Concerning his performance here and his delay in getting a promotion, I made a special point of bringing these matters to the attention of Deputy Chief, WOMACE, while I was in Washington in October of 1971. Our pending reorganization would find him with considerably increased responsibility, which is a good indicator of how we feel about him.

Subject, a senior officer in all respects, has been at this station for the past 20 months as the responsible CA and Political officer. His past fitness report covered very thoroughly and accurately his ability to meet, develop and recruit assets that are important to station's objective. He enjoys his work and the challenge of being on the spot. He is a thoroughly experienced officer in his field and although forced to specialize for years, we must start thinking of more responsible and more diversified employment for this fine officer.

He is conscientious, dedicated and a team worker. He takes direction well and takes great pride in completing his obligations on schedule. One of the more imaginative officers of the station who is aggressive and effective. He handles his financial responsibilities well and has a good appreciation for the expenditure of official funds.

I was particularly impressed with Subject during his recent activity re the MAR disclosures. Subject cannot be credited for the disclosures but he can be given full credit for exploiting these events. He quickly put to use all of his assets. He personally prepared material for passage to the press. He supplied information for coverage in other papers in the hemisphere. He coordinated and furnished guidance to other Latin American stations on this subject. In all, he worked

I agree with all of the above. Subject does a marvelous job in the propaganda field, getting a great deal of product out of a greatly-reduced (in number and cost) propaganda apparatus. He has a good sense of politics, and we have a few operations which are devoted to finding out what the COM won't tell us and what the political section probably can't get at. He has a good way with people and has made some interesting acquaintances which, in themselves, greatly increase the sensitivity of the station.

Our lack of a political mission here, aside from the limited one

alluded to above, means that Subject is not able fully to use and to demonstrate his great operational talent and flair in this field. What we have here to do is done well under his able management.

For one reason or another, I think largely because of his having been in more or less specialized jobs, although senior ones, rather than having been in a command position, ✓ Subject has lost ground in promotions, having been in grade since December, 1962. I should like to see him promoted in this position or, if this is difficult, to see him given a chance in a command job which might qualify him for promotion.

Subject has his goals clearly in mind and has proceeded about his business with full confidence and perseverance. He is conscientious, dedicated and a team worker. Subject has gained the confidence of his supervisors and his subordinates have accepted him as one of the group.

He has recently experienced some unusual operation problems where he was required to handle the termination of some very delicate assets. He organized, planned and handled the terminations personally in a very professional and successful manner. He was commended for this work by both Headquarters and Station management.

He has developed political contacts at all levels and has been very instrumental in developing disseminable information in this manner. He has quickly moved to replace assets which were terminated and by his efforts will fill in the void in a minimum amount of time.

Subject enjoys meeting people and conducting operations. In the future, he will be forced to spend more time in managing his section due to administrative changes now taking place in the Station.

He takes directions well and can be depended upon to fulfill all his obligations on schedule. He has an excellent command of the Spanish language and he is definitely cost conscious in the projects which he handles.

Of special note is that Subject was one of the first officers to quickly retool his section when given a new requirement to fulfill. He responded immediately and in so doing once more indicated his desire

Concur fully with above and would add that Subject is one of the Station's most aggressive and effective development/contact officers. In what has been an almost complete reorganization of the Station and the termination or redirection of most of its assets, Subject has probably moved faster and more effectively than any other section. Perhaps even more notable, his development of new assets and potential assets has more than kept pace with the termination of those who have outlived their usefulness. While he is very thorough and effective in all of his undertakings, a tendency to go off on tangents has a slight effect on his overall efficiency. This is probably due in large

Mr. Smith lives covert action -- his imaginative and disciplined mind comes forth with many operational concepts and ideas ranging from simple, quite routine matters to complicated and carefully shaded activities. It is to be expected that within this enthusiastic outpouring, practical details of implementation are sometimes buried. In these instances, Mr. Smith quickly trims his sails and comes forth with the needed realistic approach. In short, he is a fine operations officer, more competent and at ease in real as against planning or policy situations.

As indicated in the last Fitness Report, Mr. Smith assumed responsibility for Covert Action training presented by this Branch in the wake of compromise of a wide range of Agency CA activities. Quite apart from all the operational consequences of these public disclosures, there were also, of course, concomitant ramifications in the training field. Following careful study and examination of the new situation, Mr. Smith devised, in closest coordination with the CA Staff, a radically new and different Covert Action curriculum. The existing comprehensive courses on youth and labor operations were discontinued for obvious reasons. In place of these and the part-time Covert Action Operations Course, Mr. Smith developed a new, full-time, three-day Covert Action Operations Seminar for middle and senior grade officers. This intensive seminar, stressing the integrated nature of CS operations, was designed as a basic core around which skills-oriented seminars or workshops could be built to deal with such topics as propaganda operations, election operations, use of agents of influence, etc. To date, in line with this concept, a Politics Workshop has been created to provide training in the assessment, recruitment, and handling of assets among key interest groups, including political parties.

The resonance which these new courses has evoked confirms the soundness of Mr. Smith's creative efforts in completely revamping Covert Action training in the (cont.)

Concur. Mr. Smith has done his job with distinction and with credit to himself and his career service. His assignment to OTR is a first-rate example of quality in rotational tours. At the same time he has given a good deal to the training mission, I think it also fair to say he has gained professionally from the rather wide exposure to disciplines other than CA which he has handled extremely well.

Agency. In design and content the new courses reflect thoughtfulness, imagination, and realism--a combination of traits only too seldom encountered.

As a corollary to the main duties cited above, Mr. Smith has also successfully run, in conjunction with FE Division, a Psychological Warfare Operations Course for military officers being assigned to MACV/SOG in Saigon. Finally, in the CA field, Mr. Smith has provided tutorials, as requested by various area Divisions, to a number of Staff and Contract Agents and to foreign liaison representatives in such fields as black radio, youth and student operations, veterans organizations, and methods of countering Communist propaganda.

In February 1968 Mr. Smith was asked to assume responsibility as Tradecraft Advisor and Coordinator for the Operations Support Course, a critical block of instruction for (primarily young and inexperienced) CS clericals headed for overseas assignments where they may be called upon to assist case officers in operational support tasks. Although, strictly speaking, this teaching and coordination task was outside Mr. Smith's normal purview and main area of expertise, he accepted this additional responsibility with exemplary willingness, and then proceeded to discharge it smoothly, energetically, and effectively. In addition to managing an extensive live problem, the Tradecraft Advisor must ensure that presentations by a number of instructors result in a balanced and coherent coverage of all operational subjects in the course. This entails the coordination of efforts of several senior and experienced instructors, all under the nominal aegis of the course's Chief Instructor, and, thus, demands a great deal of finesse and tact. Mr. Smith has not only fulfilled this difficult role in a highly efficient manner but has also drawn on his own long Field experience for pertinent and meaningful contributions to the course.

Mr. Smith occasionally handles Branch-wide administrative tasks and in my absence functions as Acting Chief, Headquarters Training Branch, to my complete satisfaction. At such times he has exercised supervisory responsibilities well. He is cost conscious and makes effective use of personnel, space, equipment, and funds.

In summary, Mr. Smith is a mature and responsible officer, keeps things nicely in perspective, and has a good sense of priorities. In tackling problems he strives to make molehills out of mountains, which is a refreshing change; in short, a dedicated and intelligent officer and, withal, unfailingly cordial and cooperative.

APR 21 9 27 AM '67

Since his assignment to Headquarters Training Branch of the Operations School, Mr. Smith has been principally engaged in a thorough study and review of all courses in Covert Action previously given in OTR. This has been a long and complicated job, the difficulty of which has been compounded by the necessity, at least in part through public events, to plan and project a total revision of instruction in the CA field. As a result, Mr. Smith has not yet had the opportunity to teach. This will come shortly, however, when a new course begins on 8 May. The "Strong" rating given him here is based on the excellent work and thoroughly professional approach he has taken in all of the preparatory work he has undertaken. He has been eminently successful in establishing useful new relationships and in maintaining his old contacts in the Clandestine Services for the purpose of laying a solid groundwork for high quality training. In addition to his responsibilities in OTR he has been regularly consulted by the CA Staff in a survey of one of its activities. This is fine testimony for the regard in which he is held outside the confines of his present job. The prognosis for a very effective performance in all of his teaching assignments is excellent. He has no supervisory responsibilities and is average in cost consciousness.

Subject has been under the direct guidance and supervision of this rating officer for a period of 14 months. This report is being submitted because of the transfer of the employee. For the last 6 weeks of the period covered by this report Subject was under the direct supervision of the COS because of the absence from the Station of this rating officer. Any differences of opinion with respect to the caliber of Subject's performance during the last six weeks will be reflected in the reviewing officer's comments.

During this period, as in the preceding period, Subject carried out all of his assigned duties and responsibilities in a highly professional and thoroughly competent manner. He continued to show a good deal of initiative and imagination in dealing with the liaison services on day to day matters. He demonstrated a keen sense of the internal political situation and he made maximum use of his contacts to elicit a large amount of disseminable information. Subject took over one new operational project during this period and he was able, because of his deep knowledge and understanding of the operational techniques employed in the CA field, to improve on the quality of the agent's product. Subject is an able and fully qualified officer who acquired a good deal of expertise about local operating conditions and then proceeded to apply his specialized knowledge and past experience to the Station's advantage. He has a great capacity for creative

I would have rated Subject employee about the same. During the period under review, I had the opportunity to follow this employee's activities closely and can attest to his professional and imaginative handling of key assets. He corrected an earlier occupational fault found in many CA officers of a lack of cost consciousness, by cutting back on costs without adverse results to the operations concerned. During the one year under my observation, this employee performed highly satisfactorily. [redacted]

thinking; he is perceptive and resourceful. He requires a minimum of guidance and direction. Subject showed some definite improvement with respect to cost consciousness and it is noteworthy that it did not adversely affect his enthusiasm. His operational and positive reports continue to be clear, concise and well written.

Summed up, Subject is a highly regarded professional officer who made a most worthwhile contribution to the Station's overall mission.

SECTION C	**NARRATIVE COMMENTS**

Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties must be described, if applicable.

Subject has been under the direct guidance and supervision of this rating officer for the nine-month period covered by this report.

Subject is well grounded in the knowledge and application of Covert Action tradecraft techniques and he has amply demonstrated an ability for creative thinking. He is both imaginative and resourceful and he uses his extensive knowledge of the internal political scene and his fluency in Spanish to the best operational advantage. He has initiative and he is persistent in carrying things through to a conclusion. He has an excellent facility for written communication. His operational and positive reports are clear, concise and well presented. He requires a minimum of guidance and direction. He responds very well to supervision and he accepts comments, suggestions and criticism in the constructive light in which they are presented. As a supervisor he has been able to obtain satisfactory results.

Subject's only weakness is that he tends to be less cost conscious than is desirable and unless his activities are circumscribed he is apt to allow his fertile mind and enthusiasm to get out of hand.

Summed up, Subject is a highly professional and experienced officer who has all of the necessary operational and intellectual abilities to meet the requirements of the job.

I would have rated Subject officer approximately the same. In the past eight months that I have observed him in action, he has demonstrated an ability to get things done in a professional manner. He is, without doubt, the most professional and effective senior case officer at this Station. It was a pleasure to work with this officer and he will be sorely missed after his departure in August.

This report is submitted due to the reassignment of the supervisor. Subject's performance remains as before. The Rating Letter of Specific Duty No. 1 was lowered from "O" to "S" for the simple reason that the goal in large measure has been achieved, i.e., a substantial reduction in costs but with a concurrent improvement in the net product—a not inconsiderable achievement in that this is a joint undertaking with the local service. Specific Duty No. 2 lists three unilateral CA projects rather than four as described in the last report. This is due to the termination (on Subject's recommendation) of one of these projects.

There is little change over the previous report. Subject remains eager and aggressive and his enthusiasm for his assignment has not been dulled by the everyday frustrations and difficulties of doing business and living in Argentina. Subject's political action project was reactivated during this period with the return to Buenos Aires of the principal agent. This activity shows promise of making an important contribution to understanding the political tides at work in Argentina. Subject has developed a long-time agent in the liaison service (and recruited his wife) to a point where the "take" has been considerably improved. Subject's project management remains good and his reporting is both timely and in depth.

Subject supervises an American Staff Agent under deep cover in which effort Subject exhibits a high degree of competence. This officer continues to show an admirable cost consciousness which can be demonstrated in his management of a large and important CA liaison project; the costs to the Agency of this project have been reduced about 65% since subject assumed direction while at the same time improving the end result. Subject's Spanish continues to improve and he has no difficulty in understanding and in speaking with Argentines who have no English.

Subject has obviously established effective rapport with his agents and his Argentine colleagues and friends. This is in part due to a genuine interest on Subject's part in these people, their country's problems, and their culture. Subject remains responsive to guidance

COMMENTS OF REVIEWING OFFICIAL

From fairly close observation of his work I agree generally with ratings and comments of supervisor. The rating of "outstanding" on his work with liaison was justified in his last report because of the exceptional job he had done in developing this relationship. While he has continued to maintain it at a high level, there is some question in my mind whether a rating of "outstanding" is still justified. He is definitely a strong and active officer, handling a heavy load of liaison and independent operations. A well-rounded judgement of this officer should, however, include the statement that he sometimes rushes ahead a bit too precipitously and enthusiastically, and is inclined to gloss over operational details which can be important. He is effective

Subject remains the eager, aggressive, and intelligent individual described in his last Fitness Report. During the year under review, Subject was assigned case-officership of two agents taken over from an officer who departed PCS. One of these agents is in an area new to Subject--economic action and economic reporting. In total, Subject is case officer of four active projects plus one that is temporarily inactive as the agent is absent from Argentina. Also, Subject is the supervisor of one American Staff Agent under deep cover. Subject handles these varied assignments with a high degree of competence and indicates a versatility of high degree. Subject's project management is good and his formal reporting to both his supervisor and Headquarters is kept current and done in depth.

This officer has consistently shown a cost consciousness during the period he has been at this Station (24 months). In addition he has an ability to relate cost to production which has resulted in almost halving funds spent for his CA liaison project while at the same time improving the product--and with the cooperation of the local service.

Subject's language competence (Spanish) is sufficiently fluent to permit him to engage in extended professional conversations with agents and others who have no English.

Subject's rapport with his agents and other contacts appears to be excellent, which is doubtless an important element in his continuing success with his projects. SECTION B PERFORMANCE EVALUATION

W - Weak: Performance ranges from wholly inadequate to slightly less than satisfactory. A rating in this category requires positive remedial action. The nature of the action could range from counseling, to further training, to placing on probation, to reassignment or to separation. Describe action taken or proposed in Section C.

A - Adequate: Performance meets all requirements. It is entirely satisfactory and is characterized neither by deficiency nor excellence.

P - Proficient: Performance is more than satisfactory. Desired results are being produced in a proficient manner.

S - Strong: Performance is characterized by exceptional proficiency.

O - Outstanding: Performance is so exceptional in relation to requirements of the work and in comparison to the performance of others doing similar work as to warrant special recognition.

SPECIFIC DUTIES

List up to six of the most important specific duties performed during the rating period. Insert rating letter which best describes the manner in which employee performs EACH specific duty. Consider ONLY effectiveness in performance of that duty. All employees with supervisory responsibilities MUST be rated on their ability to supervise (indicate number of employees supervised).

State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section II to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties must be described, if applicable.

JUN 10 10 14 AM '63

Subject is an aggressive, eager, and intelligent person who knows what he wants to do with and where to take his projects. In the case of the project run with the local service, Subject inherited an expensive project over which little control had been exercised in either effective utilization of funds or the actual operations. After analyzing the project to determine the state of assets, capabilities, etc., Subject ingratiated himself in a highly commendatory way with the Argentines concerned to the end that Subject's ideas and positive cooperation are now sought on a daily basis. This has resulted in greatly improved project management and, better, more demonstrable results for the money spent.

Also, during this period Subject developed and recruited one new agent, a leading political scientist with access to important political leaders. In addition Subject inherited a project in the motion picture field which he has developed into an effective mechanism which now promises to reach into the newspaper field.

In addition to the above three projects, Subject is case officer for two staff agents who between them handle four projects. Subject has had these responsibilities for less than three months and during this period he has handled these assignments proficiently.

Subject's language competence (Spanish) is proficient; he is able to converse meaningfully in Spanish with persons of intelligence interest who have no English.

COMMENTS OF REVIEWING OFFICIAL

I am in general agreement with the supervisor's assessment of this individual, whom I have seen fairly frequently. He is extremely active and aggressive and has moved ahead rapidly into new activities in both the liaison and unilateral field. He has only recently taken over the direction and supervision of two other case officers so it is too early to know what his abilities in this area are, but it is in this direction that he should work for broadening his career potential.

Subject has no important weaknesses. His aggressiveness and eagerness have at times led to hasty action that might have resulted in professionally embarrassing results. On the other hand, these very qualities resulted in a recent and important recruitment. Subject is responsive to guidance and direction. He reports fully and within time limits. Subject's rapport with those with whom he is in professional contact appears excellent.

Mr. Smith was head of the Venezuela Desk at the beginning of the reporting period. He left this position shortly thereafter in preparation for an overseas assignment, with another Branch of WHD. During his duty with WH/1, Mr. Smith was a strong asset. With his previous operational experience and his innate good sense, he supervised the Venezuela Desk in a most effective fashion. This was particularly evident during the Presidential visit to Venezuela and Colombia in December 1961. The effective management of the Headquarters aspects of the visit called for a well-coordinated, efficient and intensive effort by all concerned. Mr. Smith and the personnel under his supervision measured up quite well in this situation.

This employee was new to WH and served only about three months under the supervision of the undersigned. He brought wide experience and background in CA work to the Branch due to his past experience in other components of KUBARK. He was applying himself industriously to the task of learning about the WH area and specifically Venezuela, for which country he was the desk officer responsible for FI as well as CA work. His performance was excellent and can be expected to improve with more familiarization with the area.

During the period from the rating officer's departure in Oct 1961 until Mr. Smith was reassigned to another Branch in Feb 1962 in preparation for an overseas assignment, he demonstrated high competence in all of his duties, thereby confirming the rating officer's expectations in the last sentence of Section E. On the basis of this fine performance, I would upgrade the rating in Section C from 4 to 5,

TRAINING REPORT

Spanish Basic Reading, Speaking, Writing I
-100- hours, part time, 16 January 1961 - 24 March 1961 -6- students

Student : **Joseph B. Smith**
Year of Birth: **1921**
EOD Date: **September 1951**
Grade: **GS-13**
Office : **CA Staff**

COURSE OBJECTIVES - CONTENT AND METHODS

This is the first phase in a three-phase basic sequence of 30 weeks, each phase lasting 10 weeks.

The general aim of the course is to enable the student to use the spoken language with moderate facility and accuracy in a large number of everyday situations while providing a basis for further learning of the language either by actual use in the area or by further formal study. The three major objectives of this phase of the course are to develop an ability: (1) to adequately distinguish and pronounce the sounds of the language; (2) to use appropriately a small quantity of Spanish sentences and expressions; (3) to comprehend normal-speed spoken Spanish in a limited number of everyday, non-technical situations.

Classes are held 2 hours per day, 5 days a week, requiring a minimum of 10 hours of preparation per week. To receive the maximum benefit from this course each student should plan to devote at least two-thirds of the class preparation time doing drill in the language laboratory.

ACHIEVEMENT RECORD

Student progress is evaluated primarily on oral recitation in the form of drills and free conversation based on memorized material. In addition, several tests are given during the course. This student's rating is indicated by the asterisk.

Unsatisfactory	Satisfactory	Excellent	Incomplete
		3 *	3

It is regrettable that Mr. Smith will not be able to continue in the course at this time but increased office duties do not permit it. Mr. Smith had made a very profitable start in Spanish in this course.

FOREIGN LANGUAGE APTITUDE AND EXPERIENCE REPORT

DATE OF TESTING

NAME

☐ MALE
☐ FEMALE

The category checked below is an interpretation of the scores made by the person named above on a battery of foreign language aptitude tests. The relationships between test performance and subsequent training performance of trainees in Agency language training courses are indicated by the graphs next to the aptitude categories. The graphs to the left are for women and the graphs to the right are for men. From these graphs you can read for each aptitude category the probability that a person in that category will perform in an Agency foreign language training course at an average or better-than-average level. For example, 22 percent of the women who obtain an aptitude rating of "8" can be expected to be average or better in course performance, while 5 percent of the men with ratings of "8" can be expected to be average or better in course performance. A man needs an aptitude rating of "6" to have about the same expectation of success in language training as a woman with a rating of "8." At the other end of the scale, 80 percent of either men or women who obtain aptitude ratings of "2" can be expected to do average or better-than-average work in training. The differences in relationship are due to differences between men and women in both training performance and test scores. On the average women are somewhat higher on both.

% OF WOMEN WHOSE LANGUAGE TRAINING PERFORMANCE IS EXPECTED TO BE AVERAGE OR BETTER THAN AVERAGE (100 80 60 40 20 0)	APTITUDE CATEGORY		% OF MEN WHOSE LANGUAGE TRAINING PERFORMANCE IS EXPECTED TO BE AVERAGE OR BETTER THAN AVERAGE (0 20 40 60 80 100)
88%	1.	☐	91%
80%	2.	☐	80%
72%	3.	☐	68%
63%	4.	☐	52%
53%	5.	☐	37%
43%	6.	☐	23%
33%	7.	☐	13%
22%	8.	☐	5%

Since many things other than aptitudes enter into the determination of training course performance, in any class of students there will usually be some whose performance will be better than would be expected from their test scores, just as there will likely be some whose performance is poorer than expected. STRENGTH OF MOTIVATION, PRIOR EXPERIENCE WITH A FOREIGN LANGUAGE, and other factors should be considered in selecting people for language training and in interpreting language training results. For example, the number of languages previously studied or learned and the amount of academic and nonacademic language-learning experience are factors not measured by the tests but are indicative of probable success in learning a foreign language. Whether such experience was in the same language as the one to be studied or in a different one is, of course, an additional relevant factor.

Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

Mr. Smith has demonstrated both competence and versatility since his assignment to CA/PROP. With no prior experience in the area, he was assigned to WH affairs and has quickly developed both a surprising knowledge of the problems of that volatile group of countries and an excellent rapport with members of the Division (which, on several occasions has indicated a strong interest in securing his services when his release from the staff can be arranged). Assignments are completed with dispatch and in good order.

The rating of 3 with regard to the proposed campaign on Neutralism-Nationalism reflects only that we have not yet got underway in this admittedly difficult and controversial field. The sum of research which Mr. Smith has done in this field leads him to the present conclusion (in which undersigned concurs) that unlike most of our other campaigns this will have to be conducted on a selected country basis and differently tailored for each.

During the absence of the rating official Mr. Smith has acted as Branch Chief.

SECTION E NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

Stress strengths and weaknesses demonstrated in current position. Indicate suggestions made to employee for improvement of his work. Give recommendations for his training. Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

Subject is an exceptionally able political action officer. His capacity for grasping a rapidly developing political situation quickly and for making on-the-spot decisions is quite unique, and he would be a powerful addition to any station with a challenging political program. He is not always able to separate the significant from the insignificant and therefore tends to over-report. He is also inclined to operate more as a singleton than as an integrated member of an operations team. He has been quite successful in exploiting PP contacts for FI by-product. Additional training does not appear necessary at this time.

In preparing this report, careful consideration was given to the guidance in FS Field Dispatch No. 20-40 which recognizes the principle of rating the individual against the group, and establishes an "average" rating as being an entirely satisfactory performance. The supervisor, however, considers this fitness report to be in keeping with that guidance. [illegible]

This report has been prepared in accordance with [illegible] Division standards which recognize [illegible] the individual against the group. Thus an [illegible] reflects an entirely satisfactory performance.

SECTION E NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

Stress strengths and weaknesses demonstrated in current position. Indicate suggestions made to employee for improvement of his work. Give recommendations for his training. Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

Subject has a well developed background applied to PP operations in the Far East. He has continually demonstrated initiative and imagination in obtaining the maximum production from his projects, and has developed new assets of definite value to the Station. He is a capable handler of agents, and has particular potential in the political action field. He has proven especially effective in a special election project in which he handled and developed numerous high level contacts. No particular weaknesses were observed. Subject is well qualified for senior operational assignments in either PP or FI, and is recommended for promotion. Since subject is planning to return for a second tour, no additional training is recommended at this time.

In preparing this report, careful consideration was given to the guidance in FE Field Dispatch No. 20-40 which recognizes the principle of rating the individual against the group, and establishes an "average" rating as being an entirely satisfactory performance. The supervisor, however, considers this fitness report to be in keeping with that guidance in that subject has clearly demonstrated a high degree of operational capability as indicated herein.

COMMENT OF REVIEWING OFFICIAL:

HALSEY, ROCHON and I have carefully reviewed this Fitness Report in order to comply with division policy of avoiding overrating. We are satisfied that TOOHILL, who has been given a high rating with respect to specific performance characteristics, fully merits such rating. During the fourteen years I have been with the Agency, I have had the opportunity to observe personally a good number of political action operation officers. Additionally, I have worked closely with TOOHILL during the current 1959 Philippine election. I have no hesitation in stating that I regard him as an unusually qualified officer for political action in the field. I believe also that he should be promoted as soon as practicable from GS-13 to GS-14.

PROJECTED ASSIGNMENT OR PRESENT POSITION

Deputy Chief of FE/5.

I. Course Objectives: to familiarize the student with the various types of CE operations and with methods and procedures peculiar to CE in the field and at Headquarters, to outline CE objectives, and to increase proficiency in the recognition and exploitation of leads.

II. Course Characteristics: The Counterespionage Operations Course is of three weeks duration. The curriculum material is presented by means of lectures, seminars, and directed reading. It is divided into sections as follows:

A. Introduction (definition of terms, the CE Staff, operational security and risk assessment, sources of CE leads, CE reporting and records, documentation)

B. Interrogation

C. Foreign Intelligence Services (with emphasis on currently hostile services)

D. Penetration and Defection

E. Double Agent Operations

During the course each student is required to present orally a CE case and to submit a written version of the case. Evaluations are based on problems, written exercises requiring analyses of assigned case studies, the case analysis presented by the student, and on objective tests.

III. Evaluations: (This student's performance indicated by asterisk.)

A. Two double agent problems and one walk-in problem requiring case analysis. This analysis involves thorough study of the case:

1. To determine areas of missing, inadequate, or questionable information.
2. To pick out information which can be checked through other sources.
3. To recognize all possible leads.
4. To assess the risk involved.
5. To propose appropriate action (operational decisions).

Mr. Smith was reserved, but his contributions were quite pertinent and advanced the progress of the class discussions. In his written work he showed a sound knowledge and a feel for the handling of agents, but in other aspects of the cases and problems his efforts were more casual. His student presentation demonstrated a cautious approach and a comprehensive analysis of a possible double agent.

SECTION IV

This section is provided as an aid in describing the individual. Your description is not favorable or unfavorable in itself but acquires its meaning in relation to a particular job or assignment. The descriptive words are to be interpreted literally.

On the left hand side of the page below are a series of statements that apply in some degree to most people. On the right hand side of the page are four major categories of descriptions. The scale within each category is divided into three small blocks; this is to allow you to make finer distinctions if you so desire. Look at the statement on the left - then check the category on the right which best tells how much the statement applies to the person you are rating. Placing an "X" in the "Not Observed" column means you have no opinion on whether a phrase applies to an individual. Placing an "X" in the "Does Not Apply" column means that you have the definite opinion that the description is not at all suited to the individual.

His superior thinking ability allows him to cover most of the ground on all pertinent points rapidly and it is only through deliberate self-control that he slows down sufficiently to make an easily understandable oral presentation.

His imaginative analytical ability make him a natural for directing clandestine activity. His professorial background would make him very worthwhile for consideration by the Office of Training upon completion of his contemplated tour of duty in the field.

SUBJECT: Training Evaluation
Communist Party Operations Course, Advanced Training Division

Student's Name **SMITH, Joseph B.** Course No. **19**

Division and Branch **FE-5/PP** Grade **GS-12** Age **32**

The Communist Party Operations Course is a specialized two-weeks' course designed to provide adequate background and understanding of the World Communist Movement, and to increase the effectiveness of staff personnel charged with the planning and conduct of operations against these movements. The emphasis is on essentials, the generally valid aspects of Party policy, tactics, administration, organization, and action.

A combination of lectures, seminars, and written assignments is utilized, and the evaluation is based on the observation of the instructional staff. The supervisor is cautioned that this evaluation should be considered subjective in nature and applies only to the two weeks' period of the course. In those cases where no comment is given for one phase or activity, it does not imply that the student is deficient but only that the instructors do not feel that they have sufficient basis upon which to place a meaningful evaluation.

1. Student Performance in the Classroom:
Mature comprehension of the World Communist Movement and the varied aspects of its theory and practice. A developed feeling for current relationships between "national" Communist Parties' practices and the World Communist Movement; including its organization, strategy, tactics, and operations.

The purpose of this memorandum is to set forth existing policies of concern to you while integrated and to reiterate certain rights and obligations which derive from your true status as an appointed employee. It is hereby agreed and understood that:

1. As an employee of this organization, at the present grade and salary of **GS-14 $19,771.00** per annum, you will accept cover employment with another instrumentality of the Government (hereinafter referred to as "your cover facility") effective as of **21 May 1969**. You will, insofar as consistent with your basic responsibility to this organization, abide by all the rules, regulations, practices and policies of your cover facility, in order to appear as a conventional member of that establishment. Your appointment to your cover facility is being effected as a **FSR-4/7** at a salary of **$17,209.00** per annum. You are prohibited, except as specifically authorized herein, from retaining emoluments paid by your cover facility.

2. It is understood and agreed that the minimum period of your overseas tour of duty is governed by and coincident with the prescribed tour of duty of your cover organization. Currently, your prescribed tour consists of a period of **two (2) years** from the date of your arrival at your overseas post of duty. Your assignment may be terminated earlier for the convenience of this organization and the length of your tour of duty, as currently specified, may be unilaterally changed by this organization in order to conform with subsequent changes in the prescribed tour of your cover facility. If you request termination of your overseas assignment solely for your own convenience, unless it is for circumstances that are considered by this organization to be beyond your control or if you are terminated for cause under the regulations of this organization before you have completed the minimum period of service prescribed above from the date of arrival at your overseas post of duty, you will not be entitled to return travel or transportation for yourself or your dependents to the United States at Government expense. If you request termination of your overseas assignment solely for your own convenience, unless it is for circumstances that are considered by this organization to be beyond your control or if you are terminated for cause under the regulations of this organization before you have completed one (1) year of service from the date of your arrival at your overseas post of duty you will be required to reimburse the Government for all of its expenses for your travel and transportation, and that of your dependents, from the continental United States to such overseas post of duty.

3. Travel to your post of duty overseas and your return travel to the United States, as well as travel performed overseas which is consistent with your cover designation, will normally be at the direction of your cover facility. Such travel will be accomplished in conformance with applicable

regulations of your cover facility except when you are directed for operational reasons to perform travel in accordance with the regulations of this organization.

4. Salary and allowances paid by your cover facility shall be retained by you to the extent that they do not exceed the salary and allowance payment due you on the basis of your grade level with this organization. If such cover payments are less than the amount due you, the difference will be paid to you by this organization. If such cover payments exceed the amount due you, the excess amounts will be remitted to this organization at intervals to be designated by the Office of Finance. Computations hereunder will be based on the aggregate gross amounts due and received. That portion of retirement contributions withheld by your cover facility which exceeds the retirement contributions applicable to your organization salary will be deducted from the gross amount of the overpayment. Upon integration, the payroll office of this organization will establish the date on which you would normally receive a regular step increase from your cover facility. Failure to report a grade promotion received from a cover facility does cause errors in processing regular step increases. Regular step increases, incorrectly processed in such manner, should be reported immediately to this organization. To eliminate this problem, any grade promotion received from a cover facility will be reported immediately by you to this organization's payroll office through channels showing both the old and the new rate and the effective date. All salary difference payments and adjustments will be reflected on earnings statements.

5. Your status as an employee of this organization will continue in full force and effect during your period of duty with your cover facility and you will continue to be entitled to all rights, benefits and emoluments of such status. Certain variations in procedure will be required, however, to preserve the security of your cover position.

a. Upon integrating into your cover facility you will continue to be covered by the particular retirement system in which you are a participant as an employee of this organization. Salary received from your cover facility and any salary differences payable by this organization will be subject to appropriate retirement contributions.

b. Appropriate Federal income tax withholdings shall be made from taxable income received from both your cover facility and this organization. Additionally, while serving in the United States, withholdings shall also be made for District of Columbia or State income tax, when applicable. You may claim reimbursement for excess income taxes paid on overt tax returns by reason of taxable income from your cover facility exceeding the taxable income due you as an employee of this organization.

c. All annual and sick leave which is accrued to your credit at the time of integration will be transferred to your cover facility. While integrated you will be permitted annual leave, sick leave, home leave, and leave without pay in accordance with the regulations of your cover facility in lieu of the leave benefits of this organization. Upon termination of your integration, your unused annual leave, sick leave, and home leave will be transferred to your credit with this organization and your leave record will be reconstructed as of the beginning of the leave year in which you return to this organization, as explained in the Handbook on Leave for Special Situations. Serving in an integrated capacity does not permit the carryover from one leave year to another of an annual leave balance which exceeds the ceilings authorized by regulations of this organization and the Federal leave law. If security conditions require that your cover facility make a lump-sum payment for accrued annual leave, upon your "resignation" you will be required to pay the gross amount thereof to this organization, including any income taxes withheld by your cover facility in order to receive credit for such annual leave.

6. You will be required to keep forever secret this agreement and all information which you may obtain by reason hereof, unless you are released in writing by this organization from this obligation. Violation of such secrecy may subject you to criminal prosecution under the espionage laws, as amended, and other applicable laws and regulations. The termination of your employment with this organization will not release you from the obligations of any security oath you may be required to take.

MEMORANDUM FOR: Director of Training

SUBJECT: Appreciation: Joseph Smith

1. With your approval Mr. Joseph Smith, of OTR participated as a member of the Survey Team which during January - March 1967 reviewed the effectiveness of the Propaganda Group of the CA Staff. This involved 30 full Team meetings, interviews with 57 CS officers, various specific inquiries, and numerous drafting sessions.

2. Throughout, Mr. Smith participated in a most effective professional manner bringing to bear his extensive background in the Clandestine Services. His direct and objective approach to the problems considered in the course of the survey made his contribution to the overall Team effort invaluable. The Team report, which I am still in process of discussing within the Staff will be of considerable value not only to this Staff in our future planning but also, I feel, to the future posture of the covert propaganda mission of the Clandestine Services; thus I heartily commend Mr. Smith for his effective participation with the Survey Team in this effort.

3. I would appreciate your conveying my thanks to Mr. Smith.

Supplement to Staff Agent Personnel Action

For [redacted] . Effective 27 MAY 1962

Smith, Joseph

Mr. [redacted]

Dear Mr. [redacted] ,

In view of your contemplated cover assignment, you have been designated a Staff Agent. The purpose of this Supplement is to call your attention to existing policies which are particularly material to you while you are so designated and to set forth certain rights and obligations incident to your status as an appointed employee.

1. Payroll Administration. As indicated in your Staff Agent Personnel Action, your present salary and grade are $ 11,675.00 and GS- 13 5 , respectively, and you are entitled to receive the salary, allowances and other benefits applicable thereto, however, certain procedural variations will be followed to preserve the security of your cover position.

(a) The gross emoluments that you receive from your cover activities will be retained by you as an offset against the gross emoluments due you from this organization. If, except as provided in paragraph 4 below, your cover emoluments ever exceed those due you as a Staff Agent, the overage is to be remitted to this organization on a monthly basis, unless a different period is specified.

(b) Your Federal income taxes will be withheld and reported in conformance with HR 20-33 or any subsequent regulations or procedures promulgated by this organization. For your information, this organization shall withhold from the gross payments due you Federal income taxes in an amount which, when added to the income taxes withheld by your cover facility, will equal the tax withholdings normally made from your gross taxable compensation with this organization. If there is no differential or if it is insufficient, you will be required to make tax remittances in conformance with HR 20-661-1. Also, that issuance together with R 30-720 covers the procedures to be followed in order to receive reimbursement for foreign income taxes imposed upon you.

(c) This organization will deduct from the gross payments due you an amount equivalent to six and one half per cent (6 1/2%) of your gross salary for contribution to the Civil Service Retirement Fund. This amount will be deducted from the differential due you by this organization. If there is no differential or if it is insufficient, you will be required to make direct remittances to this organization in satisfaction of the required contributions.

(d) If permanent quarters are not furnished, your quarters allowance will be granted at the maximum rate established for your post of assignment, family status and grade. No accounting for this allowance will be required.

[illegible] position requires that you make contribution to the Social Security Fund, such contributions will be at your expense. However, involuntary contributions for cover facility programs, such as insurance and retirement, may be considered items of expense to this organization, and in such category money you receive as a result of your participation in such [illegible] this organization. Whether [illegible] in a particular [illegible] to conformity will be determined by this organization.

2. Non-[illegible] Cover Premium Pay. You are hereby [illegible]

3. Equalization Allowance. You are hereby authorized an equalization allowance in accordance with applicable organization regulations.

4. Travel Expenses. You will be entitled to travel, transportation and storage in conformance with the regulations of this organization. HR 20-52 provides that travel expenses of integrated personnel will be allowed in accordance with the regulations of their cover organizations or HR 22, whichever allows the greater amount.

5. Travel Penalties. You herein agree that your assignment abroad will be for a minimum of **two years** from the date of your arrival at your permanent post of duty, unless such assignment shall be sooner terminated by the Government for its convenience. Your violation of such agreement may result in regulatory travel penalties. HR 22-6 provides that if the agreement is violated during the first year of duty abroad, expenditures for travel and transportation to the post, including per diem while at headquarters and storage of effects, shall be reimbursed by the employee. If the agreement is violated after the first year of duty, but before the completion of the minimum tour agreed to above, return travel at Government expense shall not be allowed.

Smith, Joseph

AGREED: [redacted]

6. Secrecy. You will be required to keep for [illegible] this agreement and all information which you may obtain by reason hereof (unless released in writing by the Government from such obligation), with full knowledge that violation of such secrecy may subject you to criminal prosecution under the Espionage Laws, dated 25 June 1948, as amended, and other applicable laws and regulations.

MEMORANDUM FOR: D/FE/PC

SUBJECT: Covert Psychological Warfare Conferences Attended by Mr. Joseph Smith

1. Between 18 January and 26 May 1952 your consultant held a group of sixteen Secret conferences on specialized techniques in covert psychological warfare with particular reference to the Far Eastern area. These conferences amounted to a series of reorientation and developmental meetings in which persons actually on the job at CIA in OPC capacities could review their own doctrine, talents, and opportunities for serving the Government and the Agency in this field.

2. The topics covered included: a survey of the goals sought through covert activities of the U.S. Government; the basic bibliography on covert operations; the action response of target groups; media vehicles and the cultural terrain; specific covert psychological warfare techniques; the intelligence need for CPW; the operational vocabulary of Marxism; psychiatry and CPW; propaganda analysis; content analysis; press techniques of the Chinese Communists; covert economic warfare and CPW; personality problems in covert operations; basic doctrine on passive resistance; and a review meeting.

3. In difficulty and in seriousness of approach, this series of conferences corresponded to an advanced graduate course in an American university. It was a mixture of the seminar and lecture techniques.

4. Mr. Joseph Smith immediately made himself one of the outstanding participants of the group. He brought the capacity of a reflective and richly educated mind to this new field and demonstrated a real talent for seeing the opportunities presented by novel and unconventional methods of attack upon Communism. Not only did Mr. Smith learn a great deal himself; he contributed substantially to the intellectual participation of the other members of the conferences in the common tasks.

QUALIFICATIONS

1. The Agency is currently revising the system for machine coding employee qualifications, thereby permitting more complete and accurate data on all personnel. The new system will aid in implementing Agency policies on promotion from within by facilitating the selection of personnel with desired education and experience for vacancies which may occur. It is also expected that the new system will provide readily accessible statistics for planning and management purposes.

2. The attached questionnaire is designed to cover adequately those factors in which the Agency is interested. Although the information is, in a large measure, already reflected in previous forms submitted by you, it is felt that your time within the organization may enable you to emphasize those qualifications pertinent to its needs. The questionnaire also serves to bring your education and qualifications record up to date.

3. Your cooperation is requested in completing the questionnaire as thoroughly and accurately as possible and returning it to your Administrative Officer within the time allotted.

COMMENTS OF REVIEWING OFFICIAL

In writing a comment on his Fitness Report in January 1973, I spoke of what a loss he will be to the Station. Because of overlap problems, he will have retired soon after the new COS arrives and before the new DCOS has come. It is typical of him that he has offered to perform introductions to some of his contacts even after retirement. He will be in Mexico and, while the Station must be careful to protect him in his new status, he probably will think of the Station first when he runs on to things of interest.

Work Project #1

A. Project Synopsis

1. The strength and vulnerability of Korea as an independent nation.
2. Location - Johns Hopkins University, Baltimore, Md.
3. I was the sole worker employed.
4. The political geography seminar was concerned in 1847-48 with areas of maximum change. Members of the seminar conducted studies of India, Poland, Newfoundland, Ceylon, Sinkiang, Korea.
   a. Each member made a deep-level study of the area of his choice. I chose Korea.
5. Principal sources used by me were: USAMG Reports, all available background studies, interviews with Koreans stationed at Carlisle, (Carlisle Barracks AMG School) and with Miss Phyllis Johnson, reporter who was in Korea 1945-46.
6. The material covered mostly the years 1945-46-47, and was fairly complete for South Korea. I was unable to get information on North Korea, nor would the Army give me political information other than that officially published.
7. Methods used were historical and political because of my previous training. Statistics were used wherever possible.
8. Length of study-Sept. 1947-Sept. 1948.
9. Findings and conclusions
   a. I made an analysis of Korean physiographic features; including edaphic as well as usual climatic and topographical factors.
      1) I attempted to find the physical potential for the successful maintaining of Korean independent national existence.
      2) Conclusion: such obviously favorable factors as Korean peninsular situation were nullified by other space relations which made Korea vulnerable to Russian and Chinese attack.
      I found also that the soil was not adaptable throughout Korea for the practise of the nation's most thoroughly learned economic technique-rice culture.
   b. Secondly, I made a complete check on the resources of the Korean economy, as far as I could. The limitations imposed by censorship made it impossible for me to correlate North Korean industrial activity with South Korean agricultural activity as completely as I could have otherwise done.
      1) Conclusions: The country would have to be industrialized to overcome the problem of overpopulation.
      The Korean people had not shown in the past any significant evidence of the ability to operate a democratic government.
10. My study was not used by any government agency.
11. My study was published, in part, under the title "The Koreans and their Living Space", in the Korean Review, Korean-American Cultural Association, Sept. 1949.

1. I was the person responsible for formulating and carrying out the Korean part of the general project(See A, 4).
2. The determination of the sources used was made by me. I was assisted, in part, by Dr.Penrose and Mr. Lattimore.
3. I gathered the data.
   a. I analyzed the data according to three principal criteria
      Accuracy of information
      Existence of corroborating information
      Use of statistics when available in preference to other data
   b. General procedure followed
      Gather as much information as possible
      Attempt to eliminate waste effort by concentrating objective (the strength or vulnerability of Korea as an independent state
   c. Dr. Penrose.Mr. Lattimore and Dr. Jean Gottmann advised me at various points mostly on methodology
4. Conclusion and report preparation
   a. Conclusions were my own responsibility
   b. Writing and editing were done by me with one exception
      Exception: Mr. Lattimore advised me to re-examine the peninsular situation of Korea and suggested the idea which led to my conclusion on this point(See A, 9,a).
5. This was an independent study and not a government project and I not supervising any assistants.
6. My responsibility in promotion and interpretation was limited to an exposition of them and a defense of my conclusions before members of the faculty and student body of the Page School,Johns Hopkins University.

    5. This study was made from Oct. 1947 until June 1948.
    6. Methods were historical.
    7. Findings and Conclusions
      a. Dickinson College, founded 1783, had numerous problems incident to the establishment of any such institution, butintensified by the hostility of frontier society; e.g. financial, disciplinary, recruitment.
      b. Frontier society rejects higher education as unnecessary and even hostile to its social goals.
      c. That under-developed areas need so-called practical education first.
    8. The material was used in the publication of the first volume of materials on early America published by the college under title of Bulwark of Liberty, June, 1950.
      Also published in part as "A Frontier Experiment in Higher Education", Pennsylvania History, Pennsylvania Historical Association, January, 1949.

MEMORANDUM FOR: Secretary, CSCS Board

SUBJECT: Recommendation for Promotion -
Robert P. Wheeler

1. As one of the final acts in my CIA career I want to bring to your attention and add my strong concurrence and recommendation to two (2) recorded recommendations for the promotion of Robert P. Wheeler to the grade GS-17. I find it hard to imagine a more persuasive recommendation for this action than that forwarded by my predecessor in June 1969 (Attached). I can imagine Mr. Mitchell's feeling when he prepared the second recommendation in February 1970 (Attached). And yet, I find in February 1971 there has still been no action. In the year that has passed this promotion has become even more deserved, for despite the natural disappointment accompanying such a continuing lack of recognition, there has been no diminution of enthusiasm, no lowering of standards, and the CS is clearly better managed because of his continuing efforts. Were these two previous recommendations not so clear cut and descriptive, I would conclude that those in control simply do not know what this officer does and has done. Knowing what he does and how he does it should not continue to be unrewarded and, hence, I add my strongest recommendation for early and favorable action.

2. This officer has performed in a most outstanding manner, as testified in his fitness reports by my predecessor, and certainly during my tenure as Chief, MPS for the past 12 months.

1. It is recommended that Mr. Robert P. Wheeler be promoted to GS-17.

2. Mr. Wheeler obtained a B.A. degree in Political Science from the University of California, Berkeley, in 1942 and a M.A. in International Relations from George Washington University, Washington, D.C., in 1946. He entered the U.S. Navy in 1942 and after a concerted course in Japanese served the Navy until 1946 as an Intelligence Specialist, Japanese Language Officer, and the War Department, still as an Intelligence Specialist in Tokyo, from 1946 to 1952. In September 1952 he joined the Agency for duty in Tokyo; returned to Headquarters in June 1956 where he served until 1959; left for service in Japan from June 1959 to October 1964; served under non-official cover in Honolulu from August 1964 to August 1966; served at Headquarters with the Office of Planning, Programming and Budgeting (OPPB) from August 1966 until January 1968, and with MPS from the latter date to the present.

3. During his career with the Agency he has been a field Operations Officer, Liaison Officer to overseas U.S. agencies and a foreign intelligence service, a supervisor, Deputy Chief of Station (Tokyo), Chief FI for a division (FE), Chief of Base (Honolulu), Program Analyst (OPPB), and Program Analyst and Group Chief (MPS).

4. In his present position as Chief of Programs Group in the Missions and Programs Staff, Mr. Wheeler is responsible for liaison between the CS and the OPPB on the PPB System and non-budgetary matters; installing the PPB System

within the CS; advising and assisting CS components in the preparation of Operating Directives and the program portions of the annual responses to the Program Call; chairing the Program Review Panel; preparing and/or coordinating special studies and surveys on operational programs; coordinating and preparing the annual DDP report to the PFIAB; preparing the annual DDP briefing of the DCI on CS problems and progress; and, as required, advising CS components on the requirements of PPBS that need to be addressed in CS documents requiring DCI or Executive Director-Comptroller action.

5. In his previous assignment Mr. Wheeler was detailed to OPPB to give that office, in the preparation of Agency programs for submission to the Bureau of the Budget, a better understanding of clandestine collection and covert action, to help that office better review and integrate CS programs in Agency programs, and to give him a broad view of the PPB System and Agency management in both of which he had shown considerable interest. His performance in that office was rated "Strong," and it was on that performance and on his genuine enthusiasm and interest in management generally that his services were sought for MPS.

6. In the performance of his duties as Chief, MPS/PRG he made immediate use of his long experience in and knowledge of CS operations, the experience and knowledge gained in OPPB, his formal education in the PPB System, and a strong belief in and desire to put to work within the CS certain concepts of that system for general and specific management improvement. Given the idiosyncrasies of the CS, he recognized early that in order to make the PPB system work effectively knowledge of the "why" and "how" of that system must be possessed at every decision-making level. With limitless energy and enthusiasm he set about "preaching the gospel" from division chief to case officer. Whenever and wherever a formal group is assembled and management is a topic for discussion, the Office of Training can count on him to drop everything and hold forth on the subject, be it the Senior Management and Planning Course (whether for supergrades or below), Station Chief Conferences, the CS Senior Seminar (now in session) and the like. Acting as the DDP/TRO's right arm to encourage attendance at the Senior Management and Planning Course he has crusaded with division and staff chiefs for the attendance of certain of

their key employees. To date upwards of 100 from the CS have attended that course with many more to follow. With some of those same senior officials he has argued the benefits ultimately to accrue to their components from the temporary assignment of a senior key official for a year or two to MPS and/or OPPB and eventual return to the mother component. One such arrangement, with duty in OPPB, has just been completed. His tactful, understanding, friendly, businesslike, professional and competent handling of the chairmanship of the PRP and the reviews of the Operating Directive and country activities conducted by that Panel leaves little to be desired. Regarding the PPB System, he reads everything, pro and con, that comes to his attention, and he has spent a fair sum out of his own pocket to build a library on the subject. He has persuaded potential converts to the system to read those books, magazines, periodicals and pamphlets to the end that most of that library is on constant loan. His insatiable appetite for news on current as well as historical domestic and foreign matters, his excellent sense of humor, and his genuine friendliness are invaluable assets in his present assignment inasmuch as they have given him such a wide range of acquaintances, in and out of the CS, as to open wide the door for discussion on MPS responsibilities that are anything but sexy. He is so highly regarded by his contacts in the divisions and staffs of the CS and in OPPB that his advice and guidance are constantly sought. He gives of his time and energy willingly, regardless of the grade of the individual or the magnitude of the problem. His enthusiasm is catching and he sets an excellent example for subordinates, equals and superiors as well.

7. In view of the above, Mr. Wheeler, a broadgauged, fast moving, competent, dedicated, sincere and friendly individual who has not yet reached his full potential, whose goal is to make the Clandestine Service the best managed directorate in CIA, and who will soon have served five years in grade, is strongly recommended for promotion to GS-17.

MEMORANDUM FOR: Secretary, Clandestine Service
Career Service Board

SUBJECT: Recommendation for the Promotion
of Mr. Robert P. Wheeler to GS-17

1. It is recommended that Mr. Robert P. Wheeler be promoted to the grade GS-17.

2. By memorandum dated 5 June 1969 the undersigned recommended Mr. Wheeler for promotion. In that memorandum was set out the career of Mr. Wheeler from the date he completed college (1942) until June 1969, and was described his wartime (1942-1946), immediate post-war (1946-1952) and Agency (1952-to June 1969) experience, all in the field of intelligence. Since it is the opinion of the undersigned that the Board should have the benefit of all the facts stated in that memorandum and since there is no change in the contents thereof, I hereby incorporate by reference the memorandum of 5 June 1969, make it part hereof and attach it hereto as a significant part of the present memorandum.

3. The time passed since 5 June 1969 has served only to confirm my conviction in Mr. Wheeler's true value to the CS. He has continued the strong leadership of the Program Review Panel and his subordinates. His unbounded energy and incessant championing of the applicable principles of the PPB System have resulted in office chiefs or other most senior officials appearing before the last Program Review Panel apparently interested and better prepared than ever before. His obvious sincerity and friendly and intelligent approach to the job have convinced many of the need for the better management of their affairs. This is no mean accomplishment in a world where the normal human resents

even constructive criticism. Mr. Wheeler is so dedicated to making the CS the best managed component in the Agency that he continues to spend his own earnings on books and periodicals on the subject of management and to encourage interested parties to read them and pass them on to others.

4. The undersigned is aware that for the past six (6) months a private interest has dangled an impressive carrot in front of Mr. Wheeler in an attempt to induce him to retire and represent overseas the interests of that private concern. This fact is not to be considered by the Board as a sword of Damocles. It is simply to bring to the Board's attention that if a promotion at this time should serve to dissuade Mr. Wheeler from accepting the proffered job, the Board would have been instrumental in retaining for the CS in the management field one of the most dedicated, friendly, readily accepted, knowledgeable, industrious and qualified officers in the Agency.

5. In view of paragraph 3 above, the contents of the attachment hereto, and his potential for further growth, Mr. Wheeler is strongly recommended for promotion to Grade GS-17.

MEMORANDUM FOR : Robert P. Wheeler

THROUGH : Head of Career Service

SUBJECT : Retirement Planning

1. In order to assist employees in planning for their eventual retirement, it is the practice of the Agency to notify each employee at a point in service five years prior to the date of scheduled retirement. I am, therefore, taking this opportunity to advise you that you are scheduled to retire in October 1975.

2. The prospect of retirement from the Agency deserves serious thought and careful planning so that you may make the transition to the next phase of life with purpose and confidence. To assist you in this regard, the Agency will make available to you various resources which are attuned to the needs of prospective retirees. In October 1970, the Agency will conduct a Retirement Information Seminar to which you will be invited. Your spouse, if you are married, may accompany you to this seminar. Following the seminar, you will be invited by the Retirement Counselor for your Directorate to an individual pre-retirement counseling session (or more than one, if you wish); this phase of retirement planning will be tailored solely to your own particular situation and circumstances and will be within the context of the retirement system under which you will retire. The individual counseling sessions are intended to give you a wide range of information on such matters as estimates of your annuity, survivor benefits, life and health insurance, Social Security taxes, relocation and movement of household effects and assistance in obtaining other employment, if appropriate. In addition to the sessions with your Retirement Counselor, you will be invited to avail yourself of selected literature on all aspects of retirement.

3. Some persons who wish to retire voluntarily prior to the scheduled date, or who wish to commence their planning as early as possible, prefer to work with their Retirement Counselor well before the time he would normally contact them. If you believe you would benefit from such an earlier start on your personal planning, you are invited to contact the Retirement Counselor responsible for your Directorate. He is assigned from your Directorate to the Retirement Affairs Division, 212 Magazine Building in Rosslyn, on telephone extension 3328.

4. Experience has amply demonstrated that careful planning facilitates the transition to retirement. I recommend, strongly, that you avail yourself of the services the Agency offers you in planning your own retirement.

MEMORANDUM FOR : Mr. Robert P. Wheeler

THROUGH : Administrative Officer, MPS

SUBJECT : Purchase of Service Credit

1. This is to advise you that your application to purchase service credit under the CIA Retirement and Disability System has been processed. The amount of $437.00 will be required to purchase credit for the period 18 June 1946 through 17 June 1947 when no deductions were withheld from your salary. Under the current provisions of the CIA Retirement System, payment of the above amount will increase your annuity by approximately 2 per cent of your high-three average salary at the time of retirement. The amount due includes interest to the present date.

2. It should be explained that under the CIA Retirement and Disability System, all periods of creditable Federal civilian service during which retirement deductions were not taken from salary must be purchased by making a deposit in order for the time to be counted in the computation of the retirement annuity. Under the Civil Service Retirement System, such periods of Federal service are always creditable in the computation of annuity, but if not purchased, the annuity is reduced by 10 per cent of the amount due. For example, if a deposit of $1,000 is required to purchase credit for those periods of service during which no deductions were withheld from salary, and it is not paid, the basic annuity would be reduced by $100 per year. If the deposit of $1,000 is paid, the retiree would have to wait 10 years to recover his own deposit before profiting from the payment.

ADMINISTRATIVE-INTERNAL USE ONLY

3. The Agency has as an aim legislatively to secure the Civil Service option, i.e., credit for periods of non-deduction service without prior payment therefor, but with reduction of the basic annuity by 10 per cent of the amount due. Therefore, you may wish to consider deferring payment. You should be aware that the interest on the amount due will continue to accumulate at the rate of 3 per cent compounded annually if you decide to defer. For example, if it would take $1,000 to purchase credit today, the amount due one year later would be $1,030.

4. After consideration of the above options, if you wish to purchase credit for the period of non-deduction service noted in paragraph 1, please make your check payable to the Treasurer of the United States and forward it to the Chief, Retirement Operations Branch, 205 Magazine Building. If you prefer, you may make installment payments or arrange for bi-weekly payroll allotments of $25.00 or multiples thereof. A receipt showing a statement of your account will be sent to you acknowledging each payment.

MEMORANDUM FOR: Secretary, CS Career Service Board

SUBJECT: Recommendation for Promotion to GS-16, Mr. Robert P. Wheeler

1. It is recommended that Mr. Robert P. Wheeler be promoted to GS-16. He has been in grade since December 1957.

2. Mr. Wheeler is serving as Deputy Chief of Station, Tokyo. To this post he has brought his depth of knowledge of things Japanese, gained over many years of concentration on this subject. He has also brought his operational ability and his personal capability of operating among significant Japanese leaders. He has been of major value through a most difficult period of very substantial reduction of the station's staff and the termination of many of its functions. While Mr. Wheeler may have spent much of his time on things Japanese, he has also served as Chief, FI, for FE Division in which post he demonstrated his ability to operate on non-Japanese matters with force, intelligence and dispatch.

3. For these reasons it is recommended that Mr. Wheeler be promoted to GS-16.

MEMORANDUM FOR: Secretary, CS Career Service Board

SUBJECT: Recommendation for Promotion to GS-16 -- Mr. Robert P. Wheeler

1. Mr. Wheeler stands Number Four on the Division's list of recommended promotions to GS-16. Mr. Wheeler is 47 years old and has been in grade since December 1957. Most of Mr. Wheeler's Agency career has been devoted to the Japanese scene although he served one tour most commendably as Chief FI for the FE Division. He is now Deputy Chief of Station, Tokyo, and is an operations officer and executive of the highest quality. In addition to bearing a very large share of the administrative burden of a big station, Mr. Wheeler has acquired a collection of Japanese friends and contacts in important governmental and business circles unequaled, I believe, by any other member of the official American community in Tokyo. Although he has exploited these contacts most effectively for Agency and U.S. Governmental purposes, it is the plan of the FE Division to give freer rein to Mr. Wheeler's operations in this field by arranging, carefully and deliberately, unofficial cover for Mr. Wheeler which will permit him to devote a greater share of his time to the exploitation of this most important section of Japanese society. We believe that his very considerable talents as an administrator can be adequately replaced but that his standing among the Japanese and his capability for operational exploitation of his advantages are unique. I believe that Mr. Wheeler can well be considered to be the prototype of the high ranking staff officer who can forego bureaucratic advancement for a purely operational career under deep cover in one area.

2. On the basis of his proven ability and past performance as well as his seniority I believe Mr. Wheeler to be fully qualified for promotion to GS-16.

Desmond FitzGerald
Chief, Far East Division

MEMORANDUM FOR: Clandestine Services Career Service Board

SUBJECT: Wheeler, Robert P. -- Recommendation for Promotion from GS-14 to GS-15

1. Mr. Wheeler entered on duty with CIA on 28 September 1952 as a GS-14. He had, previous to that, served in a distinguished manner with the G-2 Section of the Army in Japan in the early days of the occupation. His name was submitted for promotion by the Chief of the Japan Station in November 1955. He entered on duty at Headquarters as Deputy Chief of the Japan Branch in September 1956. In April, 1957 he became Acting Branch Chief and has been serving in this position in a superior manner. He is 41 years of age and has been in grade with the Agency for 4½ years.

2. A review of Mr. Wheeler's Fitness Reports will adequately reflect his strength and weaknesses, with the possible exception of the most recent one dated 7 July 1956, in which, in the undersigned's opinion, the rating officer did not have adequate time to fairly rate Mr. Wheeler. Granting his occasional tendency to allow his emotions to color his work, he is, nevertheless, one of the hardest working and generally capable officers I have been associated with. He has great ability in dealing with people, he is an accurate and meticulous reporter, and he is adjusting rapidly to the requirements of his job in Headquarters and is turning in a most effective performance. In view of the length of time in grade, his age, and above all his performance, I strongly recommend Mr. Wheeler for promotion from GS-14 to GS-15. It is planned in the near future to appoint Mr. Wheeler Chief of the Foreign Intelligence Staff of the FE division, a most responsible GS-15 position.

SPECIFIC [redacted]

Mr. Richard P. Wheeler

1. Attached is a rotation data sheet on [redacted].

2. As you will note [redacted] lists as his first choice return to Japan Base.

3. While it is realized that [redacted] has not had a regular tour at Headquarters, Japan Base concurs in [redacted]'s request, provided it does not hinder his career. This concurrence is based on the fact that Japan Base will be losing by next summer several of its key personnel who have contributed much to the operations of the Base. These include STANARD, WAISTLING, possibly CAPASSO and others.

4. [redacted] has a unique knowledge of the Japanese scene, speaks the language and has a continuity of service that makes his service invaluable.

5. During the next couple of years as this base gradually reduces in size, and while the Japanese are still in a receptive mood it is felt that much can be accomplished through our liaison efforts. It is therefore felt that [redacted]'s experience can be to the maximum benefit to KUBARK by his return here for another tour.

6. In order to assist this Base in its planning, an early answer will be appreciated.

3. Subject has made an unusual contribution to the work of the base through:

a. His outstanding leadership;

JOB DESCRIPTION

Robert P. Wheeler

1. The position currently held by incumbent is two-fold: a. Deputy for KUFIRE and b. Chief of Liaison. These two positions will be described separately.

2. Deputy KUFIRE, Japan Base

As the title implies, incumbent is Deputy Chief, Japan Base for KUFIRE activities, a position comparable to the Deputies for Administration and KUCOMN activities. As such, incumbent is the responsible officer for the KUFIRE activities of the Japan Base, responsible to the Chief and Deputy Chief of Base. These responsibilities include the originating, planning and supervision of the execution of all Japan Base KUFIRE activities under the broad supervision of the Chief of Base, guided and directed by KUBARK KUFIRE regulations such as the SOI and the TRD. Incumbent supervises the work of approximately twenty persons ranging in grade from GS-13 to GS-5 and including such persons as the KUFIRE operations officer, the special projects officer, the chiefs of the KUFIRE sections of the Base. It is incumbent's further responsibility, generally on the initiative of the Deputy for Administration, to handle certain personnel matters for KUFIRE personnel, matters such as efficiency reports, promotion actions, disciplinary actions, etc. Incumbent also represents the Base on all KUFIRE matters, being charged, for example, with most KUFIRE relations with higher echelons, such as the Senior Representative, FE, and laterally with KUFIRE elements of adjacent Bases. As one of five Deputies, incumbent assists in setting Base policy, determination of personnel assignments, determination of work assignments, determination of Base operational priorities (again under the guidance and direction of KUBARK Headquarters), and, generally with the Chief of Base but often on his own responsibility, represents the KUFIRE aspects of the Base and of KUBARK so far as Japan is concerned to ODACID, ODIBEX and ODUNIT.

3. Deputy for Liaison, Japan Base (or Chief, Japan Base Liaison)

In this capacity incumbent is charged with basic responsibility for all Japan Base liaison activities, with all Japanese agencies or entities and other ODYOKE Agencies represented in Japan. Here incumbent is responsible to the Chief of Base for the origination, planning, supervision and frequently the actual conduct of all Base liaison, under the broad guidance of HR 52-200. Under incumbent's direct supervision are approximately twenty persons, separate from those mentioned above, who range in grade from GS-14 to GS-5, including all Base personnel in any form of liaison activity though their basic assignment may well be in one of the operating sections of the Mission. Being the Senior Liaison person of the Base, incumbent is frequently called upon to conduct liaison activities with such persons, on the one hand, as the Deputy Prime Minister of the host country, the Chiefs of major Japanese Governmental departments, high ranking officials of various branches of the host country, and, on the other, with such persons as the Senior ODACID representative in the country and various branch or section heads of the local ODACID establishment, senior military officers of all three services and various branch and section chiefs of the local military establishments. One segment of these activities involves LAURICLE matters of high importance. One of the primary direct responsibilities of incumbent is the origination of KUBARK liaison with these agencies and of equal import is the maintenances of good liaison relationships, stepping in where there is potential trouble, where policy decisions have to be made, where new departures in liaison are necessary (such as joint operational activities with other PARO or other ODYOKE agencies).

4. Inherent in both of the current assignments is the planning and review function which are both so necessary to effective and continued operations. This includes the initiation of FPOP's and review of those originated by personnel under the supervision of incumbent; included also is operational review and critical analysis of all KUFIRE operational and Base liaison activities.

5. In addition to the above functions and responsibilities, incumbent is also the case officer for one political KUFIRE operation.

6. Aside from the above general description of incumbent's duties and responsibilities the following seems pertinent: incumbent has been on duty in Japan, with minor interruptions, since September 1945 and in this period, seven years was spent with G-2 of the command (throughout its many changes). One result of this service has been an uninterrupted liaison relationship with many Japanese agencies and more importantly Japanese personalities, while, on the other hand, at the same time there has been a rather unique relationship with the Command and with personnel of the Command (many of the ODYOKE personnel with whom KUBARK is now in liaison are persons with whom incumbent has worked intimately at some period throughout the past ten years, making for a naturalness of relationship that has paid innumerable dividends). In addition incumbent has specialized in things Japanese for some fifteen years, being somewhat more than a neophyte in Japanese history, economics, language, and customs and traditions.

7. I certify that the above described duties are true and correct.

1. It is a very real pleasure for me to be able to acknowledge the excellent manner in which you carried out your duties as officer in charge of the direct handling of the POCARGO case. He has the aggressive sense of urgency so necessary in any position of responsibility together with the necessary qualities of balance, understanding of human nature and sincerity of purpose. He would be an asset to any branch, division or staff of KUBARK home office, and would be capable of assuming almost any responsible position in an overseas post. If he has any weakness at present, it is a lack of experience in covert operations; this can be overcome before the expiration of his present tour.

Name:	Robert P. Wheeler (060947)
Date of Birth:	10/04/15
Sex:	Male
Grade:	GS-17
SD:	D
Official Position Title	Ops Officer - Staff Chief
Current Station:	Headquarters
Type of Report:	Annual
Reporting Period:	1 April 1972 - 8 May 1973

During the past reporting period Mr. Wheeler has served his first full year as Chief of the newly-created Nonofficial Cover Affairs Division. He has worked hard and long to improve and simplify the procedures through which we recruit, train, and deploy our nonofficial cover personnel. He has identified accurately the bureaucratic roadblocks that stand in the way of our efficient use of nonofficial cover and if he has not succeeded in removing these barriers he has made some progress. His enthusiasm for the job and his belief that it can be done have been invaluable during a formative period, and his performance on the whole has been a strong one.

Name:	Robert P. Wheeler (060947)
Date of birth:	10/04/15
Sex:	Male
Grade:	GS-17
SD:	D
Official position title:	Ops Officer - Staff Chief
Current station:	Headquarters
Type of report:	Annual
Reporting period:	21 March 1971 - 31 March 1972

During the first part of the reporting period, Mr. Wheeler served as Chief, Missions and Programs Staff, and on 17 January 1972 he assumed his new duties as Chief, Non-Official Cover Affairs Division. As Chief, MPS, Mr. Wheeler effectively supervised the important planning and budgetary functions of that office and under his leadership the Clandestine Service has considerably improved its programming presentations to the 7th floor and, due to the effective staff work and Mr. Wheeler's guidance, the area divisions have been largely relieved of the many questionnaires and interventions with which they were once plagued.

Mr. Wheeler took over his new duties as Chief, NOCAD with enthusiasm and his wide field experience and good relationships with the area divisions should in the future bring about a much more secure and imaginative employment of our non-official

cover personnel. Unfortunately a heart attack during the past year slowed Mr. Wheeler down for a while but he has made a good recovery and his performance on the whole has been very strong.

MEMORANDUM FOR: Director of Personnel

SUBJECT: Fitness Report (Special) - Robert P. Wheeler

1. This memorandum is submitted in lieu of the Fitness Report form to cover the performance of Mr. Wheeler from 1 March 1970 through February 1971. It is submitted as the final report of the Rating Officer who is retiring at the end of February 1971.

2. Mr. Wheeler's outstanding characteristics are his integrity and total dedication to the continuing upgrading of management within the CS at all levels. By background, interest and training; by service in OPPB; by full-time participation in the Federal Executive Institute; and by his abiding determination to instill others with a similar will for perfection within the CS, he has made a valuable contribution to the Missions and Programs Staff (MPS) and to the Clandestine Services.

3. As chief of the Program Review Panel he has chaired the hearings of the various divisions with a great degree of sensitivity and knowledge, and has upgraded the quality and substance of those hearings. He has been especially helpful in those instances where divisions have proposed new approaches, as well as in the development of new and effective management techniques designed to simplify control and to coordinate the activities of headquarters elements and field stations.

4. Mr. Wheeler is a natural leader, bright and original. His is a creative mind, and innovative. He is articulate, rational, and thinks and talks sequentially. He has demonstrated clearly his ability to instill enthusiasm and continuing effort on the part of his subordinate officers who, taking their cue from him, are thoughtful, energetic and hard working. His officers demonstrate very high morale and great enjoyment and satisfaction in their work.

5. Mr. Wheeler also has the gift of being able to absorb rapidly and commit to paper accurately and quickly, a characteristic and asset of his which has much to commend it.

6. He has been a superb deputy, acting in this capacity in my absence. He has excellent recall, is a gifted administrator, and has introduced a number of procedural changes that have increased MPS effectiveness. He has been effective in dealing with OPPB and in participation in the briefings of Office of Management and Budget (OMB) personnel. He is very cost conscious and has made several suggestions resulting in the saving of hundreds of thousands of dollars. Mr. Wheeler has always enthusiastically accepted assignments to panels designed to upgrade the quality of various trouble areas, the latest being the searching look into the nonofficial cover situation within the CS.

7. Mr. Wheeler is a searching individual who is totally committed to the Plans Directorate and has the high regard of most of the elements comprising the Clandestine Services.

8. As I have previously recommended, I believe Mr. Wheeler would make an outstanding Chief of the Missions and Programs Staff.

1. This memorandum is submitted in lieu of the Fitness Report form to cover the performance of Mr. Wheeler from 1 April 1969 to February 1970. It is submitted as a Special Fitness Report to serve as the final report of the Rating Officer who is retiring at the end of February 1970.

2. As Chief of the Programs Group (PRG) of the Missions and Programs Staff, Mr. Wheeler is responsible for, inter alia, liaison, except on budgetary matters, between the CS and OPPB; installing the Planning, Programming and Budgeting System (PPBS) within the CS; advising and assisting CS components in the preparation of Operating Directives and the program portions of the annual Operating Program response; chairing the Program Review Panel; preparing and/or coordinating special studies and surveys on operational programs; preparing DDP responses to requests of the Executive Director-Comptroller on CS programs, etc.; and, as required, advising CS components on those requirements of the PPBS that need to be addressed in CS documents requiring DCI or Executive Director-Comptroller action.

3. In carrying out the above-stated functions Mr. Wheeler has continued his superb performance in the field of management. His unusual dedication and sensible approach to and great enthusiasm for the tenets of PPBS have contributed immensely to the system's installation in the Clandestine Service. His energy, logical reasoning and sincerity have infected his numerous contacts within the CS and are goals which his officer-subordinates are striving to attain. He is so strong in his determination that good management will prevail in all components of the CS that he

has never passed up an opportunity informally to discuss PPBS, to lecture at formal courses and to assist the DDP/TRO in his exhortations for management training. He has been a strong leader as Chairman of the Program Review Panel and supervisor of his subordinates. He has been outstanding in his ability rapidly to gather facts and produce a document in response to program and management queries levied on MPS. His wide CS experience, affability, sincerity, intelligence and dedication to the missions of the Agency, all of which have continued to be in evidence during the reporting period, make Mr. Wheeler, in the opinion of the Rating Officer, one of the CS' most valuable officers.

MEMORANDUM FOR: Director of Personnel

SUBJECT: Fitness Report (Annual) - Robert P. Wheeler

1. In compliance with HR 20-20, this memorandum is submitted in lieu of Fitness Report Form 45 covering the performance of Mr. Wheeler from January 1968 to 31 March 1969.

2. In late 1967 it was determined that Mr. Wheeler would be reassigned in June 1968 from the Office of Planning, Programming and Budgeting (OPPB) to the Missions and Programs Staff (MPS). Under an arrangement with the Director of PPB, Mr. Wheeler was lent to MPS on 1 January 1968 for the purpose of preparing himself to assume the functions of Chief of the Programs Group (PRG) in MPS. Accordingly, what follows covers the period of the loan, from 1 January to 11 June 1968, and the period as Chief, PRG, from 12 June 1968 to 31 March 1969.

3. From 1 January to 11 June 1968. During the period of loan to MPS, Mr. Wheeler understudied the then Chief of PRG, acquainted himself with all Group files and responsibilities, attended the Advanced Management (Planning) Seminar and performed numerous ad hoc tasks assigned him by C/MPS. He prepared himself for the new assignment and performed the ad hoc tasks assigned with such dispatch, enthusiasm and intelligence as to augur well for the future. No minor task was too menial; every major task was readily accepted as a challenge. In short, his preparation for the new position soon to be assumed left little to be desired on the part of the Rating Officer.

4. From 12 June 1968 to 31 March 1969. As Chief of PRG, Mr. Wheeler is responsible for, inter alia, liaison on non-budgetary matters between the CS and OPPB; installing the Planning, Programming and Budgeting System (PPBS) within the CS; advising and assisting CS components in the preparation of Operating Directives and the program

portions of the annual Operating Program responses; chairing the Program Review Panel; preparing and/or coordinating special studies and surveys on operational programs; and, as required, advising CS components on the requirements of PPBS that need to be addressed in CS documents requiring DCI or Executive Director-Comptroller action.

5. In carrying out the functions enumerated in paragraph 4, above, Mr. Wheeler has displayed drive, initiative, enthusiasm and understanding. He has pushed within the CS on those concepts of PPBS that are considered applicable to an intelligence organization and has argued with OPPB against forcing the CS to apply those concepts which are not considered to be applicable. He has worked diligently, alone and with the assistance of the DDP/TRO, to spread throughout the CS an understanding of the why and how of PPBS. He has prepared himself well for and has exercised sound judgment and tact in the handling of the chairmanship of the Program Review Panel, on the actions of which he has brought to bear his experiences in OPPB. He has given unstintingly of his time to lecturing at Agency management courses when requested. Although he understands the need for flexibility in the CS, he has to be slowed down at times so anxious is he to make the CS the best managed directorate in the Agency. His sincere interest in good management has made him and the two senior officers he supervises cost conscious. This affable, conscientious, dedicated, highly experienced, intelligent employee, who already has given evidence of a strong performance, is a pleasure to collaborate with and a valuable asset to MPS and the CS.

SUBJECT: Mr. Robert P. Wheeler, GS-16, O/PPB,
Employee Serial No. 060947, D Career Service

REFERENCE: HR 20-20c(2)

1. In accordance with reference, this memorandum is submitted in lieu of a Fitness Report (Form 45). This is an annual report but in view of Mr. Wheeler's transfer to the Missions and Programs Staff, DD/P, in January 1968, it covers only the period April 1967 through December 1967.

2. Mr. Wheeler's assignment as Program Analyst involved: (a) reviewing and evaluating Agency activities, principally covert action programs; (b) participating in special in-depth studies of selected Agency activities; (c) preparing the Covert Action Program Memorandum for the Director's approval and submission to the Bureau of the Budget; (d) keeping abreast of Agency plans, programs, and progress toward defined objectives; (e) providing general staff assistance to the Director/PPB in implementing the Agency planning, programming, and budgeting system; and (f) preparing special presentations and correspondence for the Office of the Director.

3. During the year, Mr. Wheeler participated in a survey by the Inspector General of Agency proprietary organizations. He contributed significantly to the study. In addition, he was the Office monitor for at least two studies for the Bureau of the Budget.

4. Mr. Wheeler was the principal analyst assigned to the review of the Agency's Covert Action Program. He reviewed Directorate program plans and proposals, identified issues to be raised with the Director, and prepared a Program Memorandum for the Director's approval which presented Agency Covert Action plans and programs for the next five years.

7 MAY 1968

[illegible]

5. Mr. Wheeler's long operational experience, extensive contacts throughout the Agency, and exceptional writing ability have contributed to the realistic appraisal of programs and plans and to their effective presentation to the Director and to the Bureau of the Budget. Mr. Wheeler is effective in dealing with other elements of the Agency and has contributed useful suggestions for improving operations and analysis. In summary, Mr. Wheeler made a significant contribution while in the Office. In view of the similarity in functions between the two organizations, I would expect this contribution to be carried forward to his new assignment.

6. I rate Mr. Wheeler's over-all performance during the period as Strong.

7. Mr. Wheeler had no supervisory responsibilities.

8. This report was not shown to Mr. Wheeler because of his earlier transfer to another Agency component.

5. Mr. Wheeler is effective in dealing with other elements of the Agency; he writes exceptionally well, has many useful ideas, and is most cooperative. His vast first-hand knowledge of operational problems permits realistic appraisal of operating plans and proposals. In summary, Mr. Wheeler has made a definite contribution during his eight months in this Office; and we expect this contribution to continue in importance.

6. I rate Mr. Wheeler's over-all performance during the period as Strong.

7. Mr. Wheeler has no supervisory responsibilities.

I thought that from a broad, general standpoint the orientation was worthwhile but that far more BOB participation would have enhanced the program greatly. There was too much of "we think this is what BOB means" and too little of BOB saying "this is what we mean". I found the movie presentation of Dr. E. S. Quade's speech terrible because of inept projection, faulty audio equipment, and out-of-place music. Dr. Quade had a message and fortunately the CSC planners must have known their film was inadequate, for we were provided with the written text. Outstanding possibly because he stood out so far in comparison to the others was Mr. Peter Szanton from BOB. Dr. Adams from the University of Maryland was quite good and Mr. Greenhouse of VA was one of the few others who really seemed to know what he was talking about beyond immediate low to medium level parochial application.

Reporting Period: 1 April 1965 - 31 March 1966

1. During the past year it has clearly emerged that the Honolulu area offers very limited opportunities for CS operational action. The main target of a Honolulu base, as originally conceived by FE Division, was the East-West Center with its large number of Asian students. Although, during the 1964-65 academic year several prospective candidates for the WUENVOY program were assessed and one recruited, political developments in Southeast Asia prevented the arrival of any students at the Center from the priority Southeast Asian countries: Burma, Cambodia, Indonesia.

2. It is against this perspective that Subject's performance during the past year should be evaluated. He approached his job with enthusiasm and vigor but soon found that there were no tangible operational activities he could devote himself or his supporting agents to. He has been frank to state officially and unofficially the absence of any targets to which an operational base could direct itself and has therefore been relatively unoccupied during this period except for an occasional item of local coordination or follow-up on a headquarters task. Subject has had under his direct supervision a long-term Staff Agent at the University of Hawaii and two Staff Agents assigned to the

11 APR 1966

e

University as students for the current academic year. He has handled them well and has done his best to maintain their morale in spite of the fact that there were only a few specific targets on whom they could systematically work.

3. Subject is a mature, experienced and energetic officer with both operational and scholarly interests in Far Eastern, especially Japanese, affairs. His talents are obviously being wasted in Honolulu and arrangements have already been made to have him reassigned. The base itself will be phased down in the summer of 1966 with two of the three Staff Agents reassigned, the long-term Staff Agent kept on at the University, and a more junior officer replacing Subject as COB.

4. Subject has displayed an economical approach to the use both of funds and personnel.

5. In view of the limitations, outside his control, on operational activities in Honolulu, Subject's performance has been more than satisfactory and is rated as proficient.

[redacted]
DOB: 4 October 1915

GS-15
Deputy Chief of Station
Tokyo
Annual Report For the Period 1 April 1963 - 31 March 1964

In preparing this memorandum in lieu of submitting Fitness Report Form 45, I can only set forth my yearly reiteration that Subject is a senior, well-experienced, well-motivated, high caliber KUBARK officer who has been in his present grade, GS-15, since 1957. His high standard of contribution to the Station as its Deputy Chief of Station continues unfailingly. Tokyo Station operations encompass a broad spectrum of internal and external targets emphasizing denied area operations. To keep on top of this activity it needs a man of energy backed up by sound operational knowledge and Subject has carried this job capably and with a will. I would certainly grade him "S" in performance evaluation.

Tokyo Station is widely dispersed and I have urged Subject on several occasions to get out to the various operational elements in an attempt to get closer to and stimulate the working case officers. After one or two starts he has not kept this up on a continuing basis, remaining at his Embassy desk and invariably working through the individual branch chiefs. I am convinced more effort on his part in this field could have resulted in more yield to the Station from his long area and operations experience.

Subject actively participates in the operational review and budget preparation of the Station and has shown a definite cost consciousness.

Subject's long tenure in Japan and experience with things Japanese are well-known and the pro's and con's of the value of an officer remaining in one area for the major portion of his time with KUBARK (possibly to the detriment of his career) have been discussed to a sufficient degree as to rule out further reference in this memorandum. Subject is scheduled to leave the Japan Station and enter an assignment where his operational talents will be of great value.

In any considerations concerning Subject being conducted by any personnel board or by any official of the Agency interested in KUBARK personnel, the significant points are Subject is a deeply motivated, highly capable officer who has been in his current grade too long.

A review of the file reflects that [redacted] has been constantly rated as a well-motivated, superior officer always willing to spend the "extra effort" by a variety of supervisors. During the rating period there has been no diminution in the caliber of professionalism or in the time and effort this man has contributed to the work of the Tokyo Station. He is a distinct asset. Over and above his drive and professionalism, [redacted] brings to the Station a full background concerning intelligence activities having been associated with such activities in Japan for the last seventeen years, either with the military or as a member of the Agency. All of this time he has been in Japan except for a period of almost three years in Washington.

[redacted] has a proficiency in the Japanese language and due to his long tenure in Japan has contacts at a variety of levels.

In sum, the Agency has in [redacted] a superior officer with long background and continuity in Japan, who can and is making a highly significant contribution to the Agency's objectives in Japan.

The above has stressed solely [redacted]'s ability to contribute to KUBARK objectives in Japan. However, there is no doubt in the rater's mind that [redacted] could perform in a superior manner no matter to what geographical area he was assigned.

Subject is a superior officer in every important respect. He is intelligent, imaginative, resourceful and has balanced judgment. He understands administrative procedures and knows how to make them work. As a supervisor, he is firm and fair, and achieves the respect of his subordinates. As a subordinate, he is unfailingly loyal and helpful. He has a good overall grasp of the intelligence business and maintains a healthy attitude of common sense with respect to operations. He is especially useful in Japan, because of his great knowledge of and long experience with Japanese affairs, personalities and psychology, yet I consider he would be a superior officer and supervisor in any other context. His personal character is of the best.

SECTION E NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

Stress strengths and weaknesses demonstrated in current position. Indicate suggestions made to employee for improvement of his work. Give recommendations for his training. Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

This is the first Fitness Report made by Rating Officer on Subject since the latter assumed duties as Deputy for Operations, Tokyo Station. He has worked out extremely well in this role. He is intelligent, energetic, hard-working and faultlessly loyal. He pays attention to detail while remaining mindful of larger considerations. He is effective as a supervisor and commands the willing allegiance of his subordinates. He has excellent judgment in both administrative and operational matters. Because of his extensive background in Japan, his knowledge of things and people Japanese and his fair-to-good command of the language, he is particularly well suited for his present position. However, he would be an asset to any station or element of Headquarters in a high supervisory position.

This report has been prepared in accordance with F E Division standards which recognize the principle of rating the individual against the group. Thus an 'average' rating reflects an entirely satisfactory performance.

SECTION E NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

Stress strengths and weaknesses demonstrated in current position. Indicate suggestions made to employee for improvement of his work. Give recommendations for his training. Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

Subject is a well-seasoned, imaginative operations officer, who is extremely practical in his approach to operational situations. He is especially fine in his dealings with people whether superiors or subordinates. He did an excellent job as a member of the FE Division Staff in improving and expediting the FI and CI activities of the Division. Subject has an excellent background in all things Japanese and is extremely adept at building rapport with his Japanese counterparts.

He has the capacity to handle large volumes of work which many times leads him afield into activities that are not within his purview. His personality however allows him to do this without alienating others.

This report has been prepared in accordance with FE Division standards which recognize the principle of rating the individual against the group. Thus an "average" rating reflects an entirely satisfactory performance.

SECTION C. JOB PERFORMANCE EVALUATION

1. RATING ON GENERAL PERFORMANCE OF DUTIES

DIRECTIONS: Consider ONLY the productivity and effectiveness with which the individual being rated has performed his duties during the rating period. Compare him ONLY with others doing similar work at a similar level of responsibility. Factors other than productivity will be taken into account later in Section D.

INSERT RATING NUMBER: 4/5

1 - DOES NOT PERFORM DUTIES ADEQUATELY. HE IS INCOMPETENT.
2 - BARELY ADEQUATE IN PERFORMANCE. ALTHOUGH HE HAS HAD SPECIFIC GUIDANCE OR TRAINING, HE OFTEN FAILS TO CARRY OUT RESPONSIBILITIES.
3 - PERFORMS MOST OF HIS DUTIES ACCEPTABLY. OCCASIONALLY REVEALS SOME AREA OF WEAKNESS.
4 - PERFORMS DUTIES IN A COMPETENT, EFFECTIVE MANNER.
5 - A FINE PERFORMANCE. CARRIES OUT MANY OF HIS RESPONSIBILITIES EXCEPTIONALLY WELL.
6 - PERFORMS HIS DUTIES IN SUCH AN OUTSTANDING MANNER THAT HE IS EQUALLED BY FEW OTHER PERSONS KNOWN TO THE SUPERVISOR.

COMMENTS: With additional experience on the job, his performance might be such as to warrant a 5 rating.

2. RATINGS ON PERFORMANCE OF SPECIFIC DUTIES

DIRECTIONS:

a. State in the spaces below up to six of the more important SPECIFIC duties performed during this rating period. Place the most important first. Do not include minor or unimportant duties.
b. Rate performance on each specific duty considering ONLY effectiveness in performance of this specific duty.
c. For supervisors, ability to supervise will always be rated as a specific duty (do not rate as supervisors those who supervise a secretary only).
d. Compare in your mind, when possible, the individual being rated with others performing the same duty at a similar level of responsibility.
e. Two individuals with the same job title may be performing different duties. If so, rate them on different duties.
f. Be specific. Examples of the kind of duties that might be rated are:

ORAL BRIEFING
GIVING LECTURES
CONDUCTING SEMINARS
WRITING TECHNICAL REPORTS
CONDUCTING EXTERNAL LIAISON
TYPING
TAKING DICTATION
SUPERVISING
HAS AND USES AREA KNOWLEDGE

g. For some jobs, duties may be broken down even further if supervisor considers it advisable, e.g., combined key and phone operation, in the case of a radio operator.

DESCRIPTIVE RATING NUMBER

1 - INCOMPETENT IN THE PERFORMANCE OF THIS DUTY
2 - BARELY ADEQUATE IN THE PERFORMANCE OF THIS DUTY
3 - PERFORMS THIS DUTY ACCEPTABLY

3. NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

DIRECTIONS: Stress strengths and weaknesses, particularly those which affect development on present job.

His greatest strength is a warm and engaging personality, an unabashed friendliness that secures him an immediate willingness to cooperate from the people with whom he deals. He is an extremely hard worker, an accurate and meticulous reporter, has energy and enthusiasm and is generally sound in his judgment. On occasions he demonstrates a lack of depth in his assessment of a situation which leads him to jump too quickly to conclusions based on intuition and emotion. As the facts assert themselves, however, he is ready to revise his opinions. As his knowledge of the Agency and operations continue to grow, however, this tendency should diminish.

SECTION D. SUITABILITY FOR CURRENT JOB IN ORGANIZATION

DIRECTIONS: Take into account here everything you know about the individual....productivity, conduct in the job, pertinent personal characteristics or habits, special defects or talents....and how he fits in with your team. Compare him with others doing similar work of about the same level.

4 - OF THE SAME SUITABILITY AS MOST PEOPLE I KNOW IN THE ORGANIZATION
5 - A FINE EMPLOYEE - HAS SOME OUTSTANDING STRENGTHS
6 - AN UNUSUALLY STRONG PERSON IN TERMS OF THE REQUIREMENTS OF THE ORGANIZATION
7 - EXCELLED BY ONLY A FEW IN SUITABILITY FOR WORK IN THE ORGANIZATION

IS THIS INDIVIDUAL BETTER SUITED FOR WORK IN SOME OTHER POSITION IN THE ORGANIZATION? ☒ YES ☐ NO. IF YES, EXPLAIN FULLY:

Although he is perfectly capable of conducting his current job with distinction, he would shine in any position involving liaison with the U.S. military in which his long experience in dealing with military men and his personality could be brought to bear.

1. Mr. Robert P. Wheeler, FE/FI, has completed a Special Management Course (Operational Management Seminar) held 7-18 January, 1957.

2. The course covered 38 hours of lectures and group discussions, together with a limited amount of reading. The course outlined the responsibilities of management at the Branch Chief level and selected problems of Headquarters management dealing with clandestine activities. The individual named completed all course assignments but received no grade, since no evaluation was made of the student's performance in this special course, or of his ability to perform a particular job assignment.

MEMORANDUM FOR THE RECORD

SUBJECT: Fitness Report on Robert P. WHEELER

1. The attached Fitness Report should be read with the following facts in mind. The Rating Officer arrived in the Japan Station on 21 January 1956. Mr. Wheeler left Japan on or about 19 March 1956 and was in the United States on TDY until 8 May 1956. From 8 May until he left Japan PCS on 7 June 1956, Mr. Wheeler was unassigned in the Japan Station. While the Rating Officer was Chief of Operations, Japan Station, Mr. Wheeler was in his assigned position simultaneously for less than one month and it is my understanding Mr. Wheeler did not report to Mr. Heckscher, but directly to the Chief of Station.

2. I question, therefore, whether Mr. Wheeler was under the Rating Officer's direct supervision for a sufficient period of time to insure that the attached report is a completely equable one. Inasmuch as the Chief of Station reviewed this report and made no comment, I am in no position to take issue with it, but suggest that it be viewed in the context of other Fitness Reports on Mr. Wheeler.

SECTION IV

This section is provided as an aid in describing the individual. Your description is not favorable or unfavorable in itself but acquires its meaning in relation to a particular job or assignment. The descriptive words are to be interpreted literally.

On the left hand side of the page below are a series of statements that apply in some degree to most people. On the right hand side of the page are four major categories of descriptions. The scale within each category is divided into three small blocks; this is to allow you to make finer distinctions if you so desire. Look at the statement on the left, then check the category on the right which best tells how much the statement applies to the person you are rating. Placing an "X" in the "Not Observed" column means you have no opinion on whether a phrase applies to an individual. Placing an "X" in the "Does Not Apply" column means that you have the definite opinion that the description is not at all suited to the individual.

A. WHAT ARE HIS OUTSTANDING STRENGTHS?

Subject has the outstanding ability to do a remarkable number of jobs remarkably well. He performs brilliantly and rapidly, if sometimes superficially, and completes a prodigious amount of work, meeting deadlines, and at the same time, unless deeply disturbed, maintaining a humorous and kindly attitude toward his associates that makes him almost always exceptionally pleasant to deal with. He is extremely well suited for almost any phase of intelligence work.

B. WHAT ARE HIS OUTSTANDING WEAKNESSES? Subject tends at times to become elated or depressed to the extent that he sometimes loses his ability to make a carefully balanced judgement. When, as happens very rarely, he runs up against what he believes to be stupidity or serious incompetence, his strongly emotional reaction sometimes hampers a necessary working relationship. He is occasionally a little too easily swayed, like a weather-vane, by the opinions of his superiors. Some of these characteristics are, however, at times actually advantageous in his work, and are far overbalanced by his outstanding strengths.

C. INDICATE IF YOU THINK THAT ANY SINGLE STRENGTH OR WEAKNESS OUTWEIGHS ALL OTHER CONSIDERATIONS:

High capacity for competant and rapid accomplishment in almost any intelligence field, particularly as based on his long residence and interest in Japan.

D. DO YOU FEEL THAT HE REQUIRES CLOSE SUPERVISION? ☐ NO ☒ YES. IF YES, WHY?

Subject has excellent balance in supervising others, but often requires guidance and direction in something in which he personally is closely concerned.

E. WHAT TRAINING DO YOU RECOMMEND FOR THIS INDIVIDUAL?

T&P course; refresher course in KUFIRE techniques.

F. OTHER COMMENTS (*Indicate here general traits, specific habits or characteristics not covered elsewhere in the report but which have a bearing on effective utilization of this person*):

Subject makes an invaluable contribution through his knowledge of Japan, and through the continuity resulting from his willingness to remain for an indefinite period in the area.

Supplement to Staff Agent Personnel Action

For [redacted], Effective 25 October 1964

Robert [illegible] Anderson
Robert [illegible] Anderson

Mr. [redacted]

Dear Mr. [redacted], Anderson

In view of your contemplated cover assignment, you have been designated a Staff Agent. The purpose of this Supplement is to call your attention to existing policies which are particularly material to you while you are so designated and to set forth certain obligations incident to your status as an appointed employee.

1. Payroll Administration. As indicated in your Staff Agent Personnel Action, your present salary and grade are $20,245.00 per annum and GS-16³, respectively. As an appointed employee of the Government you are entitled to receive and retain only the salary, allowances and other benefits applicable to that status. However, procedural variations will be followed to preserve the security of your position.

(a) The gross emoluments that you receive from your cover activities will be retained by you as an offset against the gross emoluments due you from this organization. If cover emoluments ever exceed those due you from this organization, the overage is to be remitted to this organization on a monthly basis, unless a different period is specified.

(b) Federal income taxes will be withheld, reported and paid in conformance with Agency procedures designed to protect against the unauthorized revelation of your true relationship to the Government. You will be briefed thereon prior to your departure.

(c) This organization will deduct from the gross payments due you an amount equivalent to six and one-half percent (6 1/2%) of your gross salary for contribution to the Civil Service Retirement Fund. This amount will be deducted from the differential due you by this organization. If there is no differential or if it is insufficient, you will be required to make direct remittances to this organization in satisfaction of the required contributions.

(d) This organization will not reimburse you for mandatory Social Security deductions if such deductions are required by virtue of your cover employment. However, when for compelling cover, security or operational reasons this organization determines that you must ostensibly participate in a fringe benefit program of a cover facility you will be reimbursed therefor by this organization in an appropriate manner. In such event any benefit received by you, your heirs or any other party as a result of your ostensible participation therein while a Government employee is the property of the Government and will be disposed of at such time and in such a manner as this organization may require.

SECRET

2. Furnished Quarters. If you and your dependents are furnished quarters by the Government while PCS Honolulu, Hawaii, you will be charged a reasonable rental therefor, as established under the Hawaii rental rate schedule of this organization.

3. Secrecy. You will be required to keep forever secret this Supplement and all information which you may obtain by reason hereof (unless released in writing by the Government from such obligation), with full knowledge that violation of such secrecy may subject you to criminal prosecution under the Espionage Laws, dated 25 June 1948, as amended, and other applicable laws and regulations.

4. Place of Assignment. This Supplement is predicated upon an assignment in Honolulu, Hawaii, under nonofficial cover. Any deviation therefrom will require a new supplement or an amendment thereto.

PERSONAL FOR MCCONE FROM REISCHAUER

WE WILL BE REPORTING IN ANOTHER FORM OUR ANALYSIS OF THE CASE OF THE TWO SOVIET MUSICIANS. I JUST WANT TO TELL YOU, HOWEVER, THAT WE WOULD NOT RPT NOT HAVE BEEN ABLE TO GET THE RESULTS WE DID IF IT HAD NOT BEEN FOR PETE WHEELER. HE WAS ON THE JOB WITHIN MINUTES AFTER THE MEN WALKED IN, GOT HIS RUSSIAN SPEAKING PEOPLE WORKING QUICKLY, AND HELPED TO HANDLE THE WHOLE AFFAIR WITH EFFICIENCY AND DISPATCH. HIS EXPERIENCE IN JAPAN AND THE CONFIDENCE WHICH THE JAPANESE AUTHORITIES SHOWED IN WORKING WITH HIM WERE A DECISIVE FACTOR IN THE DEFINITE CHANGE WHICH TOOK PLACE OVER THE WEEKEND IN THE JAPANESE ATTITUDE ON HOW TO HANDLE CASES LIKE THIS.

HIS CONTRIBUTION HAS BEEN MAJOR AND THE RESULTS WILL BE LONG-LIVED. THIS IS ONLY ANOTHER EXAMPLE OF THE SERVICE WHEELER HAS PERFORMED HERE OVER THE YEARS. WE ARE SORRY TO SEE HIM LEAVE AND WILL MISS HIM VERY MUCH.

Supplement to Staff Employee Personnel

Action for Integration of Robert F. Wheeler

Effective 8 May 1952

The purpose of this memorandum is to call your attention to existing policies which are particularly material to you while you are integrated and to set forth certain rights and obligations which are incident to your status as an appointed employee. It is hereby agreed and understood that:

1. As an employee of this organization, at the present grade and salary of GS-15 $12,770 per annum, you will accept cover employment with another instrumentality of the Government (hereinafter referred to as "your cover facility") effective as of 8 May 1952. You will, insofar as consistent with your basic responsibility to this organization, abide by all the rules, regulations, practices and policies of your cover facility, in order to appear as a conventional member of that establishment. Your appointment to your cover facility is being effected at FSR-3 and salary of $11,660 per annum. You are prohibited, except as specifically authorized herein, from retaining emoluments paid by your cover facility.

2. It is understood and agreed that the minimum period of your overseas tour of duty is governed by and coincident with the prescribed tour of duty of your cover organization. Currently, your prescribed tour consists of a period of 24 Months from the date of your arrival at your overseas post of duty. Your assignment may be terminated earlier for the convenience of this organization and the length of your tour of duty, as currently specified, may be unilaterally changed by this organization in order to conform with subsequent changes in the prescribed tour of your cover facility. If you request termination of your overseas assignment solely for your own convenience, unless it is for circumstances that are considered by this organization to be beyond your control or if you are terminated for cause under the regulations of this organization before you have completed the minimum period of service prescribed above from the date of arrival at your overseas post of duty, you will not be entitled to return travel or transportation for yourself or your dependents to the United States at Government expense. If you request termination of your overseas assignment solely for your own convenience, unless it is for circumstances that are considered by this organization to be beyond your control or if you are terminated for cause under the regulations of this organization before you have completed one (1) year of service from the date of your arrival at your overseas post of duty, you will be required to reimburse the Government for all of its expenses for your travel and transportation, and that of your dependents, from the continental United States to such overseas post of duty.

FORM 10-54 1535

SECRET

3. Travel to your post of duty overseas and your return travel to the United States, as well as travel performed overseas which is consistent with your cover designation, will normally be at the direction of your cover facility. Such travel will be accomplished in conformance with applicable regulations of your cover facility except when you are directed for operational reasons to perform travel in accordance with the regulations of this organization.

4. Salary and (except as provided in paragraph three (3) above) allowances paid by your cover facility shall be retained by you to the extent that they are less than or equal to the salary and allowance payments due on the basis of your grade level with this organization. If such cover payments are less than the amount due, the difference will be credited to your payroll account with this organization. If such cover payments exceed the amount due, the overage will be remitted to this organization at designated intervals, presently (months if applicable). Computations hereunder will be made on the basis of the aggregate gross due and received provided, however, that in computing remittances for overage Federal and, if applicable, District of Columbia income taxes withheld by your cover facility against the overage may be deducted. To assure timely accuracy in your payroll account with this organization you are expected to immediately report cover facility payroll changes.

5. Your status as an employee of this organization will continue in full force and effect during your period of duty with your cover facility and you will continue to be entitled to all rights, benefits and emoluments of such status. Certain variations in procedure will be required, however, to preserve the security of your cover position.

a. Upon integration into your cover facility, you will continue to be covered by the provisions of the Civil Service Retirement Act, as amended, and at your personal expense you will be subject to payroll deductions for retirement purposes (now six and one-half percent) on the basis of your cover salary or your salary from this organization, whichever is the greater.

b. If you receive taxable income from both your cover facility and this organization, necessary adjustments for Federal, and if applicable, District of Columbia income tax purposes will be made in conformance with instructions received from this organization.

c. Consistent with your cover activity, you will continue to be responsible for compliance with the rules and regulations of this organization.

d. You are not assured upon the completion of your period of duty with your cover facility of any status with your cover based on your services performed with that organization at the request of this organization.

e. A portion of your annual and all of your sick leave which has accrued to your credit at the time of your integration shall be transferred to your cover facility. The remainder of your annual leave will be held by this organization in escrow pending the completion of your integration. If the sum of your accumulated annual leave with your cover facility and this organization exceeds the maximum accumulation entitlement afforded you under the regulations of this organization, the excess will be forfeited. If possible, such forfeiture will be accomplished by reducing the leave credit in your escrow account with this organization. While integrated, you will be permitted annual leave, sick leave, home leave, and leave without pay in accordance with the regulations of your cover facility in lieu of the leave benefits of this organization. Upon completion of your integration, your accrued annual and sick leave will be transferred to your credit with this organization. If security conditions require that your cover facility make a lump-sum payment for accrued annual leave, you will be required to pay the gross amount thereof to this organization including income taxes withheld by your cover facility.

6. You will be required to keep forever secret this agreement and all other information which you may obtain by reason hereof, unless you are released in writing by this organization from this obligation. Violation of such secrecy may subject you to criminal prosecution under the Espionage Laws, dated 25 June 1948, as amended, and other applicable laws and regulations. The termination of your employment with this organization will not release you from the obligation of any security oath you may be required to take.

ATTACHMENT TO FIELD REASSIGNMENT QUESTIONNAIRE:

Re Paragraph C - Preference for Next Assignment:

1. I would like to state that while a tour at Headquarters should be my preference I believe that for me to leave my current assignment at this time for even one year would not be in the best interests of either KUBARK or ODYOKE. Therefore, I request home leave, with approximately one month at Headquarters for requested training and refresher work and one month of leave, returning to current assignment for at least an additional two-year tour with the proviso that after the first year the situation be re-examined with the ultimate view of possibly at that point considering a two-year tour at Headquarters.

2. In my years in work on Japan, approximately ten of which have been spent consecutively in Japan, I feel that I have been able to provide a certain degree of intelligence continuity which could be spoiled by a two-year break. Realizing that career-wise I should spend at least one tour at Headquarters in the future, I believe that, despite possible reflections against my career, that two year period should be delayed until (a) KUBARK is better established in Japan and (b) the Japanese governmental and economic situations are on more stable grounds. I believe that I can play a major role in both those situations, not because I have any special talent to offer but simply because I have the continuity which KUBARK as such lacks in Japan.

3. I believe that by experience, training and inclination I can better serve KUBARK in this country in the type of work in which I am now engaged than by any other assignment currently known to me.

NARRATIVE EVALUATION REPORT

[illegible]

Name: [redacted]S-14 **Period Covered:** 1 June 1953 to 1 June 1954

Occasion for report: Annual X ; reassignment of reporting officer ______; proposed reassignment of employee reported on ______; covering initial 90 days of employment ______.

Employee is to be rated upon following factors:

1. **Knowledge of the job being performed.**
2. **Judgment in arriving at logical and workable solutions.**
3. **Dependability, not only in being on the job, but in accomplishment of assigned tasks within reasonable deadlines.**
4. **Stability under pressure and ability to adjust to changing conditions and circumstances.**
5. **Imagination, initiative, and originality.**
6. **Security consciousness.**
7. **Tact and diplomacy in dealing with others.**

IN FAIRNESS TO EMPLOYEES, COMPLETED NARRATIVE EVALUATIONS SHOULD BE DISCUSSED WITH EMPLOYEE CONCERNED

1. Employee is well qualified in substantive fields concerning Japan and the long background of FEC intelligence activity in this area. This knowledge serves him exceedingly well in the performance of assigned duties. What knowledge he lacks concerning KUBARK policies or procedures is fast being supplied by practical field experience.

2. His judgment at arriving at logical solutions is good under normal conditions, and he generally comes up with solutions which are workable and realistic.

3. He is completely dependable and is particularly sensitive to deadlines, which he makes almost a fetish of meeting. In every sense of the word, he is a man of action in terms of treating with the recurring problems of the station.

4. Employee is somewhat excitable and emotional and, thus, at times of unusual pressure, he may require a steadying hand. This is not a serious fault and is one concerning which the employee is aware. He adjusts well to changing conditions and situations.

5. His imagination, initiative, and originality have shown time and again in his dealings with Army personalities in FEC with whom he has maintained excellent relations on behalf of this Station.

CONFIDENTIAL RYBAT

6. Security consciousness is excellent.

7. Tact and diplomacy in dealing with others is superior.

(If Reviewing Officer or Chief of Station does not concur with this report, exceptions will be stated in space provided below)

CONFIDENTIAL

[redacted]

1. While the Reviewing Officer concurs generally with statements made in this report, it is felt that the over-all impression does not give Subject as much credit as he deserves. In the opinion of the Reviewing Officer, Subject's faults are somewhat over-emphasized. Subject's qualities as exhibited during past months have proven to be outstanding, particularly in his excellent judgement in arriving at logical and workable solutions and in his stability under operational exigencies in which Subject has performed exceedingly well under heavy pressures of both time and responsibility.

2. Working in an area where, in the past, there has been an unfortunate number of misunderstandings between KUFIRE and KUGOWN components, and where there have been the usual difficult personality conflicts, Subject has exhibited not only superior tact and diplomacy, but has also been able to smooth out many difficulties, and modify aggressively offensive actions. He has supplied a needed cooperative spirit and sense of humor to prevent, in many cases, serious antagonisms and unnecessary vituperation so detrimental to a smooth working organization. Subject's contribution to bringing about a friendly, cooperative relationship within the mission and with outside agencies including U.S. military organizations cannot be praised too highly.

DISPATCH NO. PJJA-1279

TO : Chief, FE
Through: Senior Representative, Tokyo
FROM : Chief, JCU ✓

DATE: 17 AUG 1953

SUBJECT: GENERAL- Administrative - Personnel
SPECIFIC- [redacted], Commendation of
Mr. Robert P. WHEELER

1. The purpose of this dispatch is to make a matter of record the excellence of performance of duties demonstrated by [redacted] over the period of his first ten months of assignment to JCU.

2. During that time [redacted] has shown himself to be a valuable addition to KUBARK as a whole and a great asset to this particular station. As JCU Chief of Staff, he has performed innumerable tasks in the operational, intelligence and support fields with effectiveness and dispatch. His aggressiveness, imagination and initiative in spite of recurring frustration have been an inspiration to all members of JCU. His diligence and selflessness have set an example throughout the ranks. From the first day of his arrival in JCU, [redacted] has dedicated his every effort to improving the efficiency and broadening the capability of the station.

3. [redacted] should be especially commended for his unceasing efforts in connection with the provision of new office space for this organization. Working tactfully but aggressively through the Army hierachy here in Tokyo, he was able to accomplish many concessions of direct benefit to JCU which would have been most difficult to obtain through official channels.

4. Special mention should also be made of the excellent progress [redacted] has made in the fostering of truly cooperative and productive relationships with the various intelligence elements of the Far East Command. Capitalizing on a wide range of friends and former associates and combining a large portion of common sense and patience, [redacted] may be credited with the development of highly profitable JCU relations with military organizations in the area.

5. [redacted] has shown no task to be too large or too small to deserve his range of energy and talent. He has been a vital factor in the accomplishments of JCU to date.

INSTRUCTIONS TO APPOINTING OFFICER

The appointing officer before whom the foregoing certificate is made shall determine to his own satisfaction that this appointment would be in conformance with the Civil Service Act, applicable Civil Service Rules and Regulations and acts of Congress pertaining to appointment.

This form should be checked for holding of office, pension, suitability in connection with any record of recent discharge or arrest, and particularly for the following:

(1) *Identity of appointee.*—It is the duty of the appointing officer to guard against impersonation and to determine beyond reasonable doubt that the appointee is the same person whose appointment was authorized. The appointee's signature and handwriting are to be compared with the application and/or other pertinent papers. If the appointee qualified in a written examination, the signature on this form should be compared with the signature on the declaration sheet, which was signed in the examination room. His physical appearance may be checked against the medical certificate. The appointee may also be questioned on his personal history for agreement with his previous statements.

(2) *Age.*—If definite age limits have been established for the position, it should be determined that applicant is not outside the age range for appointment. Until such determination is made, the appointment may not be consummated.

(3) *Citizenship.*—The appointing officer is responsible for observing the citizenship provisions of (1) the Civil Service Rules and (2) appropriation acts. Form 61 constitutes an affidavit for both purposes and is acceptable proof of citizenship status in the absence of conflicting evidence. In doubtful cases the appointment should not be consummated until clearance has been secured from the certifying office of the Civil Service Commission.

(4) *Members of Family.*—Section 9 of the Civil Service Act provides that whenever there are already two or more members of a family serving under probational or permanent appointment in the competitive service, no other member of such family is eligible for probational or permanent appointment in the competitive service. The appointments of persons entitled to veteran preference are not subject to this requirement. The members of family provision does not apply to temporary appointments. Doubtful cases may be referred to the appropriate office of the Civil Service Commission for decision.

[illegible] annulment of [illegible] Taylor [illegible] 1928 [illegible] Bridgeport, Conn. [illegible] I have never mentioned this [illegible] annulment in the Superior Court of the State of California, San Francisco City and County, 10 May 19[illegible]. [illegible] this marriage was not known to anyone but the principals and the officials who performed the marriage and the annulment. Neither set of parents and few if any friends have ever known of it. Any investigation at this late date would only be the source of needless embarrassment to all concerned. Miss Taylor, as far as I know, has long since married and I have had no contact with her since Feb 19[illegible]. If there are further questions, it would be appreciated if only I am approached. There is nothing to hide or to be ashamed of, but there is a lot of unnecessary embarrassment that can so easily be avoided.

Re Sec. 5 My father was born in Coaticook, Quebec, while his mother was visiting there, so I have always understood. Both of his parents were US Citizens and he was the 10th generation in the US. He had some military service in the Spanish-American War, but I am totally ignorant of any details.

1. On 7 July 1961 WIROGUE was advanced the sum of U. S.$100.00 for living expenses in Brazzaville while awaiting onward transportation to PBPRIME. (DIR-46429 requested WIROGUE return to PBPRIME). This is his only outstanding advance with Leopoldville Station. Receipt attached hereto.

2. DIR-49325 authorized Station to withhold money received from sale of personal car against outstanding advances. However, before his departure WIROGUE accounted for 11,980 BCF over what he owed the Station. The sum of 42,100 BCF from the sale of his automobile plus 11,980 BCF converted at 50/$1.00 (LEOP-1599 and DIR-49325) gave WIROGUE a credit of $1,081.60. In January 1961 WIROGUE was ordered to Thysville by the Station and was authorized $0.10 per mile for use of his personal car, therefore, 312.5 miles times $0.10 equals $31.25 leaving WIROGUE a credit of U. S. $1,112.85. (See attachment).

3. WIROGUE was paid his June salary of $500 on 26 June and also his housing for July ($250.00). (Station was notified on 1 July, DIR-46429 that WIROGUE was to return to PBPRIME). However, July rental was used in the final settlement of the lease for the usual damages claimed by local landlords and in lieu of 30 days termination notice. Receipt forwarded under Voucher: 1153.

4. Accountability in the amount of U. S. $100.00 is herewith transferred to Headquarters plus a credit of $1,112.85. As WIROGUE was specifically told he would have to account for the above $100.00 for living/traveling expenses Station did not subtract that amount from his credit.

MEMORANDUM FOR: James S. Woods

FROM: John N. McMahon
Deputy Director for Operations

SUBJECT: Commendation for Exceptional Performance

1. The Directorate of Operations Records Review Task Force has finished its work in Warrenton. I want you to know that I realize that a large measure of the success of this effort was due to the exceptional performance of the Records Management Officers who worked long and hard during the six-month period, patiently guiding the 435 Directorate personnel who served on the component teams. Many of you performed additional duties, voluntarily and cheerfully, extending beyond the ten-hour work day, which kept the task force functioning smoothly.

2. This fine team effort and your personal contribution to it is in the best tradition of the Directorate of Operations. I commend you for a job well done.

Thank you – John McMahon

"As Chief, RI at Vietnam Station, Subject is responsible for the supervision of eleven personnel engaged in highly diversified activities, all subject to tight scheduling and deadlines. Examples of some of the diversified activities for which Subject is responsible are courier service throughout Vietnam, cable secretariat functions and intelligence reports reproduction and distribution, in addition to the classic registry functions normally performed by a station registry.

"Subject has energetically applied himself to improving procedures within his Section and to the cross-training of employees under his supervision to provide flexibility in his operations. His efforts in these areas bore welcome fruit during the recent disturbances when his Section was placed on twenty-four (24) hour duty for several weeks. During this period, while operating with a reduced staff and an ever-increasing workload, Subject kept all services operationally effective and on a timely basis with the exception of the in-country courier runs which were interrupted for a few days by circumstances beyond his control.

"Subject is a dedicated, conscientious and loyal employee. He is cooperative, exercises initiative in accomplishing the tasks at hand and responds favorably to constructive criticism. Personnel in his section perform their duties in a friendly, courteous and efficient manner. Their attitude, which is an expression of the direction received, has been brought to the attention of the writer on numerous occasions by various Station personnel.

SUBJECT: GENERAL- Administrative/Personnel
SPECIFIC- Recommendation for Promotion - James S. WOODS

1. It is recommended that James S. WOODS be promoted from GS-5 to GS-7. Subject entered on duty with the Korea Mission 26 July 1954.

2. WOODS presently occupies proposed Slot No. 21 which has been recommended as a GS-9 slot. Subject has been in grade as a GS-5 since 6 June 1953 and has performed the duties of his present assignment since 10 August 1954.

3. Subject has had approximately two years of experience in the maintenance of agent records. This experience has enabled him not only to assume his present responsibilities with a minimum of supervision, but also to initiate a completely new and improved system for the maintenance of the agent records of the Korea Mission. Due partially to the efficiency of the system that he has initiated and partially to the enthusiasm with which he approaches his work, FOSHAG has assumed the work load previously handled by two individuals and at the same time has managed to keep his backlog to a minimum.

4. WOODS is conscientious, hard-working and more than willing to work long hours of overtime without additional compensation in order to maintain his section on a current basis. Subject individual devoted unusually long hours to reestablish himself during the recent move of this Mission to Japan. On the basis of work performance and motivation, subject is recommended as justly deserving of promotion to GS-7.

5. I certify that WOODS is performing the duties outlined in the job description attached hereto.

(3) See that the results of KOMI file checks received from Headquarters and CHIMI are properly carded and forwarded to the case officer concerned.

(4) Keep all agent records up-to-date with regard to cryptonyms, POC's, OC's and other additional information received.

(5) Keep files on all terminated agents and see that the proper records are filled out and forwarded when they are terminated.

b. To maintain the RI card index, assuring that all cards received in RI are properly filed and have the correct names and telecodes.

c. To analyze, card and file all documents forwarded to Personality Files; these includ**State Station**emos, MOR's, Contact Reports, [illegible] Reports, [illegible]'s, various intelligence summaries, etc.

3. Responsibility for the Work of Others:

4. Scope and Effect of Work:

5. Supervision and Guidance Received:

I receive no direct supervision or guidance in duties relating to the maintenance of agent records. I receive over-all policy guidance from the Chief of RI and some guidance from branch chiefs and case officers.

c. Judgment: I must decide what action should be taken on all KOMI file checks, regarding what information is to be sent to Headquarters and CHIMI.

7. Personal Work Contacts:

I must maintain close personal contact with all case officers and branch chiefs in order that I may maintain up-to-date agent records.

8. Other:

Dear Sir:

I received your letter dated January 5, stating that I was to inform you of any changes in my present status.

I am now a grade GS 2 with an one year increase. I am now being considered for a grade GS 3 in the Treasury Dept. I assure you, this does not lesson my zeal to get in the C.I.A.

I would like to know if your Agency would transfer or consider me for appointment at a grade GS 3.

Sincerely yours,

EVALUATION AND RECOMMENDATIONS (BE COMPLETE AND JUSTIFY DECISIONS, NOTE ANY UNFAVORABLE CIRCUMSTANCES.)

A CLEAN CUT, BRIGHT EYED, EAGER YOUNGSTER, VERY AMBITIOUS BUT HAS HAD LIMITED EXPERIENCE. HE WOULD LIKE TO GET INTO ACCOUNTING, BUT HE HAS HAD ONLY BASIC ACCOUNTING AND HAS NEVER HAD A JOB IN ACCOUNTING TO TEST HIM. HE IS WILLING TO TAKE A CLERK JOB IF HE WILL GET A ~~CLEARANCE~~ CHANCE AT ACCOUNTING. WILL GO O/S. FEELS HE IS BLOCKED IN HIS JOB IN TREASURY DEPT. SINCE HE WILL COME AS A GS-2, I WOULD TAKE A CHANCE ON ~~HO~~ HIM IF HIS TESTS SHOW ANYTHING ENCOURAGING. HE EXPECTS TO ENTER STRAYERS COLLEGE OF ACCOUNTING (NIGHT) IN FEBRUARY. DOES NOT DESIRE POOL. SUGGEST MISS MC KENNEY LOOK HIM OVER. FORMS ATTACHED. HAS BEEN SCHEDULED FOR GS-4 CLERK-ACCT. TEST ON 20 DECEMBER.
